

than 190 days after the date on which Commerce initiated the investigation if: (A) The petitioner³ makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating, that the investigation is extraordinarily complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request. Commerce will grant the request unless it finds compelling reasons to deny the request.⁴

On December 12, 2018, the petitioner submitted a timely request that Commerce postpone the preliminary determination in this LTFV investigation.⁵ The petitioner stated that it requests postponement because Commerce was still gathering data and questionnaire responses from the foreign producers in this investigation, and additional time is necessary for interested parties to respond to additional requests from Commerce.

For the reasons stated above, and because there are no compelling reasons to deny the request, Commerce, in accordance with section 733(c)(1)(A) of the Act, is postponing the deadline for the preliminary determination by 50 days. As a result, Commerce will issue its preliminary determination no later than April 15, 2019. In accordance with section 735(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determination of this investigation will continue to be 75 days after the date of the preliminary determination, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: January 31, 2019.

Christian Marsh,

Deputy Assistant Secretary for Enforcement and Compliance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220.

FOR FURTHER INFORMATION CONTACT: Todd Phillips, Staff Officer; telephone: (503) 820-2426.

SUPPLEMENTARY INFORMATION: The primary purpose of the GMT webinar is

to prepare for the Pacific Council's March 2019 agenda items. The GMT's task is to develop recommendations for consideration by the Pacific Council at its March 2019 meeting. The GMT will discuss items related to groundfish management and administrative Pacific Council agenda items. A detailed agenda for the webinar will be available on the Pacific Council's website prior to the meeting. The GMT may also address other assignments relating to groundfish management. No management actions will be decided by the GMT.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the GMT's intent to take final action to address the emergency.

Special Accommodations

The public listening station is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt at (503) 820-2411 at least 10 days prior to the meeting date.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council (Pacific Council) will hold a methodology review meeting to evaluate and review fishery independent visual survey methodologies, using remotely operate vehicles (ROVs), for nearshore groundfish species off the states of Oregon and California. The meeting is open to the public.

DATES: The Pacific Council methodology review meeting will be held Tuesday, February 12 through Thursday, February 14, 2019. The meeting will begin each day at 8:30 a.m. Pacific Standard Time and will end at 5 p.m. or when business for the day has been completed. This meeting will also occur via a “listen only” webinar.

ADDRESSES: The Pacific Council methodology review meeting will be held at the NMFS Southwest Fisheries Science Center, Santa Cruz Laboratory, 110 McAllister Way, Santa Cruz, CA 95060; telephone: (831) 420–3900.

The Pacific Council methodology review meeting will also be held by webinar. To attend the “listen-only” webinar, visit this link: <https://www.gotomeeting.com/webinar>. Enter the Webinar ID: 951–132–995, and your email address (required).

This is a “listen only” broadcast, you may use your computer speakers or headset to listen. If you do not have a headset or computer speakers, you may use your telephone to listen to the meeting by dialing this TOLL number +1–213–929–4232 (not a toll-free

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220.

FOR FURTHER INFORMATION CONTACT: Mr. John DeVore, Staff Officer, Pacific Fishery Management Council; telephone: (503) 820–2413.

SUPPLEMENTARY INFORMATION: The purpose of the Pacific Council methodology review meeting is to evaluate and review fishery independent visual survey methodologies, using ROVs, for nearshore groundfish species off the states of Oregon and California. West coast nearshore groundfish stock assessments have identified the current lack of fishery-independent data sources as a research and data need. Both Oregon and California have conducted ROV surveys of rockfish in nearshore areas, focusing on rocky reef habitat, and, in California, on areas inside and outside of Marine Protected Areas.

The goals and objectives specific to the review of the new ROV survey methodologies are to: (1) Evaluate the sampling design used in recent (2010–17) ROV surveys conducted by the states of Oregon and California; (2) evaluate proposed methods to develop indices or estimates of abundance for these ROV surveys, including using habitat/substrate type and Marine Protected Area designation as covariates; (3) evaluate proposed methods to estimate size and age compositions of observed species; and (4) identify potential impediments to developing independent indices or estimates of abundance using these ROV surveys and incorporating them into stock assessments. This methodology review will likely provide the basis for future ROV surveys and the development of indices or estimates of abundance for those areas surveyed in Oregon and California, as well as the expansion of such methods to other areas within those states and/or within Washington State.

No management actions will be decided by the Pacific Council methodology review meeting participants. The Pacific Council methodology review meeting participants' role will be development of recommendations and reports for consideration by the Pacific Council's
