Proposed Project

Data Collection for the Residential Care Community and Adult Day Service Center Components of the National Study of Long-Term Care Providers

(OMB Control Number 0920-0943 Expiration Date, 05/31/2019)—Revision—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 306 of the Public Health Service (PHS) Act (42 U.S.C. 242k), as amended, authorizes that the Secretary of Health and Human Services (DHHS), acting through NCHS, "shall collect statistics on health resources . . . [And] utilization of health care, including extended care facilities, and other institutions."

NCHS seeks approval to collect data for the residential care community (RCC) and adult day services center (ADSC) survey components of the fourth wave of the National Study of Long-Term Care Providers (NSLTCP). The request is for one-year clearance.

As background, here are some details on the complete study design. NSLTCP voluntary survey designed to: (1) Broaden NCHS' ongoing coverage of paid and regulated long-term care (LTC) providers; (2) merge with existing administrative data on LTC providers and service users (*i.e.*, Centers for Medicare and Medicaid Services (CMS) data on nursing homes and residents, home health agencies and patients, and hospices and patients); (3) update data more frequently on LTC providers and service users for which nationally representative administrative data do not exist; and (4) enable comparisons across LTC sectors and timely monitoring of supply, use, and characteristics of these sectors over time.

CDC will collect data collected from two types of LTC providers in the 50 states and the District of Columbia: 2,090 RCCs and 1,650 ADSCs. Data collected in 2012, 2014, and 2016 and the data collected in 2018 will include the basic characteristics, services, staffing, and practices of RCCs and ADSCs, and demographics, selected health conditions and health care utilization, physical functioning, and cognitive functioning of RCC residents and ADSC participants. The 2018 wave will include services user questionnaires.

Expected users of data from this collection effort include, but not limited to CDC and other Department of Health and Human Services (DHHS) agencies. Other potential users include the following: Office of the Assistant Secretary for Planning and Evaluation; the Administration for Community Living; and the Agency for Healthcare Research and Quality; associations, such as LeadingAge, National Center for
