

The proposed consent order has been placed on the public record for thirty (30) days for receipt of comments by interested persons. Comments received during this period will become part of the public record. After thirty days, the Commission will again review the agreement and the comments received, and will decide whether it should withdraw from the agreement and take appropriate action or make final the agreement's proposed order.

This matter concerns alleged false or misleading representations that Loop Works made to consumers concerning its participation in the Privacy Shield framework agreed upon by the U.S. and the European Union ("EU"). The Privacy Shield framework allows U.S. companies to transfer data outside the EU consistent with EU law. To join the EU-U.S. Privacy Shield framework, a company must self-certify to the U.S. Department of Commerce ("Commerce") that it complies with a set of principles and related requirements that have been deemed by the European Commission as providing "adequate" privacy protection. The principles include notice; choice; accountability for onward transfer; security; data integrity and purpose limitation; access; and recourse, enforcement, and liability. The related requirements include, for example, securing an independent recourse mechanism to handle any disputes about how the company handles information about EU citizens. Commerce reviews these applications for self-certification and maintains a public website, <https://www.privacyshield.gov/list>, where it posts the names of companies that have self-certified to the EU-U.S. Privacy Shield framework and completed the requirements for certification. The listing of companies indicates whether their self-certification is current. Companies are required to re-certify every year in order to retain their status as current members of the EU-U.S. Privacy Shield framework.

Loop Works offers recruitment and "talent management" services. According to the Commission's complaint, the company has set forth on its website, <http://www.loopworks.com>, privacy policies and statements about its practices, including statements related to the status of its participation in the EU-U.S. Privacy Shield framework.

The Commission's complaint alleges that Loop Works deceptively represented that it was a current participant in the EU-U.S. Privacy Shield framework when, in fact, it was not.

Part I of the proposed order prohibits the company from making misrepresentations about its membership in any privacy or security program sponsored by the government or any other self-regulatory or standard-setting organization, including, but not limited to, the EU-U.S. Privacy Shield framework and the Swiss-U.S. Privacy Shield framework.

Parts II through VI of the proposed order are reporting and compliance provisions. Part II requires acknowledgement of the order and dissemination of the order now and in the future to persons with responsibilities relating to the subject matter of the order. Part III ensures notification to the FTC of changes in corporate status and mandates that the company submit an initial compliance report to the FTC. Part IV requires the company to retain documents relating to its compliance with the order for a five-year period.

Part V mandates that the company make available to the FTC information or subsequent compliance reports, as requested. Part VI is a provision "sunsetting" the order after twenty (20) years, with certain exceptions.

The purpose of this analysis is to facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the proposed complaint or order or to modify the order's terms in any way.

By direction of the Commission,
Commissioner Wilson not participating.

Donald S. Clark,
Secretary.

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Delta Impact Recipient Monitoring and Assessment Tools to the Office of Management and Budget (OMB) for review and approval. CDC previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on January 19, 2018 to obtain comments from the public and affected

agencies. CDC received two anonymous non-substantive public comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

DELTA Impact Recipient Monitoring and Assessment Tools—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Violence is a serious, yet preventable, public health problem. Intimate partner violence (IPV) affects millions of women, men, and children. In the United States, one in four women and one in nine men experience contact sexual violence, physical violence, and/or stalking by an intimate partner with a negative impact such as injury, fear, concern for safety, or needing services. The Centers for Disease Control and

Prevention’s (CDC) National Intimate Partner and Sexual Violence Survey (NISVS) data showed many victims of IPV began experiencing these forms of violence prior to adulthood.

Authorized by the Family Violence and Prevention Services Act (FVPSA) statute (42 U.S.C. 10414), CDC has funded the Domestic Violence Prevention Enhancements and Leadership Through Alliances (DELTA) Program since 2002. The DELTA program funds State Domestic Violence Coalitions to implement statewide IPV prevention efforts, while also providing assistance and funding for local communities to implement IPV prevention activities. The DELTA Impact cooperative agreement advances IPV prevention activities through these components: 1. Implementation and program evaluation of state and local level IPV prevention strategies targeting community or societal level change using a public health approach and effective prevention principles. 2.

Development or enhancement of a State Action Plan (SAP) to increase the use of data for planning and the prioritization of primary prevention of IPV based on any existing health inequities within their jurisdictions. 3. Provision of training and technical assistance (TA) to DELTA Impact organizations on the implementation of IPV prevention strategies.

The Centers for Disease Control and Prevention (CDC) seeks OMB approval to collect annual progress report (APR) information from the currently grantees funded under Domestic Violence Prevention Enhancement and Leadership Through Alliances (DELTA) Impact. Recipients will report relevant information on the implementation of their prevention strategies, implementation of statewide planning, as well as the extent to which they implement and evaluate multiple specific prevention programs. These data will be submitted through an electronic reporting system at the time

of their annual non-competing continuation application. The report has been designed in a way that collects consistent information across recipients while allowing the flexibility to account for varying prevention strategies.

Information to be collected will provide crucial data for program performance monitoring, will allow CDC to analyze and synthesize information from grantees, help ensure consistency in documenting progress and technical assistance, enhance accountability of the use of federal funds, and provide timely reports as frequently requested by HHS, the White House, and Congress.

Submission of the Annual Progress Report is required for cooperative agreement grantees. Over the three-year period of this information collection request, the annualized estimated burden for 10 recipients is 117 with a total three-year burden of 350 hours. There is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
DELTA Impact Program Recipients State Domestic Violence Coalitions.	Annual Progress Report—Year 1	10	1	5
	Annual Progress Report—Year 2 and 3	10	2	3.3

**Agency Forms Undergoing Paperwork
Reduction Act Review**

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled The National Health and Nutrition Examination Survey (NHANES) to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on May 11,

2018 to obtain comments from the public and affected agencies. CDC received five comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

The National Health and Nutrition Examination Survey (NHANES), (OMB No. 0920–0950, expires 12/31/2019)—Revision—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).
