Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

RIN 2120–AA66

Proposed Amendment of Class D Airspace and Class E Airspace, and Revocation of Class E Airspace: New Smyrna Beach, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class D airspace and Class E airspace extending upward from 700 feet or more above the surface, and remove Class E airspace designated as an extension to a Class D surface area at New Smyrna Beach Municipal Airport, New Smyrna Beach, FL. This action would accommodate airspace reconfiguration due to the decommissioning of New Smyrna Beach non-directional beacon radio (NDB), and cancellation of the NDB approaches. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at this airport. This action also would update the geographic coordinates of the airport, and Massey Ranch Airpark, and would replace the outdated term Airport/Facility Directory with the term Chart Supplement in the legal description of Class D airspace.

DATES: Comments must be received on or before July 20, 2018.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D and Class E airspace, and remove Class E airspace at New Smyrna Beach Municipal Airport, New Smyrna Beach, FL, to support standard instrument approach procedures for IFR operations at the airport.

Comments Invited

Interested persons are invited to comment on this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in

developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (Docket No. FAA–2018–0328 and Airspace Docket No. 18–ASO–7) and be submitted in triplicate to DOT Docket Operations (see **ADDRESSES** section for the address and phone number.) You may also submit comments through the internet at <http://www.regulations.gov>.

Persons wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made: “Comments to FAA Docket No. FAA–2018–0328; Airspace Docket No. 18–ASO–7.” The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this document may be changed in light of the comments received. All comments submitted will be available for examination in the public docket both before and after the comment closing date. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at http://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined between 8:00 a.m. and 4:30 p.m., Monday through Friday, except federal holidays at the office of the Eastern Service Center, Federal Aviation Administration, Room 350, 1701 Columbia Avenue, College Park, GA 30337.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 by amending Class D airspace and Class E airspace extending upward from 700 feet or more above the surface at New Smyrna Beach Municipal Airport, New Smyrna Beach, FL, as the New Smyrna Beach NDB has been decommissioned and the NDB approach cancelled. Also, the southeast extension would be removed due to the cancellation of the NDB approach. This action also would update the geographic coordinates of the airport and Massey Ranch Airpark to be in concert with the FAA's aeronautical database.

Additionally, this action would make an editorial change to the Class D airspace legal description replacing “Airport Facility Directory” with “Chart Supplement”. These changes would enhance the safety and management of IFR operations at the airport.

Class D and Class E airspace designations are published in Paragraphs 5000, 6004, and 6005, respectively, of FAA Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will

only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

Approval of Nebraska Air Quality Implementation Plan; Particulate Emissions; Limitations and Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to the State Implementation Plan (SIP) submitted on July 14, 2014, by the State of Nebraska. This proposed action will amend the SIP to include revisions to title 129 of the Nebraska Administrative Code, chapter 20 “Particulate Emissions; Limitations and Standards”. The revisions make clear that the emission rates in the rule apply to applicable sources except when a more stringent Federal rule or limit in a construction permit exists. Other minor administrative revisions are also being made. Approval of these revisions will not impact air quality, ensures consistency between the State and Federally approved rules, and ensures Federal enforceability of the State’s rules.

I. What is being addressed in this document?

EPA is proposing to amend Nebraska’s SIP to include revisions to title 129 of the Nebraska Administrative Code, chapter 20, “Particulate Emissions; Limitations and Standards”. The revisions being addressed in this action on chapter 20 were submitted with other title 129 chapters as part of the July 14, 2014 SIP submittal. EPA took final action on two title 129 chapters, chapter 1 “Definitions”, and chapter 15 “Operating Permit Modifications; Reopening for Cause”. In that action, EPA stated it would take action separately on chapter 20. *See* 83 FR 14762. EPA is now proposing action on chapter 20. The revisions to chapter 20 are described below.

Nebraska revised a clause under the chapter title from “(EXCEPTIONS DUE
