POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service™.

ACTION: Notice of establishment of new system of records.

SUMMARY: The United States Postal Service® (Postal Service) is proposing to establish a new Customer Privacy Act System of Records (SOR) to support the Change of Address and Hold Mail services.

DATES: This system will become effective without further notice on

January 3, 2019 unless, in response to comments received on or before that date, the Postal Service makes any substantive change to the purposes or routine uses set forth, or to expand the availability of information in this system, as described in this notice. If the Postal Service determines that certain portions of this SOR should not be implemented, or that implementation of certain portions should be postponed in light of comments received, the Postal Service may choose to implement the remaining portions of the SOR on the stated effective date, and will provide notice of that action.

ADDRESSES: Comments may be mailed or delivered to the Privacy and Records Management Office, United States Postal Service, 475 L'Enfant Plaza SW, Room 1P830, Washington, DC 20260-1101. Copies of all written comments will be available at this address for public inspection and photocopying between 8 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Janine Castorina, Chief Privacy and Records Management Officer, Privacy and Records Management Office, 202-268-3069 or privacy@usps.gov.

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Privacy Act requirement that agencies publish their systems of records in the **Federal Register** when there is a revision, change, or addition, or when the agency establishes a new system of records. The Postal Service is establishing a new system of records to support the new Address Matching Database that is being implemented to facilitate the prevention of fraudulent Change of Address and Hold Mail requests through address matching across Postal Service customer systems.

I. Background

In an effort to enhance the security of mailing services, the Postal Service is using a new Address Matching Database to identify, prevent and mitigate potential fraudulent activity within the Change of Address and Hold Mail processes.

II. Rationale for Changes to USPS Privacy Act Systems of Records

The Postal Service is using a new Address Matching Database to facilitate mail fraud prevention for Change of Address and Hold Mail services through address matching across Postal Service customer systems. Specifically, the Address Matching Database will establish a dataflow across existing Postal Service customer systems and applications and confirm if there is an

address match when a new Change of Address or Hold Mail request is submitted. The Address Matching Database will also confirm the presence of a Change of Address or Hold Mail request for the same address. With the exception of Change of Address requests subject to protective court orders, the Address Matching Database will send email or text message confirmation notifications to customers who submit a Change of Address and/or Hold Mail request. The Address Matching Database will also generate aggregate data analytics that will help guide business decisions and efforts to mitigate potential fraud as it relates to the Change of Address and Hold Mail processes. Additionally, this information will be used to improve the customer experience by helping the Postal Service maintain up-to-date user records across customer systems and minimizing the risk of fraudulent transactions.

Privacy and Security

For more than two centuries, the Postal Service has maintained a brand that customers trust to protect the privacy and security of their information. The new Address Matching Database will enhance the confidentiality and privacy of mail delivery services by improving the security of Change of Address and Hold Mail processes. The new Address Matching Database will also protect Postal Service customers from becoming potential victims of mail fraud and identity theft. Other policies that ensure the security and confidentiality of personal information are described below in the Safeguards section of the new Address Matching for Mail Fraud Detection and Prevention SOR.

III. Description of the New System of Records

Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments to this proposal. A report of the establishment of this SOR has been sent to Congress and to the Office of Management and Budget for their evaluations. The Postal Service does not expect the establishment of this SOR to have any adverse effect on individual privacy rights. Accordingly, for the reasons stated above, the Postal Service proposes a new system of records as follows:

SECURITIES AND EXCHANGE COMMISSION**Proposed Collection; Comment Request**

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Extension: Rule 17f-4, SEC File No. 270-232, OMB Control No. 3235-0225.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) (the "Paperwork Reduction Act"), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Section 17(f) (15 U.S.C. 80a-17(f)) under the Investment Company Act of 1940 (the "Act")¹ permits registered management investment companies and their custodians to deposit the securities they own in a system for the central handling of securities ("securities depositories"), subject to rules adopted by the Commission.

Rule 17f-4 (17 CFR 270.17f-4) under the Act specifies the conditions for the use of securities depositories by funds² and their custodians.

The Commission staff estimates that 142 respondents (including an estimated 80 active funds that may deal directly with a securities depository, an estimated 49 custodians, and 13 possible securities depositories)³ are subject to the requirements in rule 17f-4. The rule is elective, but most, if not all, funds use depository custody arrangements.⁴

¹ 15 U.S.C. 80a.

² As amended in 2003, rule 17f-4 permits any registered investment company, including a unit investment trust or a face-amount certificate company, to use a security depository. See *Custody of Investment Company Assets With a Securities Depository*, Investment Company Act Release No. 25934 (Feb. 13, 2003) (68 FR 8438 (Feb. 20, 2003)). The term "fund" is used in this Notice to mean a registered investment company.

³ The Commission staff estimates that, as permitted by the rule, an estimated 2% of all active funds may deal directly with a securities depository instead of using an intermediary. The number of custodians is estimated based on information from Morningstar DirectSM. The Commission staff estimates the number of possible securities depositories by adding the 12 Federal Reserve Banks and one active registered clearing agency. The Commission staff recognizes that not all of these entities may currently be acting as a securities depository for fund securities.

⁴ Based on responses to Item 18 of Form N-SAR (17 CFR 274.101), approximately 97 percent of
