Notice of Application for a Recordable Disclaimer of Interest for Lands Underlying the George River in Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The State of Alaska (State) has filed an application with the Bureau of Land Management (BLM) for a Recordable Disclaimer of Interest (RDI) from the United States in those lands underlying the George River from its mouth to Julian Creek. The State asserts that the George River, a major tributary of the Kuskokwim River in southwestern Alaska, was navigable and unreserved at the time of Alaska Statehood in 1959.

DATES: Comments on this action are due on or before September 5, 2017.

ADDRESSES: You may submit comments on the State of Alaska's Application for an RDI or the BLM Draft Summary Report for the State's Application for a Recordable Disclaimer of Interest by mail or email. To file by mail, send to: RDI Program Manager (AK-942), Division of Lands and Cadastral, BLM Alaska State Office, 222 West 7th Avenue, #13, Anchorage, AK 99513. To submit by email, send to: *anichols@blm.gov*.

FOR FURTHER INFORMATION CONTACT:

Angie Nichols, RDI Program Manager, at 222 West 7th Avenue, #13, Anchorage, AK 99513; 907-271-3359; or *anichols@blm.gov*; or visit the BLM Recordable Disclaimer of Interest Web site at

Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on November 25, 2008 (73 FR 71858). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

<https://www.blm.gov/programs/lands-and-realty/regional-information/alaska/RDI/kuskokwim>. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay System (FRS) at 1-800-877-8339 to contact the individual identified in this section during normal business hours. The FRS is available 24 hours a day, seven days a week, to leave a message or a question with that individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: On March 10, 2006, as modified on September 16, 2015, the State of Alaska filed an application (AA-86373) for an RDI pursuant to section 315 of the Federal Land Policy and Management Act of 1976 and the regulations contained in 43 CFR subpart 1864 for the lands underlying the George River. The State asserts that this river was navigable at the time of Alaska Statehood. As such, the State contends that ownership of the lands underlying this river automatically passed from the United States to the State of Alaska in 1959 at the time of Statehood under the Equal Footing Doctrine; the Submerged Lands Act of 1953; the Alaska Statehood Act; and other title navigability law.

The State's application is for all submerged lands underlying the portion of the George River from its mouth to Julian Creek. Specifically, these are the submerged lands within the bed of the George River between the ordinary high water mark of the left and right banks, beginning at the confluence of Julian Creek in Township 24 North, Range 44 West, Section 4, Seward Meridian, Alaska, U.S. Geological Survey (USGS) 1:63,360 series topographic map Iditarod A-3 (1954). Thence southerly to its confluence with the Kuskokwim River in Township 21 North, Range 46 West, Section 21, Seward Meridian, Alaska, USGS 1:63,360 series topographic map Sleetmute D-5 (1954, minor revisions 1975). The applied section of the George River flows through the following Townships and Ranges:

Seward Meridian:
 Township 24 North, Ranges 44-45 West;
 Township 23 North, Ranges 45-46 West;
 Township 22 North, Ranges 45-46 West;

Township 21 North, Range 46 West.
 The precise location may be within other townships due to the ambulatory nature of these water bodies.

An RDI is a legal document through which the United States disavows ownership of specified land, but it does

not grant, convey, transfer, or renounce any title or interest in the lands, nor does it release any tax, judgment, or lien. This Notice of Application is intended to inform the public of the pending application and the State's supporting evidence.

A final decision on the merits of the State's application will not be made before September 5, 2017. During the 90-day period, interested parties may comment on the State's application, AA-086373, and supporting evidence. This supporting evidence from the State includes three navigability reports prepared by the BLM on May 6, 1980; November 8, 1984; and July 8, 1985. The State's application also included an extract of the "Regional Report" for the Kuskokwim River Region prepared by the BLM in 1985. In addition, the application contained three maps based upon the USGS 1:63,360 topographic maps with water body data extracted from the USGS National Hydrography Dataset—2004, detailing the river from its mouth to its source.

On August 25, 1982, the BLM determined the George River is navigable through Georgetown Native Corporation's selected lands, situated along the lower 22 miles of the river. BLM extended its navigability determination an additional 19 miles upriver to Julian Creek on November 8, 1984. Subsequent navigability opinions in 1985, 1988, and 2004 affirmed that the lower 41 miles of the river are navigable up to Julian Creek.

Interested parties may also comment during this time on the BLM's Draft Summary Report for the State's Application for a Recordable Disclaimer of Interest, which is available on the RDI Web site (see **FOR FURTHER INFORMATION CONTACT**).

Copies of the State application, supporting evidence, the BLM Draft Summary Report, and comments, including names and street addresses of commenters, will be available in the case file for public review at the BLM Alaska State Office, Public Room, 222 West 7th Avenue, #13, Anchorage, AK 99513, during regular business hours from 7:30 a.m. to 4:30 p.m., Monday through Friday, except holidays. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment

—including your personal identifying information—may be made publicly available at any time. While you can ask the BLM in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

If the BLM determines the State's evidence is sufficient to find a favorable determination and neither the records nor a valid objection disclose a reason not to disclaim, then the BLM may decide to approve the application.

Authority: 43 CFR 1864.3.

Erika L. Reed,
Deputy State Director, Division of Lands and Cadastral.

Notice of Inventory Completion: U.S. Department of the Interior, Bureau of Reclamation, Mid-Pacific Regional Office, Sacramento, CA

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice.

SUMMARY: The U.S. Department of the Interior, Bureau of Reclamation (Reclamation), Mid-Pacific Regional Office, has completed an inventory of human remains and associated funerary objects, in consultation with the appropriate Indian tribes or Native Hawaiian organizations, and has determined that there is a cultural affiliation between the human remains and associated funerary objects and present-day Indian tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to Reclamation, Mid-Pacific Regional Office. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to the U.S. Department of the Interior, Bureau of Reclamation, Mid-Pacific Regional Office, at the address in this notice by July 5, 2017.

ADDRESSES: Melanie Ryan, NAGPRA Specialist/Physical Anthropologist, Mid-Pacific Regional Office, Bureau of Reclamation, MP-153, 2800 Cottage Way, Sacramento, CA 95825, telephone (916) 978-5526, email emryan@usbr.gov.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the U.S. Department of the Interior, Bureau of Reclamation, Mid-Pacific Regional Office, Sacramento, CA. The human remains and associated funerary objects were removed from lands managed by Reclamation, Mid-Pacific Regional Office, in Modoc County, CA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains and associated funerary objects was made by Reclamation, Mid-Pacific Regional Office, professional staff in consultation with representatives of the Klamath Tribes. The Klamath Tribes represent Klamath, Modoc, and Yahooskin Band of Snake Peoples.

History and Description of the Remains

In 1945, human remains representing, at minimum two individuals were removed from the Tule Lake Internment Camp site (CA-MOD-NL4) in Modoc County, CA, by Marvin Kaufmann Opler and donated to the University of California, Berkeley. Opler was an anthropologist, social psychologist, and community analyst who arrived at Tule Lake Internment Camp in May 1943. The human remains were found during the excavation of an irrigation ditch at the camp. No further details about the excavation or the archeological context of the human remains was recorded. The human remains were curated at the Phoebe Hearst Museum of Anthropology, University of California, Berkeley, CA.

Reclamation, Mid-Pacific Regional Office, became aware of these human remains on August 27, 2015, when an inquiry was made by the Klamath Tribes to Reclamation, Mid-Pacific Regional
