

Accordingly, the Under Secretary issued a Presidential permit to TransCanada for the Keystone XL pipeline. Later, on November 20, 2017, the Nebraska Public Service Commission approved the Mainline Alternative Route for that pipeline in the State of Nebraska. TransCanada's application to BLM for a right-of-way remains pending with that agency.

The Department invites members of the public, government agencies, tribal governments, and all other interested parties to comment on the Draft EA for the proposed Keystone XL Mainline Alternative Route during the 30-day public comment period. Comments provided by agencies and organizations should list a designated contact person. All comments received during the public comment period may be publicized. Comments will be neither private nor edited to remove either identifying or contact information. Commenters should omit information that they do not want disclosed. Any party who will either solicit or aggregate other people's comments should convey this cautionary message.

Robert D. Wing,

Acting Director, Office of Environmental Quality and Transboundary Issues.
