

goals are still dependent on several factors. In general, under GDUFA II, amendments will be designated as either standard or priority, will be classified as major or minor, and will receive a goal date based on the factors discussed in the draft guidance, including whether a preapproval inspection is needed. When finalized, this draft guidance will replace the December 2001 guidance for industry “Major, Minor, and Telephone Amendments to Abbreviated New Drug Applications.” This draft guidance supersedes the July 2014 draft guidance for industry “ANDA Submissions—Amendments and Easily Correctable Deficiencies Under GDUFA.”

This draft guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on “ANDA Submissions—Amendments to Abbreviated New Drug Applications Under GDUFA.” It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

II. Paperwork Reduction Act of 1995

This draft guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in 21 CFR 314.96 have been approved under OMB control number 0910–0001.
