

parties: Bull Moose, Exltube, TMK IPSCO, and Zekelman Industries (hereinafter referred to as the domestic interested parties).³ The domestic interested parties claimed interested party status under section 771(9)(C) of the Act, as manufacturers, producers, or wholesalers in the United States of a domestic like product.⁴ On June 30, 2017, the domestic interested parties submitted their substantive response.⁵ On July 3, 2017, the Government of Turkey (GOT) submitted its substantive response in which it expressed its intent to participate in this review as the government of the country in which subject merchandise is produced and exported.⁶ On July 10, 2017, the domestic interested parties submitted rebuttal comments to the GOT Substantive Response.⁷

The Department did not receive any substantive responses from Turkish producers or exporters of the merchandise covered by this order. A government's response alone, normally, is not sufficient for the Department to conduct a full sunset review, unless the investigation was conducted on an aggregate basis.⁸ Because this investigation was conducted on a company-specific, rather than an aggregate, basis,⁹ we determined that no company respondent interested party submitted a substantive response, and

thus, conducted an expedited (120-day) sunset review of this order.¹⁰

Scope of the Order

The products covered by the order are certain welded carbon steel pipes and tubes with an outside diameter of 0.375 inch or more, but not over 16 inches, of any wall thickness (pipes and tubes) from Turkey. These products are currently provided for under the Harmonized Tariff Schedule of the United States (HTSUS) as item numbers 7306.30.10, 7306.30.50, and 7306.90.10. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Analysis of Comments Received

All issues raised in this review are addressed in the Issues and Decision Memorandum, which is dated concurrently with and adopted by this notice.¹¹ The issues discussed in the Issues and Decision Memorandum include the likelihood of continuation or recurrence of a countervailable subsidy and the net countervailable subsidy likely to prevail if the *Order* were revoked. Parties can find a complete discussion of all issues raised in this expedited sunset review and the corresponding recommendations in this public memorandum, which is on file electronically via the Enforcement and Compliance Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov> and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the Internet at <http://enforcement.trade.gov/frn/index.html>. The signed Issues and Decision Memorandum and the electronic versions of the Issues and Decision Memorandum are identical in content.

Final Results of Review

As a result of this review, the Department determines that revocation of the CVD order would likely lead to continuation or recurrence of a countervailable subsidy at the rates listed below:

Producer/exporter	Net countervailable subsidy rate (percent)
Bant Boru Sanayi ve Ticaret A.S. (Bant Boru)	3.63
Borusan Group ¹²	1.41
Erbosan ¹³	3.63
Yucel Boru Group ¹⁴	1.57
All Others	3.63

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing the final results of this review in accordance with sections 751(c), 752, and 777(i) of the Act.

Dated: October 2, 2017.

Gary Taverman,

Deputy Assistant Secretary, for Antidumping and Countervailing Duty Operations performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

ACTION: Notice of rescheduled SEDAR 52 assessment scoping webinar for Gulf of Mexico red snapper.

SUMMARY: The SEDAR 52 assessment process of Gulf of Mexico red snapper will consist of an In-person Workshop, and a series of assessment webinars.

DATES: The SEDAR 52 assessment scoping webinar will be held October 26, 2017, from 1 p.m. to 3 p.m. Eastern Time.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safmc.net

SUPPLEMENTARY INFORMATION: The original notice published in the **Federal Register** on August 29, 2017 (82 FR 40995). The notice announces the rescheduled date of the meeting from September 21, 2017 to October 26, 2017.

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and

Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the assessment scoping webinar are as follows:

Panelists will review the data sets being considered for the assessment and discuss initial modeling efforts.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 3, 2017.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: NMFS Alaska Region Vessel Monitoring System (VMS) Program.

OMB Control Number: 0648-0445.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 1,139.

Average Hours per Response: 12 minutes for VMS check-in report; 2 hours for VMS operation (includes installation and maintenance).

Burden Hours: 5,101.

Needs and Uses: This request is for extension of a currently approved information collection.

Vessel Monitoring System (VMS) units integrate global positioning system (GPS) and communications electronics into a single, tamper-resistant package to automatically determine the vessel's position several times per hour. The units can be set to transmit a vessel's location periodically and automatically to an overhead satellite in real time. In most cases, the vessel owner is unaware of exactly when the unit is transmitting and is unable to alter the signal or the time of transmission. The VMS unit is passive and automatic, requiring no reporting effort by the vessel operator. A communications service provider receives the transmission and relays it to the National Marine Fisheries Service (NMFS) Office of Law Enforcement and the U.S. Coast Guard. Enforcement of management measures, such as directed fishing closures and critical habitat no-fishing zones, relies heavily on the use of VMS.

Affected Public: Business or other for-profit organizations; individuals or households.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: October 3, 2017.

Sarah Brabson,

NOAA PRA Clearance Officer.
