Amendment and Removal of VOR Federal Airways in the Vicinity of Lansing, MI, and Pontiac, MI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies VHF Omnidirectional Range (VOR) Federal airways V–2, V–26, V–84, V–218, and V–510 in the vicinity of Lansing, MI, and removes airway V–410 in the vicinity of Pontiac, MI. These modifications are required due to the planned decommissioning of the Lansing, MI, VHF Omnidirectional Range/Tactical Air Navigation (VORTAC) and the Pontiac, MI, VORTAC navigation aids, which provide navigation guidance for portions of the above routes.

DATES: Effective date 0901 UTC, September 13, 2018. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the National Airspace System route structure as necessary to preserve the safe and efficient flow of air traffic.

History

The FAA published a notice of proposed rulemaking (NPRM) in the **Federal Register** for Docket No. FAA–2017–0724 (82 FR 34272; July 24, 2017). The NPRM proposed to amend VOR Federal airways V–2, V–26, V–84, V–218, and V–510, and to remove V–410, due to the planned decommissioning of the Lansing, MI, and Pontiac, MI, VORTACs. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received.

VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airways listed in this document will be subsequently published in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

The FAA is amending Title 14, Code of Federal Regulations (14 CFR) part 71 by modifying the descriptions of VOR Federal airways V–2, V–26, V–84, V–218, and V–510; and removing V–410, due to the planned decommissioning of the Lansing, MI, and Pontiac, MI,

VORTACs. The route changes are described below.

V-2: V-2 extends between the Seattle, WA, VORTAC and the Gardner, MA, VOR/DME, excluding the airspace within Canada. The airway segment between the intersection of the Nodine, MN, 122° and Waukon, IA, 053° radials (WEBYE fix) and the Lansing, MI, VORTAC is removed. The unaffected portions of the airway remain as charted.

V-26: V-26 extends between the Blue Mesa, CO, VOR/DME and the Dryer, OH, VOR/DME, excluding the airspace within Canada. The airway segment between the White Cloud, MI, VOR/DME and the Lansing, MI, VORTAC is removed. The unaffected portions of the airway remain as charted.

V-84: V-84 extends between the Northbrook, IL, VOR/DME and the Flint, MI, VORTAC; and between the Buffalo, NY, VOR/DME and the Syracuse, NY, VORTAC. The airway segment between the Pullman, MI, VOR/DME and the Lansing, MI, VORTAC is removed. The unaffected portions of the airway remain as charted.

V-218: V-218 extends between the Grand Rapids, MN, VOR/DME and the Rockford, IL, VOR/DME; and between the Keeler, MI, VOR/DME and the Lansing, MI, VORTAC. The airway segments between the Waukon, IA, VORTAC and the Rockford, IL, VOR/DME; and between the Keeler, MI, VOR/DME and the Lansing, MI, VORTAC are removed. The unaffected portions of the airway remain as charted.

V-410: V-410 extends between the Pontiac, MI, VORTAC and the London, ON, Canada VOR/DME, excluding the airspace within Canada. The airway is removed in its entirety.

V-510: V-510 extends between the Dickinson, ND, VORTAC and the Dells, WI, VORTAC; between the Oshkosh, WI, VORTAC and the Lansing, MI, VORTAC; and between the Buffalo, NY, VOR/DME and the Rochester, NY, VOR/DME. The airway segment between the Oshkosh, WI, VORTAC and the Lansing, MI, VORTAC is removed. The unaffected portions of the airway remain as charted.

All radials in the route descriptions are stated relative to True north. Additionally, minor punctuation changes were made for clarity.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under

Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action of modifying five VOR Federal airways and removing one Federal airway qualifies for categorical exclusion under the National Environmental Policy Act and its implementing regulations at 40 CFR part 1500, and in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, Paragraph 5–6.5a, which categorically excludes from further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points). As such, this action is not expected to cause any potentially significant environmental impacts. In accordance with FAA Order 1050.1F, paragraph 5–2 regarding Extraordinary Circumstances, the FAA has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis. The FAA determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact study.

Amendment of Class E Airspace; Altoona, PA

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends amend Class E surface area airspace and Class E airspace extending upward from 700 feet or more above the surface at Altoona-Blair County Airport, Altoona, PA. This action accommodates airspace reconfiguration due to the decommissioning of Altoona VHF omnidirectional range navigation system (VOR) and cancellation of the VOR approaches. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at this airport.

DATES: Effective 0901 UTC, September 13, 2018. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11B, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at http://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11B at NARA, call (202) 741-6030, or go to <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class E airspace at Altoona-Blair County Airport, Altoona, PA, to ensure the efficient use of airspace within the National Airspace System.

History

The FAA published a notice of proposed rulemaking in the **Federal Register** (83 FR 11446, March 15, 2018) for Docket No. FAA-2018-0129 to amend Class E surface area airspace, and Class E airspace extending upward from 700 feet above the surface at Altoona-Blair County Airport, Altoona, PA. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6002 and 6005, respectively, of FAA Order 7400.11B dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E surface area airspace, and Class E airspace extending upward from 700 feet or more above the surface due to the decommissioning of the Altoona VOR and cancellation of associated approaches at Altoona-Blair County Airport, Altoona, PA.

The Class E surface area airspace is amended to within a 4.7-mile (from a 4-mile) radius of the airport, with a segment 1.0-mile each side of the 026° bearing from the airport to 8.7 miles northeast. The Altoona VOR segment is removed.

The Class E airspace area extending upward from 700 feet above the surface is amended to within an 11.2-mile (from a 6.5-mile) radius of the airport. These changes enhance the safety and management of IFR operations at the airport.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
