

SUPPLEMENTARY INFORMATION: The Mid-Atlantic Fishery Management Council's Surfclam and Ocean Quahog Committee will meet via conference call to discuss possible support for research on surfclam genetics.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: May 30, 2018.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Joint notice of receipt and notice of availability.

SUMMARY: Notice is hereby given that NMFS has received one permit application from the Monterey Peninsula Water Management District (District) to enhance propagation and survival of species listed under the Endangered Species Act (ESA) of 1973, as amended, for a five-year period (with a five-year renewal). As part of this permit application, the District has submitted a Rescue and Rearing Management Plan (RRMP). The RRMP specifies operational methods for South-Central California Coast (S-CCC) steelhead (*Oncorhynchus mykiss*) rescue, rearing, and relocation activities associated with the Sleepy Hollow Steelhead Rearing Facility (Facility). The Facility is located on the Carmel River on the Central California Coast. This document serves to notify the public of the availability of the permit application and associated RRMP for review and comment prior to a decision by NMFS whether to issue the permit. The permit application and associated RRMP can be viewed online at: http://www.westcoast.fisheries.noaa.gov/hatcheries/carmel_rrmp/carmel_rrmp_nor.html.

DATES: Comments or requests for a public hearing on applications must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5:00 p.m. Pacific Standard Time on July 5, 2018.

ADDRESSES: Written comments on the application should be submitted to the California Coastal Office, NMFS, c/o Erin Seghesio, 777 Sonoma Avenue Room 325, Santa Rosa, CA 95404. Comments may also be submitted via fax to 707-578-3435, or by email to: WCR-shrescuemngt.comment@noaa.gov. Include in the subject line of the email the following identifier: Comments on Permit 14741.

FOR FURTHER INFORMATION CONTACT: Erin Seghesio at 707-578-8515, Erin.Seghesio@noaa.gov

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The following listed species are covered in this notice:

Steelhead (*Oncorhynchus mykiss*): Threatened, South-Central California Coast (S-CCC).

Authority: Scientific research permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR parts 222-227). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permit.

Any one requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Permit Applications Received

Permit 14741

The District has applied for a permit under section 10(a)(1)(A) of the ESA for a period of five years (with a five-year renewal) that would allow take of juvenile and adult steelhead from the threatened S-CCC Distinct Population Segment (DPS) pursuant to an RRMP, which was developed with technical assistance from NMFS. The objective of the District's program is to assist with the restoration, conservation, and maintenance of the steelhead population in the Carmel River Watershed as mitigation for environmental impacts caused by

diversion of surface and subsurface streamflow in the lower 24 miles of the mainstem Carmel River. The program which was initiated in 1997, was necessary to ensure compliance with California Environmental Quality Act (CEQA) from the environmental impacts of California American Water Company's water withdrawals.

The RRMP will be implemented as an enhancement program at the Facility; actions taken pursuant to the permit are designed to enhance survival of S-CCC steelhead that are subject to annual low-flow river dryback. The RRMP incorporates three main components: (1) Rescue and relocation activities; (2) captive rearing activities; and (3) subsequent post-release monitoring. There is no captive spawning of steelhead reared at the facility.

Activities that constitute take of S-CCC steelhead and would be permitted include: Rearing, handling and transport, and tagging. The RRMP includes measures to minimize the likelihood of genetic or ecologic effects to naturally produced S-CCC steelhead resulting from operations at the Facility, and rescue and translocation activities. Post-release monitoring activities conducted by the District will collect necessary data to document achievement of performance indicators specified in the RRMP. For a more detailed discussion of these activities, please see the permit application.

Public Comments Solicited

NMFS invites the public to comment on the permit application and associated RRMP during a 30 day public comment period beginning on the date of this notice. This notice is provided pursuant to section 10(c) of the ESA (16 U.S.C. 1529(c)). All comments and materials received, including names and addresses, will become part of the administrative record and may be released to the public. We provide this notice in order to allow the public, agencies, or other organizations to review and comment on these documents.

Next Steps

NMFS will evaluate the application, associated documents, and comments submitted during the comment period to determine whether the application meets the requirements of section 10(a)(1)(A) of the ESA and Federal regulations. The final permit decision will not be made until after the end of the 30-day public comment period and after NMFS has fully considered all relevant comments received. NMFS will publish public notice of its final action in the **Federal Register**.

Dated: May 29, 2018.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Working Group (WG) of the Northeast Trawl Advisory Panel (NTAP) and NTAP as a whole of the Mid-Atlantic Fishery Management Council will hold a meeting.

DATES: The meeting will be held on Tuesday, June 19, beginning at 9 a.m. and conclude by 5 p.m. For agenda details, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The meeting will be held at the Hilton Garden Inn Boston Logan Airport located on 100 Boardman St., Boston, MA 02128.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The purpose of this WG meeting is to: (1) Review options and recommend preferred research plan for re-obligating industry vessel sea days funds (Nobska), (2) develop workplan for FY18-20, (3) define criteria for Bigelow trawl gear performance, and (4) describe potential flume tank experiments. The purpose of the NTAP as a whole meeting is to: (1) Review updates on the revised NTAP charter and Bigelow operations, (2) review, adopt or revise NTAP WG recommendations from last meeting, (3) review the status of summer flounder catchability and gear performance analyses, (4) review a briefing on the Bigelow/Albatross time series, (5) adopt a regular meeting schedule for full

NTAP and WG, and (6) cover other business.

Dated: May 30, 2018.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council's (MAFMC) Bluefish Monitoring Committee will hold a public meeting.

DATES: The meeting will be held on Tuesday, July 24, 2018, from 10 a.m. to 12 p.m. For agenda details, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The meeting will be held via webinar with a telephone-only connection option. Details on the proposed agenda, webinar listen-in access, and briefing materials will be posted at the MAFMC's website: www.mafmc.org.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331 or on their website at www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is for the Monitoring Committee to develop and approve management measures designed to achieve the recommended bluefish catch and landings limits for 2019.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: May 30, 2018.

Record of Decision for the Final Portland Harbor Programmatic Environmental Impact Statement and Restoration Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of a Record of Decision.

SUMMARY: NOAA announces the availability of the Record of Decision (ROD) for the Final Portland Harbor Programmatic Environmental Impact Statement and Restoration Plan (PEIS/RP). The NOAA Restoration Center Chief and the Assessment and Restoration Division Chief signed the ROD on May 29, 2018, which constitutes the agency's final decision.

ADDRESSES: Christopher Doley, Chief, Restoration Center, NOAA National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910; Tony Penn, Chief, Assessment and Restoration Division, NOAA Ocean Service, 1305 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Megan Callahan Grant at (503) 231-2213 or email at megan.callahan-grant@noaa.gov.

SUPPLEMENTARY INFORMATION: NOAA, on behalf of the Portland Harbor Natural Resource Trustee Council, prepared the Final Portland Harbor PEIS/RP. The PEIS/RP was prepared under the authority of Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980 and was also developed to comply with the Federal agency decision-making requirements of the National Environmental Policy Act of 1969 (NEPA) and NOAA's environmental review procedures (NOAA Administrative Order 216-6, as preserved by NAO 216-6A). The document was designed to solicit public opinion on a proposed restoration approach for the Portland Harbor natural resource damage assessment
