

Abstract: The Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669 *et seq.*) and the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777 *et seq.*, except 777e–1 and g–1) provide authority for Federal assistance to the States for management and restoration of fish and wildlife. These Acts and our regulations in the Code of Federal Regulations (CFR) at 50 CFR part 80, subpart D, require that States, territories, and the District of Columbia annually certify their hunting and fishing license sales. States, territories, and the District of Columbia that receive grants under these Acts use FWS Form 3–154, “State Fish and Wildlife Agency Hunting and Sport Fishing License Certification” to certify the number of hunting and fishing licenses sold. We use the information collected to apportion and distribute funds according to the formula specified in each Act. The Act is supported by regulations at 50 CFR 80.31 that require States to respond to the Service’s request for hunting and fishing license information by certifying the information in the format that the Director specifies and providing documentation to support the accuracy of this information. The Service requests the total number of unique hunting and fishing license holders as well as the number of resident and non-resident hunting and fishing licenses sold and associated costs. The methodology under the rule published at 76 FR 46150 (August 1, 2011) requires that States calculate net revenue to determine if an individual can be counted as a license holder.

With this renewal request, we are eliminating using two separate forms for this collection and combining all information to be collected into a single FWS Form 3–154. We made minor updates to Form 3–154 to improve functionality and reported data clarity. These changes do not increase the reporting burden and are expected to improve efficiency. The changes made in combining the forms and improving reporting by giving electronic alternatives will potentially, over time, reduce the public reporting burden for this collection.
