

Notices

Federal Register

Vol. 83, No. 127

Monday, July 2, 2018

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

Forest Service

Idaho (Boise, Caribou-Targhee, Salmon-Challis, and Sawtooth National Forests and Curlew National Grassland); Nevada (Humboldt-Toiyabe National Forest); Utah (Ashley, Dixie, Fishlake, Manti-La Sal, and Uinta-Wasatch-Cache National Forests); Wyoming (Bridger-Teton National Forest); and Wyoming/Colorado (Medicine Bow-Routt National Forest and Thunder Basin National Grassland) Amendments to Land Management Plans for Greater Sage-grouse Conservation; Correction

AGENCY: Forest Service, USDA.

ACTION: Supplemental notice of intent to prepare an environmental impact statement; notice of updated information concerning the forest service greater sage-grouse land and resource management plan amendments; correction.

SUMMARY: The Forest Service published a document in the **Federal Register** of June 20, 2018, soliciting public comments on a greater sage-grouse land management proposed action that could warrant land management plan amendments. The document contained errors in the following sections:

SUMMARY and SUPPLEMENTARY INFORMATION (including Purpose and Need, Proposed Action, Scoping Process and Responsible Officials). The intent of the corrections in this notice is to clarify that the Forest Service does not propose to amend plans for National Forest System lands in Montana. In addition, the comment period has been extended to close 30 days from publication of this correction notice.

DATES: The comment period for the document published on June 20, 2018 (83 FR 28608 is extended. Comments concerning the scope of the analysis must be received by August 1, 2018.

ADDRESSES: Please submit comments via one of the following methods:

1. *Public participation portal (preferred):* <https://cara.ecosystem-management.org/Public/CommentInput?project=52904>.
2. *Mail:* Sage-grouse Amendment Comment, USDA Forest Service Intermountain Region, Federal Building, 324 25th Street, Ogden, UT 84401.
3. *Email:* comments-intermtnregional-office@fs.fed.us.
4. *Facsimile:* 801-625-5277.

All comments, including names and addresses when provided, are placed in the record and are available for public inspection and copying. The public may inspect comments received online via the public reading room at: <https://cara.ecosystem-management.org/Public/ReadingRoom?project=52904>.

FOR FURTHER INFORMATION CONTACT: John Shivik at 801-625-5667 or email johnashivik@fs.fed.us. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8:00 a.m. and 8:00 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Corrections

In the **Federal Register** of June 20, 2018, in FR Doc. 2018-13260 (83 FR 28608), make the following corrections:

1. On page 28608, in the third column, correct the **SUMMARY** to read as follows:

SUMMARY: This supplemental notice solicits public comments on a greater sage-grouse land management proposed action that could warrant land management plan amendments. Land management plans for National Forests and Grasslands in Idaho, Montana, Nevada, Utah, Colorado and Wyoming were amended in September 2015 to incorporate conservation measures to support the continued existence of the greater sage-grouse. Since the plans were amended in 2015, scoping on specific issues was requested in a Notice of Intent (NOI) published in the **Federal Register** on November 21, 2017. This supplemental NOI continues the scoping effort by seeking comments about a proposed action to make further amendments to the plans, excluding plans for National Forest System lands in Montana. This supplemental NOI also identifies the planning rule

provisions likely to be directly related, and so applicable, to proposed plan amendments.

2. On page 28609, in the first column, correct the first paragraph of the **SUPPLEMENTARY INFORMATION** to read as follows:

SUPPLEMENTARY INFORMATION: The Forest Service is proposing to amend several Forest Service land management plans that were amended in 2015 regarding greater sage-grouse conservation in the states of Colorado, Idaho, Nevada, Wyoming and Utah. This notice clarifies the purpose and need, proposed action, and the responsible officials, which were not identified in the scoping on specific issues that were requested in a Notice of Intent published in the **Federal Register** on November 21, 2017 (2017 NOI) (82 FR 55346). The Forest Service is proposing amendments to land management plans that were amended in 2015.

3. On page 28609, in the second column, correct the "Purpose and Need" paragraph to read as follows:

Purpose and Need

The Forest Service published the 2017 NOI to consider the possibility of amending land management plans for greater sage-grouse that were originally amended in 2015 in the states of Colorado, Idaho, Nevada, Wyoming, Utah and Montana (2015 Sage-Grouse Plan Amendments). The purpose of this supplemental notice is to propose amendments to the 2015 Sage Grouse Plan Amendments, excluding plans for National Forest System lands in Montana. The need for further plan amendments is that the Forest Service has gained new information and understanding from the 55,000 comments received as a result of the 2017 NOI, within-agency scoping, and from coordination with the Sage Grouse Task Force (with members from state agencies, Bureau of Land Management, Fish and Wildlife Service and the Natural Resources Conservation Service). The purpose of the proposed action is to incorporate new information to improve the clarity, efficiency, and implementation of affected plans, including better alignment with the Bureau of Land Management (BLM) and state plans, in order to benefit greater sage-grouse conservation on the landscape scale.

4. On page 28609, in the third column, correct the first paragraph of "Proposed Action" to read as follows:

Proposed Action

The scope and scale of the proposed action is on approximately 6 million acres of greater sage-grouse habitat on National Forest System lands in the Intermountain and Rocky Mountain Regions. Specific textual adjustments currently under consideration can be found on the Intermountain Region home page: <https://www.fs.usda.gov/detail/r4/home/?cid=stelprd3843381>.

5. On page 28610, in the first column, correct the "Scoping Process" paragraph to read as follows:

Scoping Process

The Forest Service is proposing amendments to affected land management plans in Colorado, Idaho, Nevada, Wyoming and Utah to change some of the plan components added in 2015. Public involvement is important for adding meaningful participation from the early phases of planning through finalization of the plan amendments and subsequent monitoring. A public participation strategy has been designed to assist with communication within the Forest Service and between the Forest Service and the public. Find the strategy here: <https://www.fs.usda.gov/detail/r4/home/?cid=stelprd3843381>.

6. On page 28610, in the first column, correct the "Responsible Officials" paragraph to read as follows:

Responsible Officials

The responsible officials who would approve plan amendments are the Regional Foresters for the Intermountain and Rocky Mountain Regions.

Dated: June 25, 2018.

Chris French,

Associate Deputy Chief, National Forest System.

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent To Request Revision and Extension of a Currently Approved Information Collection

AGENCY: National Agricultural Statistics Service (NASS), USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this

notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the Cost of Pollination Survey. This survey gathers data related to the costs incurred by farmers to improve the pollination of their crops through the use of honey bees and other pollinators.

DATES: Comments on this notice must be received by August 31, 2018 to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535-0258, by any of the following methods:

- *Email:* ombofficer@nass.usda.gov. Include docket number above in the subject line of the message.
- *eFax:* (855) 838-6382.
- *Mail:* Mail any paper, disk, or CD-ROM submissions to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.
- *Hand Delivery/Courier:* Hand deliver to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.

FOR FURTHER INFORMATION CONTACT:

Kevin L. Barnes, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720-2707. Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS—OMB Clearance Officer, at (202) 690-2388 or at ombofficer@nass.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Cost of Pollination Survey.

OMB Control Number: 0535-0258.

Type of Request: Intent to Seek Approval to Revise and Extend an Information Collection for 3 years.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to prepare and issue state and national estimates of crop and livestock production, prices, and disposition; as well as economic statistics, environmental statistics related to agriculture, and also to conduct the Census of Agriculture.

Pollinators (honey bees, bats, butterflies, hummingbirds, etc.) are vital to the agricultural industry for pollinating numerous food crops for the world's population. Concern for honey bee colony mortality has risen since the introduction of *Varroa* mites in the United States in the late 1980s and the appearance of Colony Collapse Disorder in the past decade.

In the Pollinator Research Action Plan, the Pollinator Health Task Force identified nearly 200 tasks that need to be conducted and coordinated from across the government to research all aspects of pollinator health and to come up with suggestions for improving this vital part of our food system. The Task Force's plan involves conducting research and collecting data for the following categories: Status & Trends, Habitats, Nutrition, Pesticides, Native Plants, Collections, Genetics, Pathogens, Decision Tools, and Economics. The pollinators have been classified into Honey Bee, Native Bee, Wasp, Moth/Butterfly, Fly, and Vertebrate. The departments that conduct the bulk of the research are the Department of the Interior (DOI), the Environmental Protection Agency (EPA), the National Science Foundation (NSF), the Smithsonian Institute (SI), and the United States Department of Agriculture (USDA).

NASS was given the tasks of collecting economic data related to honey bees and quantifying the number of colonies that were lost or reduced. NASS was approved to conduct the Quarterly and Annual Colony Loss Surveys under OMB approval number 0535-0255. NASS also collects the economic data under this collection. NASS collects data from crop farmers who rely on pollinators for their crops (fruits, nuts, vegetables, etc.). Data relating to the targeted crops are collected for the total number of acres that rely on honey bee pollination, the number of honey bee colonies that were used on those acres, and any cash fees associated with honey bee pollination. Crop Farmers are also asked if beekeepers who were hired to bring their bees to their farm were notified of pesticides used on the target acres, how many acres they were being hired to pollinate, and how much they were being paid to pollinate the targeted crops.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-113) and the Office of Management and Budget regulations at 5 CFR part 1320. NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential
