

conservation measures described in the HCP.

Reduced Permit Duration: Under this alternative, the Service would issue an ITP for a term of 15 years (from the date of issuance) to LCRA TSC to authorize incidental take of covered species that could result from covered activities. This alternative would implement all minimization and mitigation measures identified for the proposed action, but the permit would be issued for a shorter duration. A reduced permit duration would also reduce the total amount of incidental take authorized for most species, while still providing a streamlined permit process to LCRA TSC during the ITP duration. Projects extending beyond the 15-year permit could require additional permitting.

EPA's Role in the EIS Process

In addition to this notice, EPA is publishing a notice in the **Federal Register** announcing dEIS and for LCRA's TSC HCP, as required under the Clean Air Act, section 309. The EPA is charged with reviewing all Federal agencies' EISs and commenting on the adequacy and acceptability of the environmental impacts of proposed actions in EISs.

The EPA also serves as the repository (EIS database) for EISs that Federal agencies prepare. All EISs must be filed with EPA, which publishes a notice of availability on Fridays in the **Federal Register**. For more information, see <https://www.epa.gov/nepa>. You may search for EPA comments on EISs, along with EISs themselves, at <https://cdxnodengn.epa.gov/cdx-enepa-public/action/eis/search>.

History and Description of the Cultural Item

Sometime in the early 20th century, this cultural item was removed from a grave in Wrangell, AK. It was acquired by Axel Rasmussen before his death in 1945. In 1948, it was acquired by the Portland Art Museum (PAM). In 1955–56, the PAM deaccessioned the object and sold it to the Birmingham Museum of Art. The unassociated funerary object is a *Woodzakaa* (Cane), museum accession number 1956.48.218.

Based on consultation with the Central Council of the Tlingit & Haida Indian Tribes, the Birmingham Museum of Art can reasonably show that this unassociated funerary object is culturally affiliated with the Tlingit and Haida Indian Tribes.

Determinations Made by the Birmingham Museum of Art

Officials of the Birmingham Museum of Art have determined that:

- Pursuant to 25 U.S.C. 3001(3)(B), the one cultural item described above is reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the unassociated funerary object and the Central Council of the Tlingit & Haida Indian Tribes.

After that date, if no additional claimants have come forward, transfer of control of the unassociated funerary object to the Central Council of the Tlingit & Haida Indian Tribes may proceed.

The Birmingham Museum of Art is responsible for notifying the Central Council of the Tlingit & Haida Indian Tribes that this notice has been published.

Dated: April 2, 2019.
