SUPPLEMENTARY INFORMATION:

Title: FERC-546, Certificated Rate Filings: Gas Pipeline Rates.

OMB Control No.: 1902-0155.

Type of Request: Three-year extension of the FERC-546 information collection requirements with no changes to the current reporting requirements.

Abstract: The requirements of the FERC-546 information collection are contained within the Commission's regulations in 18 CFR parts 154.7, 154.202, 154.204-154.208, 154.602-154.603, 284.501-284.505, and 154.4. The Commission reviews the FERC-546 materials to decide whether to approve rates and tariff changes associated with an application for a certificate under Natural Gas Act (NGA) section 7(c). Additionally, FERC reviews FERC-546

materials in NGA section 4(f), storage applications, to evaluate an applicant's market power and determine whether to grant market-based rate authority to the applicant. The Commission uses the information in FERC-546 to monitor jurisdictional transportation, natural gas storage, and unbundled sales activities of interstate natural gas pipelines and Hinshaw¹ pipelines. In addition to fulfilling the Commission's obligations under the NGA, the FERC-546 enables the Commission to monitor the activities and evaluate transactions of the natural gas industry, ensure competitiveness, and improve efficiency of the industry's operations. In summary, the Commission uses the information to:

- Ensure adequate customer protections under NGA section 4(f);
- Review rate and tariff changes filed under NGA section 7(c) for certification of natural gas pipeline transportation and storage services;
- Provide general industry oversight; and
- Supplement documentation during the pipeline audits process.

Failure to collect this information would prevent the Commission from monitoring and evaluating transactions and operations of jurisdictional pipelines and performing its regulatory functions.

Type of Respondents: Jurisdictional pipeline companies and storage operators.

Estimate of Annual Burden:² The Commission estimates the annual reporting burden and cost for the information collection as:

FERC-546 (CERTIFICATED RATE FILINGS: GAS PIPELINE RATES)

	Annual number of respondents	Annual number of responses per respondent	Total number of responses (rounded)	Average burden and cost per response ³ (rounded)	Total annual burden hours and total annual cost (rounded)	Cost per respondent (\$) (rounded)
	(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
Pipeline Certificate Filings and Storage Applications.	51	⁴ 1.471	75	500 hrs.; \$40,000	37,500 hrs.; \$3,000,000	⁵ \$58,824

¹ Hinshaw pipelines are those that receive all out-of-state gas from entities within or at the boundary of a state if all the natural gas so received is ultimately consumed within the state in which it is received, 15 U.S.C. 717(c). Congress concluded that Hinshaw pipelines are "matters primarily of local concern," and so are more appropriately regulated by pertinent state agencies rather than by FERC. The Natural Gas Act section 1(c) exempts Hinshaw pipelines from FERC jurisdiction. A Hinshaw pipeline, however, may apply for a FERC certificate to transport gas outside of state lines.

² "Burden" is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further

explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.

³ The hourly cost (for salary plus benefits) uses the figures from the Bureau of Labor Statistics, May 2017, for positions involved in the reporting and recordkeeping requirements. These figures include salary (https://www.bls.gov/oes/current/naics2_22.htm) and benefits (<http://www.bls.gov/news.release/elec.nr0.htm>) and are:

Electrical Engineer (Occupation Code: 17-2071; \$66.90/hour)

Management Analyst (Occupation Code: 13-1111; \$63.32/hour)

Accounting (Occupation Code: 13-2011; \$56.59/hours)

Computer and Mathematical (Occupation Code: 15-0000; \$63.25/hour)

Legal (Occupation Code: 23-0000; \$143.68/hour)

The average hourly cost (salary plus benefits) is calculated weighting each of the previously mentioned wage categories as follows: \$66.90/hour (0.4) + \$63.32/hour (0.2) + \$56.59/hour (0.1) + \$63.25/hour (0.1) + \$143.68/hour (0.2) = \$80.14/hour. The Commission rounds this figure to \$80/hour.

⁴ This figure was calculated by dividing the total number of responses (75) by the total number of respondents (51). The resulting figure was then rounded to the nearest thousandth place.

⁵ Rounded from \$58,823.53.
