

that the economic impact on small entities and small manufacturers will be minimal and less than 3 percent.

Unfunded Mandates Reform Act

Section 202(a) of the Unfunded Mandates Reform Act of 1995 requires that agencies prepare a written statement, which includes an assessment of anticipated costs and benefits, before proposing “any rule that includes any Federal mandate that may result in the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation) in any one year.” In 2018, that threshold is approximately \$150 million. HHS does not expect this rule to exceed the threshold.

Executive Order 13132—Federalism

HHS has reviewed this final rule in accordance with Executive Order 13132 regarding federalism, and has determined that it does not have “federalism implications.” This rule would not “have substantial direct effects on the States, or on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.” The proposal to rescind the June 5, 2018, final rule and make the January 5, 2017, final rule effective as of January 1, 2019, would not adversely affect the following family elements: Family safety, family stability, marital commitment; parental rights in the education, nurture, and supervision of their children; family functioning, disposable income or poverty; or the behavior and personal responsibility of youth, as determined under Section 654(c) of the Treasury and General Government Appropriations Act of 1999.

Paperwork Reduction Act

The Paperwork Reduction Act of 1995 (44 U.S.C. 3507(d)) requires that OMB approve all collections of information by a Federal agency from the public before they can be implemented. This final rule is projected to have no impact on current reporting and recordkeeping burden for manufacturers under the 340B Program. Changes finalized in this rule would result in no new reporting burdens.

Medicare Program: Changes to Hospital Outpatient Prospective Payment and Ambulatory Surgical Center Payment Systems and Quality Reporting Programs; Correction

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Final rule; correction.

SUMMARY: This document corrects an error that appeared in the final rule with comment period published in the **Federal Register** on November 21, 2018, entitled “Medicare Program: Changes to Hospital Outpatient Prospective Payment and Ambulatory Surgical Center Payment Systems and Quality Reporting Programs.” Specifically, this document corrects the public comment period end date. The corrected date is January 2, 2019.

DATES:

Effective date: This correction is effective November 29, 2018.

Comment period: To be assured consideration, comments on the payment classifications assigned to the interim APC assignments and/or status indicators of new or replacement Level II HCPCS codes in FR Doc. 2018–24243 of November 21, 2018 (83 FR 58818), must be received at one of the addresses provided in the **ADDRESSES** section no later than 5 p.m. EST on January 2, 2019.

FOR FURTHER INFORMATION CONTACT: Marjorie Baldo, (410) 786–4617.

SUPPLEMENTARY INFORMATION:

I. Background

In FR Doc. 2018–24243 of November 21, 2018 (83 FR 58818), entitled “Medicare Program: Changes to Hospital Outpatient Prospective Payment and

Ambulatory Surgical Center Payment Systems and Quality Reporting Programs” (hereinafter referred to as the CY 2019 OPPS/ASC final rule with comment period), there was an error that is identified and corrected in the Correction of Errors section below.

II. Summary of Errors

On page 58818, we made an error in the **DATES** section under the heading “Comment period.” We inadvertently stated that comments on the payment classifications assigned to the interim Medicare Ambulatory Payment Classification (APC) assignments and/or status indicators of new or replacement Level II Healthcare Common Procedure Coding System (HCPCS) codes in the final rule with comment period must be received no later than 5 p.m. EST on December 3, 2018. The corrected date is January 2, 2019, 60 days from the date of filing for public inspection.

III. Waiver of Proposed Rulemaking

Under 5 U.S.C. 553(b) of the Administrative Procedure Act (APA), the agency is required to publish a notice of the proposed rule in the **Federal Register** before the provisions of a rule take effect. Similarly, section 1871(b)(1) of the Act requires the Secretary to provide for notice of the proposed rule in the **Federal Register** and provide a period of not less than 60 days for public comment. In addition, section 553(d) of the APA and section 1871(e)(1)(B)(i) mandate a 30-day delay in effective date after issuance or publication of a rule. Sections 553(b)(B) and 553(d)(3) of the APA provide for exceptions from the notice and comment and delay in effective date of the APA requirements; in cases in which these exceptions apply, sections 1871(b)(2)(C) and 1871(e)(1)(B)(ii) of the Act provide exceptions from the notice and 60-day comment period and delay in effective date requirements of the Act as well. Section 553(b)(B) of the APA and section 1871(b)(2)(C) of the Act authorize an agency to dispense with normal rulemaking requirements for good cause if the agency makes a finding that the notice and comment process is impracticable, unnecessary, or contrary to the public interest. In addition, both section 553(d)(3) of the APA and section 1871(e)(1)(B)(ii) of the Act allow the agency to avoid the 30-day delay in effective date where such delay is contrary to the public interest and an agency includes a statement of support.

We believe that this correcting document does not constitute a rulemaking that would be subject to these requirements. This correcting

document corrects a technical error in the preamble to the CY 2019 OPPS/ASC final rule with comment period but does not make substantive changes to the policies or payment methodologies that were adopted in the final rule. Rather, it is intended to ensure that the public has 60 days to comment on the payment classifications assigned to the interim APC assignments and/or status indicators of new or replacement Level II HCPCS codes in the CY 2019 OPPS/ASC final rule with comment period, which is the duration of the typical comment period on these topics.

In addition, even if this were a rulemaking to which the notice and comment procedures and delayed effective date requirements applied, we find that there is good cause to waive such requirements. Undertaking further notice and comment procedures to incorporate the correction in this document into the final rule or delaying the effective date would be contrary to the public's interest because it is in the public's interest to have adequate time to comment on the payment classifications assigned to the interim APC assignments and/or status indicators of new or replacement Level II HCPCS codes included in the CY 2019 OPPS/ASC final rule with comment period.

Furthermore, such procedures would be unnecessary, as we are not altering our payment methodologies or policies, but rather, we are simply correcting the incorrect comment period end date. This correcting document is intended solely to ensure that the comment period end date included in the CY 2019 OPPS/ASC final rule with comment period is correct for those items on which the public can submit public comments. For these reasons, we believe we have good cause to waive the

notice and comment and effective date requirements.

IV. Correction of Errors

In FR Doc. 2018–24243 of November 21, 2018 (83 FR 58818), make the following corrections:

1. On page 58818, in the second column, in the **DATES** section, under the heading “Comment Period,” correct “December 3, 2018” to read “January 2, 2019”.

Dated: November 26, 2018.

Ann C. Agnew,

*Executive Secretary to the Department,
Department of Health and Human Services.*

Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Georges Bank Cod Trip Limit Adjustment for the Common Pool Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; inseason adjustment.

SUMMARY: This action adjusts the possession and trip limits of Georges Bank cod for Northeast multispecies common pool vessels for the remainder of the 2018 fishing year, in order to ensure that the common pool fishery is

able to harvest, but not exceed, its annual quota for the stock. These changes are intended to provide the common pool fishery with additional fishing opportunities.

DATES: These possession and trip limit adjustment are effective November 29, 2018, through April 30, 2019.

FOR FURTHER INFORMATION CONTACT: Spencer Talmage, Fishery Management Specialist, 978–281–9232.

SUPPLEMENTARY INFORMATION:

Possession and Trip Limit Increase for Georges Bank Cod

The regulations at § 648.86(o) authorize the Regional Administrator to adjust the possession and trip limits for common pool vessels in order to help avoid the overharvest or underharvest of the common pool quotas.

Based on information reported through October 13, 2018, the common pool fishery has caught 5,797 lb (2.6 mt) of Georges Bank (GB) cod, or approximately 11 percent of its 53,374 lb (24.2 mt) annual quota. At the current rate of fishing, the common pool fishery is not projected to fully harvest its annual quota for the stock by the end of the 2018 fishing year. A moderate increase in the possession and trip limits for the stock will provide additional opportunities with little risk of exceeding the common pool quota of the stock.

Effective November 29, 2018, the possession and trip limit of GB cod is increased, as summarized in Table 1. Common pool groundfish vessels that have declared their trip through the vessel monitoring system (VMS) or interactive voice response system, and crossed the VMS demarcation line prior to November 29, 2018, may land at the new possession and trip limits for that trip.

TABLE 1—CURRENT AND NEW POSSESSION AND TRIP LIMITS FOR GB COD

Permit type	Current possession/trip limits	New possession/trip limits
Day-At-Sea (DAS) ..	100 lb (45.4 kg) per DAS, up to 200 lb (90.7 kg) per trip (Outside of the Eastern U.S./Canada Area). 100 lb (45.4 kg) per DAS, up to 500 lb (226.8 kg) per trip (Inside the Eastern U.S./Canada Area).	250 lb (113.4 kg) per DAS, up to 500 lb (226.8 kg) per trip.
Handgear A	100 lb (45.4 kg) per trip	250 lb (113.4 kg) per trip.
Handgear B	25 lb (11.3 kg) per trip	unchanged.
Small Vessel Category*.	100 lb (45.4 kg) per trip	250 lb (113.4 kg) per trip.

* The Small Vessel Category trip limit of 300 lb of cod, yellowtail flounder, and haddock combined remains in place.
