SUPPLEMENTARY INFORMATION:

A. Purpose

The Federal Acquisition Regulation (FAR) provision 52.204-20, Predecessor of Offeror, requires each offeror to identify if the offeror is, within the last three years, a successor to another entity that received a Federal Government award and, if so, to provide the Commercial and Government Entity (CAGE) code and legal name of the predecessor. The information on predecessors is used to identify such entities in the Federal Awardee Performance and Integrity Information System (FAPIS) to allow retrieval of integrity and performance data on the most recent predecessor of an apparent successful offeror to whom award is anticipated. FAR 9.104-6 requires contracting officers to consult FAPIS before awarding a contract in excess of the simplified acquisition threshold. The information on predecessors is collected on an annual basis for inclusion in the annual representations and certifications in the System for Award Management (SAM) for offerors required to register in SAM. Offerors not required to register in SAM but required to provide the information in the provision at FAR 52.204-20 will do so as specified in the solicitation or instructed by the contracting officer.

B. Public Comment

A 60 day notice was published in the **Federal Register** at 83 FR 47342, on September 19, 2018. One comment was received; however, it did not change the estimate of the burden. The commenter supports the information collection requirement as an important step in bringing greater transparency and efficiency to the federal acquisition process.

Comment: The commenter is concerned that offerors are not complying with the information collection requirement and they must be held accountable for their representations and certifications. The commenter suggested that to do so, the government should periodically audit

vendor-entered FAPIS and SAM data quality and address non-compliance through a system of sanctions ranging from warning letters to monetary fines, or through the suspension and debarment process. The commenter also suggested expanding the information collection requirement to include the names of key individuals associated with the offeror company and any past relationships they had with entities that received contracts or grants.

Response: This comment is out of scope because the suggestions made by the commenter would require additional rulemaking. They did not express an opinion on whether the stated number of burden hours is accurate for what they believe to be the actual number of hours an offeror expends to comply with the provision.

C. Annual Reporting Burden

The burden to provide the information required by the FAR provision at 52.204-20 when an offeror is registered in SAM is already covered by OMB Control Number 9000-0159, System for Award Management Registration (SAM). OMB Control Number 9000-0189 now will cover the burden for providing the required information when the offeror is not required to register in SAM in accordance with the exceptions in FAR 4.1102(a). The Federal Procurement Data System (FPDS) for FY 2017 was used to develop the estimated burden hours as shown below:

Respondents: 974.

Responses per Respondent: 1.

Total Annual Responses: 974.

Hours per Response: 0.1.

Total Burden Hours: 97.4.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

SUPPLEMENTARY INFORMATION:

A. Purpose

It is the Government's policy to try to resolve all contractual issues by mutual agreement at the contracting officer's level without litigation. Reasonable efforts should be made to resolve controversies prior to submission of a contractor's claim. The Contract Disputes Act of 1978 (41 U.S.C. 7103) requires that claims exceeding \$100,000 must be accompanied by a certification that (1) the claim is made in good faith; (2) supporting data are accurate and complete; and (3) the amount requested accurately reflects the contract adjustment for which the contractor believes the Government is liable. The information, as required by FAR clause 52.233–1, Disputes, is used by a contracting officer to decide or resolve the claim. Contractors may appeal the contracting officer's decision by submitting written appeals to the appropriate officials.
