

Accordingly, after consideration of these comments, CPSC will request approval from OMB for this collection of information.

B. Survey

CPSC has entered into a contract with Eureka Facts to conduct a national in-home survey that will estimate the use and functionality of smoke and CO alarms in households, as well as user hazard perceptions regarding such alarms. The information collected from this survey will provide CPSC updated national estimates regarding the use of smoke alarms and CO alarms in households, based on direct observation of alarm installations. The survey also will help CPSC identify the groups that do not have operable smoke alarms and/or CO alarms and the reasons they do not have such alarms. With this information, CPSC will be able to target its messaging better and improve consumer use and awareness regarding the operability of these alarms. In addition, the survey results will help to inform CPSC's recommendations to voluntary standards groups and state/local jurisdictions regarding their codes, standards, and/or regulations on smoke and CO alarms.

The survey seeks to collect information from 1,185 households within the United States, with an initial group of 50 households that will be processed and analyzed to identify any issues regarding the survey instrument and data collection procedures. The survey will use a mixed-mode, multistage approach to data collection. The data will be collected through two modes: Face-to-face in-home interviews and telephone surveys. The survey instrument will be programmed on Vovici software and will be administered via in-home interviews using a Computer-Assisted Personal Interview (CAPI) format, or by telephone, using a Computer-Assisted Telephone Interview (CATI) format.

Smoke alarms are more prevalent in homes than CO alarms are. Accordingly, during the screening process, if respondents indicate that they have a smoke alarm that may be tested directly, the respondents will be scheduled for an in-home interview for the full survey. However, if the smoke alarm cannot be tested directly because the household does not have a smoke alarm installed, or the smoke alarms are connected to a central alarm system that will notify the police or fire department, the respondent is not eligible for the in-home survey. Instead of the in-home survey, these households would be given a subset of survey questions about safety attitudes and demographics that

would be collected over the telephone. For participants eligible for in-home interviews, a two-member survey team will ask household residents questions related to installed smoke and CO alarms. The survey team will then test residents' smoke and CO alarms. If any of the alarms do not work, the survey team will offer to replace the alarms free of charge.

C. Burden Hours

The survey interview will take 20 to 60 minutes to conduct, depending on whether the survey is administered by telephone (about 20 minutes), or by an in-home interview (60 minutes). We estimate the number of survey respondents to be 1,185. We estimate the total annual burden hours for respondents to be 1,422 hours, based on the total time required to respond to the invitation, screener, and the actual survey. The monetized hourly cost is \$35.64, as defined by the average total hourly cost to employers for employee compensation for employees across all occupations as of September 2017, reported by the Bureau of Labor Statistics. Accordingly, we estimate the total annual cost burden to all respondents to be \$50,680. (1,422 hours \times \$35.64 = \$50,680.). The total cost to the federal government for the contract to design and conduct the survey is \$721,773.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

BILLING CODE P

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board; Notice of Federal Advisory Committee Meeting

AGENCY: Under Secretary of Defense for Research and Engineering, Defense Science Board, Department of Defense.

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: The Department of Defense (DoD) is publishing this notice to announce that the following Federal Advisory Committee meeting of the Defense Science Board (DSB) will take place.

DATES: June 27, 2018 from 8:00 a.m. to 5:00 p.m.—June 28, 2018 from 8:00 a.m. to 3:00 p.m.

ADDRESSES: The Executive Conference Center, 4075 Wilson Boulevard, 3rd Floor, Arlington, VA 22203.

FOR FURTHER INFORMATION CONTACT:

Defense Science Board Designated Federal Officer (DFO) Mr. Edward C. Gliot, (703) 571-0079 (Voice), (703) 697-1860 (Facsimile), edward.c.gliot.civ@mail.mil (Email). Mailing address is Defense Science Board, 3140 Defense Pentagon, Room 3B888A, Washington, DC 20301-3140. Website: <http://www.acq.osd.mil/dsb/>. The most up-to-date changes to the meeting agenda can be found on the website.

SUPPLEMENTARY INFORMATION: This meeting is being held under the provisions of the Federal Advisory Committee Act (FACA) (5 U.S.C., Appendix), the Government in the Sunshine Act (5 U.S.C. 552b), and 41 CFR 102-3.140 and 102-3.150.

Purpose of the Meeting: The mission of the DSB is to provide independent advice and technical enterprise. The objective of the meeting is to obtain, review, and evaluate classified information related to the DSB's mission. The meeting will focus on DoD dependence on the U.S. electric power grid, homeland air defense, maritime situational awareness, threats and promise of biotechnology, countering autonomous systems, technical approaches to counter-intelligence, resilient positioning, navigation and timing, various undersea issues, gray zone conflict, resilience of the defense industrial base, and logistics.

Agenda: The 2018 Summer Study meeting will begin on Wednesday, June 27, 2018 at 8:00 a.m. with opening remarks from Mr. Edward Gliot, DSB Executive Director, Dr. Craig Fields, DSB Chairman and Dr. Eric Evans, Vice Chairman. Following opening remarks, Defense Science Board members will hold classified small group discussions covering DoD dependence on the U.S. electric power grid, homeland air defense, maritime situational awareness, threats and promise of biotechnology, countering autonomous systems, technical approaches to counter-intelligence, resilient positioning, navigation and timing, various undersea issues, gray zone conflict, resilience of the defense industrial base, and logistics. After break, DSB members will hold a plenary session of classified discussion covering DoD dependence on the U.S. electric power grid, homeland air defense, maritime situational awareness, threats and promise of biotechnology, countering autonomous systems, technical approaches to counter-intelligence, resilient positioning, navigation and timing, various undersea issues, gray zone conflict, resilience of the defense

industrial base, and logistic. The meeting will adjourn at 5:00 p.m. On the second day of the meeting, Thursday, June 28, 2018, the day will begin at 8:00 a.m. with a classified plenary session covering DoD dependence on the U.S. electric power grid, homeland air defense, maritime situational awareness, threats and promise of biotechnology, countering autonomous systems, technical approaches to counter-intelligence, resilient positioning, navigation and timing, various undersea issues, gray zone conflict, resilience of the defense industrial base, and logistic. After break, the classified plenary discussion will continue. The meeting will adjourn at 3:00 p.m.

