## SOCIAL SECURITY ADMINISTRATION

[Docket No. SSA–2017–0030]

### Social Security Rulings (SSRs) 96–3p and 96–4p; Rescission of SSRs 96–3p and 96–4p

**AGENCY:** Social Security Administration.

**ACTION:** Notice of rescission of SSRs.

**SUMMARY:** We give notice of the rescission of SSRs 96–3p and 96–4p.

**DATES:** We will apply this rescission notice on June 14, 2018.

**FOR FURTHER INFORMATION CONTACT:** Dan O'Brien, Office of Vocational, Evaluation, and Process Policy in the Office of Disability Policy, Social Security Administration, 6401 Security Boulevard, Baltimore, MD 21235–6401, (410) 597–1632. For information on eligibility or filing for benefits, call our national toll-free number, 1–800–772–1213 or visit our internet site, Social Security Online, at <http://www.socialsecurity.gov>.

**SUPPLEMENTARY INFORMATION:** We use SSRs to make available to the public precedential decisions relating to the Federal old-age, survivors, disability, supplemental security income, and special veterans benefits programs. We may base SSRs on determinations or decisions made in our administrative review process, Federal court decisions, decisions of our Commissioner, opinions from our Office of the General Counsel, or other interpretations of law and regulations.

In accordance with 20 CFR 402.35(b)(1), we give notice that we are rescinding the following SSRs:

- SSR 96–3p: Titles II and XVI: Considering Allegations of Pain and Other Symptoms in Determining

Whether a Medically Determinable Impairment is Severe.

- SSR 96–4p: Titles II and XVI: Symptoms, Medically Determinable Physical and Mental Impairments, and Exertional and Nonexertional Limitations.

These SSRs are unnecessarily duplicative of SSR 16–3p *Titles II and XVI: Evaluation of Symptoms in Disability Claims*, which was applicable on March 28, 2016, published in the **Federal Register** on March 16, 2016, 81 FR 14166.<sup>1</sup> SSR 16–3p, a more comprehensive statement of our policy on symptoms, explains how we evaluate the extent to which alleged symptoms limit an adult's ability to perform work-related activities and a child's ability to function effectively in an age-appropriate manner.

SSR 96–3p clarified how adjudicators should consider allegations of pain and other symptoms in determining whether a medically determinable impairment (MDI) is severe. SSR 16–3p explains our two-step process for evaluating an individual's symptoms where, at the first step, we determine whether the individual has an MDI that could reasonably be expected to produce the individual's alleged symptoms. At the second step, we evaluate the intensity and persistence of an individual's symptoms such as pain and determine the extent to which an individual's symptoms limit his or her ability to perform work-related activities for an adult or to function independently, appropriately, and effectively in an age-appropriate manner for a child with a title XVI disability claim. SSR 16–3p explains that we will consider symptoms and functional limitations to determine whether an impairment is severe unless the objective medical evidence alone establishes a severe MDI or combination of impairments that meets our duration requirement. Therefore, the information contained in SSR 96–3p duplicates policy in SSR 16–3p.

SSR 96–4p explained that no symptom, by itself, could establish the existence of a medically determinable physical or mental impairment. In SSR 16–3p, we clarified that an individual's symptoms alone are not enough to establish the existence of a physical or mental impairment or disability, and

that we will not find an individual disabled based on alleged symptoms alone. Therefore, the information contained in SSR 96–4p duplicates policy in SSR 16–3p. Consequently, we are rescinding SSRs 96–3p and 96–4p.

**SURFACE TRANSPORTATION BOARD**

[Docket No. EP 748]

**Indexing the Annual Operating Revenues of Railroads**

The Surface Transportation Board (STB) is publishing the annual inflation-adjusted index factors for 2017. These factors are used by the railroads to adjust their gross annual operating revenues for classification purposes. This indexing methodology ensures that railroads are classified based on real business expansion and not on the effects of inflation. Classification is important because it determines the extent to which individual railroads must comply with STB reporting requirements.

The STB's annual inflation-adjusted factors are based on the annual average Railroad Freight Price Index developed by the Bureau of Labor Statistics. The STB's deflator factor is used to deflate revenues for comparison with established revenue thresholds.

The base year for railroads is 1991. The inflation index factors are presented as follows:

**STB RAILROAD INFLATION-ADJUSTED INDEX AND DEFLATOR FACTOR TABLE**
