Questions may be addressed to Jim Spaeth, (720) 356–1784, or CustomCatalystRFI@ee.doe.gov.

SUPPLEMENTARY INFORMATION: On August 2, 2018 (83 FR 37806), the DOE posted on its website a RFI to solicit feedback from industry and the public (including but not limited to research organizations, manufacturing organizations, catalyst manufacturers, and catalyst research consortia), academia, research laboratories, government agencies, and other biofuels and bioproducts stakeholders on

“catalyst productions capability for biochemical and thermochemical processes.” Specifically, DOE seeks information to help identify and understand additional areas of research, capabilities, and yet-to-be-addressed challenges pertinent to production scale-up challenges (typically in multi-kilogram quantities of novel catalysts used in technology development and engineering solutions for the efficient conversion of lignocellulosic, waste, and algal feedstocks to produce biofuels and bioproducts). The RFI provided for the written submission of comments by September 14, 2018. By this notice, DOE is reopening the public comment period to all additional time for the public to provide data responsive to DOE’s detailed inquiries regarding the RFI.

DOE has determined that a reopening of the public comment period is appropriate to allow interested parties additional time to submit comments for DOE’s consideration. Thus, DOE is reopening the comment period by 15 days, until October 22, 2018. DOE will consider any comments received by midnight of October 22, 2018 to be timely submitted.

Signed in Washington, DC, on October 1, 2018.

Director, Bioenergy Technologies Office.
