

the **Federal Register** concerning each proposed collection of information, including each proposed extension, or update, of an existing collection of information, before submitting the collection to OMB for approval. The proposed data collection represents an extension with minor changes and updates (ICR–Chg). To comply with the above requirement, ACL is publishing a notice regarding the proposed collection of information set forth in this document. Interested persons are invited to send comments regarding our burden estimates or any other aspect of this collection of information, including the following subjects: (1) Whether the proposed collection of information is necessary for the proper performance of ACL's functions, including whether the information will have practical utility; (2) the accuracy of ACL's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Proposed Collection of Information

ACL plans to submit to the Office of Management and Budget for approval the Funding Opportunity Announcement and Grant Application Instructions Template for ACL Discretionary Grants Programs. The instructions explain the requirements and provide instructions on how to submit an application for funding to the

Administration for Community Living. ACL funds discretionary grants under the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (DD Act), which is administered by the Administration on Intellectual and Developmental Disabilities (AIDD), the Older Americans Act (OAA), which is administered by the Administration on Aging (AoA), as well as the Rehabilitation Act of 1973, which authorizes the National Institute on Independent Living and Rehabilitation Research (NIDILRR) and Independent Living programs. In addition, ACL is responsible for administering eight other authorizing statutes or portions of statutes relevant to older Americans and individuals with disabilities. Through its discretionary grant programs, the Administration for Community Living (ACL) supports projects that develop and test new knowledge and program innovations with the potential for maximizing the independence, well-being, and health of older adults, people with disabilities across the lifespan, and their families and caregivers.

The proposed changes are few in number and are intended to simplify the instructions and reduce burden. For example, the requirements for average projected award amount and proposed start and end date requirements to start on the first day of the month have been eliminated. The Funding Opportunity Announcement (FOA) template may be found on the ACL Web site at: www.acl.gov/Funding_Opportunities/Announcements/docs/ACL_PA_Template_FINAL.docx.

The number of respondents associated with this collection of information

varies depending on the appropriation for that fiscal year and the number of grants turning over from the previous fiscal year. The number of ACL FOAS increased from 24 in FY 2013 to 62 in FY 2016. This number is over double the number published in FY 2013, the last time this data collection was approved by OMB. We believe that the increase is primarily due to the expansion in the number of programs administered by ACL since that period, including the addition of the State Health Insurance Assistance Program (SHIP), National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR), Assistive Technology Programs, Paralysis Resource Center, Limb Loss Resource Center, and Traumatic Brain Injury program. For FY 2017, we estimate that the number of FOAs for FY 2017 will be 34 based on the average number of FOAs published from FY 2013–2016. The number of respondent per FOA in FY 2013 was 350 (14.5 applicants per FOA). Using an estimate of 14.5 applications per FOA, we increased the estimated number of respondents to 493. In addition, the average hour burden per respondent in FY 2013 was 48. We increased this number to 56 hours to account for the effect of the additional time it takes to prepare research proposals for NIDILRR competitions on the average burden hours per respondent. Applicants include State agencies, other public agencies, private nonprofit programs, institutions of higher education, and organizations, including tribal organizations.

	Number of competitions	Applicants per FOA	Number of respondents	Frequency of response per year	Average hour burden per respondent	Total estimated data burden
Other ACL	34	14.5	493	1	48	23,664
NIDILRR	16	16	256	1	220	56,320
Totals	50	30.5	749	1	268	79,984

Estimated Number of Responses: 749 annually. Total Estimated Burden Hours: 79,984.

Dated: January 27, 2017.

Edwin Walker,

Acting Administrator and Assistant Secretary for Aging.

Agency Information Collection Activities; Proposed Collection; Public Comment Request

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, announces plans to submit a new Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, OS seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on the ICR must be received on or before April 3, 2017.

ADDRESSES: Submit your comments to *Information.CollectionClearance@hhs.gov* or by calling (202) 690-5683.

FOR FURTHER INFORMATION CONTACT: Information Collection Clearance staff, *Sherrette.funnn@hhs.gov* or (202) 690-5683.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the document identifier HHS-OS-0990-New-60D for reference.

Proposed Project: Pregnancy Assistance Fund (PAF) Performance Measures Collection, FY2017-FY2019 cohort

Abstract: The Office of Adolescent Health (OAH), U.S. Department of Health and Human Services (HHS), is requesting approval by OMB of a new

information collection request. In FY2017, OAH expects to award a new, 3-year cohort of Pregnancy Assistance Fund (PAF) grants. Performance measure data collection is a requirement of PAF grants and is included in the funding announcement.

Need and Proposed Use of the Information: The data collection will provide OAH with performance data to inform planning and resource allocation decisions; identify technical assistance needs for grantees; facilitate grantees' continuous quality improvement in program implementation; and provide Congress, OMB, and the general public with information about the individuals who participate in PAF-funded activities and the services they receive.

Likely Respondents: 20 PAF grantees (States and Tribes).

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The table below summarizes the total annual burden hours estimated for this ICR.

EXHIBIT 1—TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Forms (if necessary)	Type of respondent	Number of respondents	Number of responses per respondent	Average burden hours per respondent	Total burden hours
PAF Grantee-Program Measures	All Grantee Organization: Grantee Staff.	20	1	70	1400
	Total	20	1	70	1400

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Terry S. Clark,

Asst Information Collection Clearance Officer.