Meeting Accessibility: In accordance with section 10(d) of the FACA and title 41 CFR 102–3.155, the DoD has determined that the DSB meeting will be closed to the public. Specifically, the Under Secretary of Defense for Research and Engineering, in consultation with the DoD Office of General Counsel, has determined in writing that the meeting will be closed to the public because it will consider matters covered by title 5 U.S.C. 552b(c)(1). The determination is based on the consideration that it is expected that discussions throughout will involve classified matters of national security concern. Such classified material is so intertwined with the unclassified material that it cannot reasonably be segregated into separate discussions without defeating the effectiveness and meaning of the overall meetings. To permit the meeting to be open to the public would preclude discussion of such matters and would greatly diminish the ultimate utility of the DSB's findings and recommendations to the Secretary of Defense and to the Under Secretary of Defense for Research and Engineering.

Written Statements: In accordance with section 10(a)(3) of the FACA and title 41 CFR 102–3.105(j) and 102–3.140, interested persons may submit a written statement for consideration by the DSB at any time regarding its mission or in response to the stated agenda of a planned meeting. Individuals submitting a written statement must submit their statement to the DSB DFO provided above at any point; however, if a written statement is not received at least three calendar days prior to the meeting, which is the subject of this notice, then it may not be provided to or considered by the DSB until a later date.

Dated: June 27, 2018.

Shelly E. Finke,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.

BILLING CODE 5001–06–P

DEPARTMENT OF DEFENSE

Department of the Army, Army Corps of Engineers

Notice of Solicitation of Applications for Stakeholder Representative Members of the Missouri River Recovery Implementation Committee; Correction

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice; extension of application deadline; correction.

SUMMARY: The Army Corps of Engineers published a document in the **Federal Register** of June 4, 2018, soliciting applications to fill vacant stakeholder representative member positions on the Missouri River Recovery Implementation Committee (MRRIC). The document contained an incomplete list of stakeholder interest categories. There are three additional stakeholder interest categories. The Corps is also extending the deadline for submitting applications to August 2, 2018.

DATES: The agency must receive completed applications and endorsement letters no later than August 2, 2018.

FOR FURTHER INFORMATION CONTACT: Lisa Rabbe, 816–389–3837.

Correction

In the **Federal Register** of June 4, 2018, in FR Doc. 2018–11891, on page 25655, correct the fourth paragraph in the third column as follows:

This Notice is for individuals interested in serving as a stakeholder member on the Committee. Members and alternates must be able to demonstrate that they meet the definition of “stakeholder” found in the Charter of the MRRIC. Applications are currently being accepted for representation in the stakeholder interest categories listed below:

- a. Environmental/Conservation Org;
- b. Hydropower;
- c. Local Government;
- d. Major Tributaries;
- e. Navigation;
- f. Recreation;
- g. Thermal Power;
- h. Water Supply;
- i. Conservation Districts;
- j. Irrigation; and

k. Fish & Wildlife.

Dated: June 25, 2018.

Mark Harberg,

Program Manager for the Missouri River Recovery Program (MRRP).

BILLING CODE 3720–58–P

DEPARTMENT OF DEFENSE

Department of the Army, Army Corps of Engineers

Notice of Availability of the Draft Feasibility Report and Integrated Environmental Impact Statement for the Adams and Denver Counties, Colorado General Investigation Study, Adams and Denver County, Colorado

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice.

SUMMARY: The U.S. Army Corps of Engineers (Corps) has made available for public review and comment the Adams and Denver Counties, Colorado General Investigation Study Draft Feasibility Report and Integrated Environmental Impact Statement (Draft EIS). The Draft EIS analyzes and discloses potential effects associated with the proposed Federal action to restore aquatic, wetland, and riparian habitat along the South Platte River and implement flood risk management solutions along Weir Gulch and Harvard Gulch.

DATES: The public comment period on the Draft EIS begins on July 2, 2018 and will last 45 days. Submit written comments on the Draft EIS on or before August 16, 2018. Three public meetings to share information and for the public to provide oral or written comments will be held for specific study segments at the following locations:

- **Weir Gulch:** Tuesday, July 31, 2018, 5:30 p.m. to 7:30 p.m. at Barnum Recreation Center, 360 Hooker Street, Denver, CO 80219.

- **South Platte River:** Wednesday, August 1, 2018, 5:30 p.m. to 7:30 p.m. at REI, 1416 Platte Street, 3rd Floor, Denver, CO 80202.

- **Harvard Gulch:** Thursday, August 2, 2018, 5:30 p.m. to 7:30 p.m. at Porter Hospital, 2525 S Downing Street, Grand Mesa Conference Room (2nd Floor), Denver, CO 80210.

The parking garage is available and access is through the main hospital entrance. Each meeting will begin with an open house at 5:30 p.m. followed by a formal 30-minute presentation at 6:00 p.m., with the rest of the meeting consisting of an open house until 7:30 p.m.
