DEPARTMENT OF THE INTERIOR**Office of Natural Resources Revenue**

[Docket No. ONRR–2011–0021; DS63644200 DRT000000.CH7000 190D1113RT; OMB Control Number 1012–0002]

Agency Information Collection Activities: Submission to the Office of Management and Budget for Review and Approval; Indian Oil & Gas Valuation

AGENCY: Office of the Secretary; Office of Natural Resources Revenue, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Office of Natural Resources Revenue (ONRR), is proposing to renew an information collection with revisions. ONRR seeks renewed authority to collect information from lessees using five forms necessary to determine the correct royalties to be collected on behalf of Indian Tribes and individual Indian mineral owners. Revisions from the prior approval to collect this information are necessary because the information collection requirements on form ONRR–4410 were reduced by a rule in 2015.

DATES: Interested persons are invited to submit written comments on or before January 16, 2019.

ADDRESSES: Send written comments on this information collection request (ICR)

to the Office of Management and Budget's Desk Officer for the Department of the Interior by email to *OIRA_Submission@omb.eop.gov*; or by facsimile to (202) 395–5806. Please provide a copy of your comments to Mr. Armand Southall, Regulatory Specialist, ONRR, P.O. Box 25165, MS 64400B, Denver, Colorado 80225–0165; or by email to *Armand.Southall@onrr.gov*. Please reference “OMB Control Number 1012–0002” in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Ms. Lee-Ann Martin, telephone at (303) 231–3313, or email to *LeeAnn.Martin@onrr.gov*. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We published a notice, with a 60-day public comment period soliciting comments for this collection of information, in the **Federal Register** on July 11, 2018 (83 FR 32141). During the 60-day period, we specifically reached out to five companies impacted by this ICR to request input. In response to the outreach, we received three responsive comments.

The first comment we received stated the following:

“We do not have an update to provide on the estimate burden. We can offer comment in regards to the industry submission process of the related forms referenced in the ICR (ONRR–4109, ONRR–4110, ONRR–4295, ONRR–4393, ONRR–4410 and ONRR–4411) with regard to the use of technology. Value can be added to both industry and ONRR by eliminating the paper submission form and having the company submit the form via the ONRR online system. When the request is submitted, ONRR staff should review and approve that will notate the date and name of approver. This submission should also be available to pull and view online through the dwportal.onrr.gov website History Database/Report tool. Currently, if a company wanted to verify the forms submitted to ONRR, they would have to

contact them directly and they would pull a report and send to the company.”

The second comment we received stated the following:

“I'm sorry I haven't gotten back to you on this. I read through the document and I didn't see any burden estimates that I thought were far enough off to make official comment on. The burden estimates for each case probably run high when things are running smoothly, and run low when a big problem presents itself. I'm sorry I can't be of more help.”

The third comment we received stated the following:

“We do not have comments to submit at this time.”

Once again, we are soliciting comments on this ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of ONRR; (2) will this information be processed and used in a timely manner; (3) is the estimate of the burden accurate; (4) how might ONRR enhance the quality, usefulness, and clarity of the information collected; and (5) how might ONRR minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including Personally Identifiable Information (PII), such as your address, phone number, email address, or other personal identifying information in your comment(s), you should be aware that your entire comment, including PII, may be made available to the public at any time. While you may ask us, in your comment, to withhold your PII from public view, we cannot guarantee that we will be able to do so.

Abstract: The Secretary of the United States Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). Under various laws, the Secretary's responsibility is to manage mineral resources production on Federal and Indian lands and the OCS, collect the royalties and other mineral revenues due, and distribute the funds collected. The Secretary also has trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. ONRR performs the minerals revenue management functions for the Secretary and assists the Secretary in carrying out the Department's trust responsibility for Indian lands. By collecting information from the records of the lessee or others
