Methodology and Preliminary Results

Commerce is conducting this review in accordance with section 751(a)(1)(C) of the Act, which specifies that Commerce shall “review the current status of, and compliance with, any agreement by reason of which an investigation was suspended.” In this case, Commerce and a representative of the Mexican sugar producers/exporters accounting for substantially all imports of sugar from Mexico signed the AD Agreement, which suspended the underlying antidumping duty investigation, on December 19, 2014. Further, on June 30, 2017, Commerce and a representative of the Mexican sugar producers/exporters accounting for substantially all imports of sugar from Mexico signed an amendment to the AD Agreement. Pursuant to the amended AD Agreement, the Mexican signatories agreed that the subject merchandise would be subject to minimum reference prices and that at least 85 percent of the dumping from the original investigation would be eliminated, as outlined in the amended AD Agreement.⁹ The Mexican signatories also agreed to other conditions, including the reporting of the polarity testing of Other Sugar¹⁰ and enhanced monitoring.¹¹

After reviewing the information received from the respondent companies in their questionnaire and supplemental questionnaire responses, we preliminarily determine that the respondents have adhered to the terms of the amended AD Agreement and that the amended AD Agreement is functioning as intended. Further, we preliminarily determine that the amended AD Agreement is meeting the statutory requirements under sections 734(c) and (d) of the Act. For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. Commerce notes that it is addressing one issue related to Grupo Zucarmex,

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Final Results of Changed Circumstances Reviews, and Revocation of the Antidumping and Countervailing Duty Orders, in Part

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is revoking, in part, the antidumping duty (AD) and countervailing duty (CVD) orders on crystalline silicon photovoltaic cells, whether or not assembled into modules, from the People's Republic of China (China) (*Orders*) with respect to certain off-grid solar panels based on a lack of interest in the relief provided by the *Orders* with respect to those products.

DATES: Applicable December 20, 2018.

FOR FURTHER INFORMATION CONTACT: Eli Lovely, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-1593.

SUPPLEMENTARY INFORMATION

Background

On December 7, 2012, Commerce published AD and CVD orders on certain crystalline silicon photovoltaic cells, whether or not assembled into modules, from China.¹ On April 17, 2018, Goal Zero, LLC (Goal Zero), an importer of the subject merchandise, requested changed circumstances reviews (CCRs) and revocation, in part, of the *Orders*, pursuant to section 751(b)(1) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.216(b), with respect to certain off-grid solar panels.²

On July 20, 2018, Commerce published the *Initiation Notice* for the requested CCRs in the **Federal**

Register.³ On August 20, 2018, Commerce published the preliminary results of these CCRs, in which it found that producers accounting for substantially all of the production of the domestic like product to which the *Orders* pertain lack interest in the relief afforded by the *Orders* with respect to certain off-grid solar panels.⁴

On September 4, 2018, Goal Zero and the petitioner⁵ requested that partial revocation of the *Orders* be applied retroactively starting January 1, 2015 for purposes of the CVD *Order*, and December 1, 2015 for purposes of the AD *Order*.⁶

Final Results of Changed Circumstances Reviews, and Revocation of the Orders, In Part

Because no party submitted comments opposing the preliminary results of these CCRs, and the record contains no other information or evidence that calls into question the preliminary results, Commerce determines, pursuant to sections 751(d)(1) and 782(h) of the Act, and 19 CFR 351.222(g), that there are changed circumstances that warrant revocation of the *Orders*, in part. Specifically, because the producers accounting for substantially all of the production of the domestic like product to which the *Orders* pertain lack interest in the relief provided by the *Orders* with respect to certain off-grid solar panels as described below, we are revoking the *Orders*, in part, with respect to the following:

(1) Off grid CSPV panels in rigid form with a glass cover, with the following characteristics:

(A) A total power output of 100 watts or less per panel;

(B) a maximum surface area of 8,000 cm² per panel;

(C) do not include a built-in inverter;
