

customers. Operating with grants funded by ODEP, these Centers assist employers, federal agencies, state governments, non-profits, individuals with disabilities, and others with technical assistance and policy development concerning the integration of people with disabilities into employment. The overarching goals of the study are to determine the extent to which customers are satisfied with the TA provided by the Centers and to document the processes and methods used by the TA Centers to encourage the adoption and implementation of ODEP's policies and practices by targeted and untargeted customers. This study will answer research questions regarding how the TA Centers operate, the quality and utility of the services they provide, and the degree to which Center programs and services have led to the adoption and implementation of ODEP-recommended policies and practices, as perceived by customers. This **Federal Register** Notice provides the opportunity to comment on the four proposed data collection instruments that will be used in the study:

* *The Pulse Survey.* Customers with an available email address will receive an email invitation to complete a brief web survey approximately 48 hours following contact with a TA Center. This questionnaire will collect information on the customer's level of satisfaction with Center staff, the usefulness of the information obtained,

their overall satisfaction with the interaction, and the likelihood they would recommend the Center to others.

* *The In-Depth Survey.* Frequent customers and customers who have ongoing relationships with the Centers will be contacted annually and invited to complete a more in-depth web survey to assess their overall satisfaction with the Centers. In addition to assessing satisfaction with Center staff, the Centers overall, and the utility of information obtained, the In-Depth Survey will delve into the utility of network and collaborative activities, the extent to which the TA was applied or implemented, and whether or not the customer adopted new policies or practices.

* *Qualitative Interviews with Customers.* Qualitative interviews will be conducted annually with a small sample of three types of customers—employers, government agencies, and community-based organizations—to assess the utility and implementation of TA and policy dissemination within specific settings of different organizations.

* *Qualitative Interviews with Center Staff.* Annual qualitative interviews with Center staff will collect information on their perspective on adoption and implementation of ODEP-recommended policies and practices.

II. Desired Focus of Comments. Currently, the Department of Labor is soliciting comments concerning the

above data collection for a study of customer satisfaction with the five ODEP TA Centers. DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions. At this time, the Department of Labor is requesting clearance for data collection to assess customer satisfaction with five ODEP TA Centers via surveys with Center customers and qualitative interviews with Center customers and staff.

Type of Review: New information collection request.

OMB Control Number: XXXX-ONEW.
