SUPPLEMENTARY INFORMATION:

Title: FHWA Major Project Financial Plans and Project Management Plans.

Background: Major projects are defined in section 106(h) of title 23, United States Code (U.S.C.), as projects receiving Federal financial assistance with an estimated total cost of \$500,000,000, or other projects as may be identified by the Secretary. Major projects are typically large, complex projects designed to address major highway needs and require the investment of significant financial resources. Project sponsors of major projects are required to submit a project management plan and an annual financial plan to FHWA.

The preparation of the project management plan, as required by 23 U.S.C. 106(h)(2), ensures that clearly defined roles, responsibilities, procedures and processes are in effect to provide timely information to the project decisionmakers to effectively manage the scope, costs, schedules,

quality of, and the Federal requirements applicable to, the project. The project management plan serves as a guide for implementing the major project and documents assumptions and decisions regarding communication, management processes, execution and overall project control.

The preparation of the annual financial plan, as required by 23 U.S.C. 106(h)(3), ensures that the necessary financial resources are identified, available, and monitored throughout the life of the project. An annual financial plan is a comprehensive document that reflects the project's scope, schedule, cost estimate, and funding structure to provide reasonable assurance that there will be sufficient funding available to implement and complete the entire project, or a fundable phase of the project, as planned.

Respondents: Approximately 100 project sponsors per year.

Frequency: The financial plan is submitted annually. The first financial plan is submitted prior to the authorization of Federal funds for construction and updates are submitted each year until construction completion.

The project management plan is first submitted prior to the start of construction and then updated as significant changes to the project occur during construction.

Estimated Average Burden per Response: Approximately 40 hours for the initial submittal of each plan and 20 hours for each update.

Estimated Total Annual Burden Hours: Approximately 20 initial plans and 80 plan updates are submitted each year. For a total of approximately, 2,400 hours each year.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: May 29, 2018.

SUPPLEMENTARY INFORMATION:

Title: Congestion Mitigation and Air Quality Improvement (CMAQ) Program.

OMB Control Number: 2125–0614.

Background: Section 1113 of the Moving Ahead for Progress in the 21st Century Act (MAP–21) calls for an Evaluation and Assessment of CMAQ Projects. The statute calls for the identification and analysis of a representative sample of CMAQ projects and the development and population of a database that describes the impacts of the program both on traffic congestion levels and air quality. To establish and maintain this database, the FHWA is requesting States to submit annual reports on their CMAQ investments that cover projected air quality benefits, financial information, a brief description of projects, and several other factors outlined in the Interim Program Guidance for the CMAQ program. States are requested to provide the end of year summary reports via the automated system provided through FHWA by the first day of March of each year, covering the prior Federal fiscal year.

Respondents: 51 (each State DOT, and Washington DC).

Frequency: Annually.

Estimated Average Burden per Response: 125 hours per annual report.

Estimated Total Annual Burden Hours: 6,375 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT's performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.
