DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2018–0059]

Secretary's Advisory Committee on Animal Health; Intent To Reestablish

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of intent.

SUMMARY: We are giving notice that the Secretary of Agriculture intends to reestablish the Secretary's Advisory Committee on Animal Health for a 2-year period. The Secretary has determined that the Committee is necessary and in the public interest.

FOR FURTHER INFORMATION CONTACT: Dr. Tyler McAlpin, Designated Federal Officer, VS, APHIS, 4700 River Road Unit 43, Riverdale, MD 20737, (301) 851–3458.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act (FACA, 5 U.S.C. App.), notice is hereby given that the Secretary of Agriculture intends to reestablish the Secretary's Advisory Committee on Animal Health (the Committee) for 2 years from the filing date of the charter's reestablishment.

The Committee advises the Secretary on strategies, policies, and programs to prevent, control, or eradicate animal diseases. The Committee considers agricultural initiatives of national scope and significance and advises on matters of public health, conservation of national resources, stability of livestock economies, livestock disease management and traceability strategies, prioritizing animal health imperatives, and other related aspects of agriculture. The Committee Chairperson and Vice Chairperson are elected by the Committee from among its members.

Done in Washington, DC, on October 26, 2018.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

Agency: U.S. Census Bureau.

Title: Quarterly Survey of Public Pensions.

OMB Control Number: 0607–0143.

Form Number(s): F–10.

Type of Request: Revision of a currently approved collection.

Number of Respondents: 100.

Average Hours per Response: 45 minutes.

Burden Hours: 300.

Needs and Uses: The Quarterly Survey of Public Pensions, provides a rich source of data on public retirement systems administered by state and local governments in the United States. Data have been collected since 1968. Over 3.7 trillion dollars in public pension assets in the financial markets are controlled by a small number of large retirement systems. The Quarterly Survey of Public Pensions is used to collect data on the assets, revenues and expenditures of the 100 largest systems.

This survey was initiated at the request of both the Council of Economic Advisers and the Federal Reserve Board. The most important information this survey provides is the quarterly change in composition of the securities holdings of the defined benefit public employee retirement systems component of the economy. The Federal Reserve Board uses these data to track the public sector portion of the Flow of Funds Accounts. Additionally, the data are used by a variety of government officials, academics, students and non-profit organizations to analyze trends in public employee retirement and the impact of retirement obligations on the fiscal well-being of state and local governments.

Currently, we are requesting approval to conduct the 2019, 2020 and 2021 Quarterly Survey of Public Pensions. Discussions with the Federal Reserve Board and data providers and literature review have revealed that there is little interest in the measurement of revenue and benefits on a quarterly basis. Many systems do not produce these data quarterly. Obtaining these data requires consultation with multiple offices and the finalization of these data often lag behind asset data. Additionally, there is burden on data providers to produce these data quarterly. Therefore, we are proposing a realignment of content. We request approval to modify the current questionnaire to focus on the asset base of public employee retirement systems and to remove questions pertaining to measurement of revenue and benefits from the quarterly program.

The survey will provide greater focus on the asset composition of the largest systems. These data are already produced for existing internal and external needs, and most closely align with the needs of the Federal Reserve Board. Additionally, the related Annual Survey of Public Pensions (0607–0585) will continue to provide a robust collection of revenue and benefit data on a fiscal year basis. These data items are in demand on an annual basis and are already created for internal and external purposes by most all systems as they are required items in Comprehensive Annual Financial Reports (CAFRs).

Summary tables of the information collected are released quarterly on the internet. Documentation and explanatory materials are also available on the internet site here: <https://www.census.gov/programs-surveys/qspp.html>.

Affected Public: State, local or Tribal government.

Frequency: Quarterly.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Sections 161 and 182.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

Agency: U.S. Census Bureau.

Title: Spatial, Address, and Imagery Data Program (SAID).

OMB Control Number: 0607–XXXX.

Form Number(s): N/A.

Type of Request: Regular submission.

Needs and Uses: The Spatial, Address, and Imagery Data (SAID) Program, formerly known as the Geographic Support System Partnership Program, is one of seven voluntary geographic partnership programs that collect data to update the U.S. Census Bureau's geographic database of addresses, streets, boundaries, and imagery known as the Master Address File/Topologically Integrated Geocoding and Referencing (MAF/TIGER) System.

The data within the MAF/TIGER System supports the Census Bureau's geographic framework for data collection, tabulation and dissemination. This framework enables the Census Bureau field personnel to navigate to the appropriate locations for data collection, and it enables the Census Bureau to accurately link demographic data from surveys and the decennial census to locations and areas, such as cities, school districts, and counties for data tabulation and dissemination.

The data collected in the SAID Program is also used to define geographic boundaries, including census blocks, and to place households and group quarters in a specific census block. The SAID Program follows the process below:

1. The Census Bureau invites participants, including tribal, state, county, and local governments; federal agencies; and other organizations each fiscal year.

2. Participants provide a current address data with associated location points and attributes, spatial data, and/or imagery that is no more than two years old.

3. Participants upload the requested data files to a Census Bureau Secure File Transfer Protocol site, per Census Bureau procedures, or provide a media from which the data can be acquired.

4. The Census Bureau updates the MAF/TIGER System with the address and street centerline data provided by

the participants and uses the provided imagery for quality control and change detection.

5. The Census Bureau uses these updated addresses, streets, and imagery to support Census Bureau field operations, surveys, and data tabulation.

The SAID Program provides the Census Bureau with a continuous method to obtain current, accurate, and complete address, spatial, and imagery data. The SAID Program helps the Census Bureau maintain its geographic framework for data collection, tabulation, and dissemination between decennial censuses and to support ongoing programs, such as the American Community Survey and the Population Estimates Program. Over the past six years, the SAID Program, under the name of the Geographic Support System Partnership Program, has enabled the Census Bureau to update addresses and street centerlines across the country, with participation covering nearly 94 percent of the housing units in the nation. Moving forward, the SAID Program will continue to focus on acquiring addresses, street centerlines, and imagery in targeted areas. The Geographic Support System Partnership Program was previously included in the Geographic Partnership Program Generic Clearance (OMB Control Number 0607–0795).

Affected Public: Tribal, state, county, and local governments and organizations.
