

will present its recommendations on the framework alternatives. Following the framework action, the Council will receive an update on offshore energy activities and consult on any timely issues. The Council then will adjourn for the day. Shortly following the conclusion of Council business, NMFS staff will hold a feedback session in the Council's meeting room to solicit suggestions for improving communication and utilization of results achieved by the Saltonstall-Kennedy (S-K) Grant Program.

Wednesday, December 5, 2018

The Council will begin the day with a NMFS presentation on the S-K Grant Program, which will include: An overview of the program; information on priority setting, funding, and proposal reviews; and an explanation of the decision-making process for issuing awards. The Council will have an opportunity to provide feedback on the S-K program. Next, the Council will receive a presentation on a project to measure the ecological, social, economic, and governance effects of catch shares in the groundfish fishery. The presentation will include a short demonstration on the use of 14 neutral, scientific indicators that can be used to measure the effects of catch shares. Then, the Council will receive a report on the November 19, 2018 meeting of the Northeast Trawl Advisory Panel Working Group. The Groundfish Committee Report will follow. The Council will take final action on Framework Adjustment 58 to the Northeast Multispecies FMP, which includes: (1) 2019 total allowable catches for shared U.S./Canada stocks of Eastern Georges Bank cod, Eastern Georges Bank haddock, and Georges Bank yellowtail flounder; (2) rebuilding plans for Georges Bank winter flounder, Southern New England/Mid-Atlantic yellowtail flounder, witch flounder, Gulf of Maine/Georges Bank northern windowpane flounder, and ocean pout; (3) minimum size exemptions for vessels fishing in waters regulated by the Northwest Atlantic Fisheries Organization (NAFO); and (4) extension of a scallop fishery provision for triggering Georges Bank yellowtail flounder accountability measures. The Groundfish Committee Report also will include: An update on Groundfish Monitoring Amendment 23; and an update on work being conducted by the Fishery Data for Stock Assessment Working Group. Next, the Scientific and Statistical Committee (SSC) will provide the Council with 2019–2020 overfishing limit (OFL) and acceptable biological catch (ABC) recommendations for

Atlantic sea scallops and 2019–2021 OFL and ABC recommendations for Atlantic herring.

After the lunch break, members of the public will have the opportunity to speak during an open comment period on issues that relate to Council business but are not included on the published agenda for this meeting. The Council asks the public to limit remarks to 3–5 minutes. Next, the Council will hear from its Scallop Committee and take final action on Framework Adjustment 30 to the Atlantic Sea Scallop FMP. The framework includes specifications for fishing year 2019, default specifications for 2020, and several standard default measures. Then, if available, the Council will review, discuss, and comment on NMFS's proposed rule to set Atlantic herring catch limits and other specifications for the 2019 fishing year. After that, the Council will receive a report on the Northeast Regional Coordinating Council's decisions for revising the stock assessment process and assessment scheduling. The Council then will adjourn for the day. Following the conclusion of Council business, NMFS staff will hold a second feedback session to solicit suggestions for improving communication and utilization of results achieved by the S-K Grant Program.

Thursday, December 6, 2018

The third day of the meeting will begin with a presentation on the Council's work on Ecosystem-Based Fishery Management (EBFM). This will include two components: (1) A progress report on efforts to develop an example Fishery Ecosystem Plan (eFEP) framework for Georges Bank; and (2) a brief introduction into how Management Strategy Evaluation (MSE) may be used for EBFM. Next, the Council will take final action on 2019–2021 fishing year specifications for spiny dogfish. Then, the Council will receive a report on the Standardized Bycatch Reporting Methodology three-year review. Following this discussion, the Council will receive two whale-related reports, which will cover: (a) The October meeting of the Atlantic Large Whale Take Reduction Team; and (b) the November meeting of the Ropeless Consortium. Next, the Council will receive a presentation on GARFO's Fishery Dependent Data Initiative. NMFS annually reports to the Council on efforts by GARFO and the Northeast Fisheries Science Center to modernize fishery dependent data collection.

After the lunch break, the Council will discuss and take final action on 2019 priorities for all committees and Council responsibilities. After that, the

Council will discuss and make a decision on the future of its Research Steering Committee. The Council will close out the meeting with "other business."

Although non-emergency issues not contained on this agenda may come before the Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies (see ADDRESSES) at least 5 days prior to the meeting date.

Dated: November 15, 2018.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648–XG631

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Whiting Advisory Panel and Committee to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This meeting will be held on Monday, December 3, 2018 at 1:30 p.m.

ADDRESSES: The meeting will be held at the Hotel Viking, One Bellevue Avenue, Newport, RI 02840; telephone: (401) 847-3300.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Whiting Advisory Panel and Committee will evaluate Amendment 22 (limited access alternatives) public hearing comments and impact analyses to recommend final action to the Council at its December meeting. Other business will be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. This meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 15, 2018.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; North Pacific Observer Safety and Security Survey

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before January 22, 2019.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the internet at prcomments@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Special Agent Jaclyn Smith, NOAA Fisheries Office of Law Enforcement, 222 W 7th Ave., #10, Anchorage, AK 99513, 907-271-1869, or Jaclyn.Smith@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for revision of a currently approved information collection.

NMFS certified observers are a vital part of fisheries management. Observers are deployed to collect fisheries data in the field; observers often deploy to vessels and work alongside fishers for weeks and months at a time. The work environment observers find themselves in can be challenging, especially if the observer finds themselves a target for victim type violations such as sexual harassment, intimidation, or even assault. NOAA Fisheries' Office of Law Enforcement prioritizes investigations into allegations of sexual harassment, hostile work environment, assault and other complaints which may affect observers individually. However, it is difficult for a person to disclose if they have been a victim of a crime, and law enforcement cannot respond if no complaint is submitted. The true number of observers who have experienced victim type crimes is unknown, and the reasons why they do not report is also unclear. More information is needed to understand how many observers per year experience victim type crimes, and why they chose not to report to law enforcement.

The Office of Law Enforcement, Alaska Division, is conducting a survey of North Pacific Observers to determine

the number of observers who experienced victimizing behavior during deployments in 2018. This survey is a repeat of a voluntary survey previously conducted, and will be launched on an annual basis. The survey will also investigate the reasons that prevented observers from reporting these violations. The results of the survey will provide the Office of Law Enforcement a better understanding of how often observers are victimized, which will enable them to reallocate resources as needed, conduct more training for observers to ensure they know how to report, conduct training to ensure people understand what constitutes a victim crime, and to increase awareness of potential victimizations. Additionally, the survey results will help law enforcement understand the barriers to disclosure, so enforcement may begin to address these impediments so they no longer prevent observers from disclosure.

II. Method of Collection

Data will be collected on a voluntary basis, via an electronic survey to ensure anonymity. The survey will be offered to all observers who deployed in 2018 in the North Pacific Observer Program. Individual data will not be released for public use.

III. Data

OMB Control Number: 0648-0759.

Form Number(s): None.

Type of Review: Regular (request for a revised information collection).

Affected Public: Individuals or households.

Estimated Number of Respondents: 300.

Estimated Time per Response: 10 minutes.

Estimated Total Annual Burden Hours: 50 hours.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques
