SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: MHS GENESIS Patient Registration Module & Patient Portal; OMB Control Number 0720–XXXX.

Needs and Uses: The information collection requirement is necessary to provide and document medical care; determine eligibility for benefits and entitlements; adjudicate claims; determine whether a third party is responsible for the cost of MHS provided healthcare and recover that cost; and evaluate fitness for duty and medical concerns which may have resulted from an occupational or environmental hazard. Obtaining this information is essential for the Department of Defense (DoD) to provide medical care and recover costs.

Affected Public: Individuals or households.

Annual Burden Hours: 334,872.8.

Number of Respondents: 2,870,338.

Responses per Respondent: 1.

Annual Responses: 2,870,338.

Average Burden per Response: 7 minutes.

Frequency: As required.

Information is collected from a variety of sources. The primary source of information collection is when a patient comes into an MTF, and medical are generated during that medical encounter. Under certain circumstances information may be collected from a family member (e.g., spouse, parent) or a co-worker/colleague (e.g., wounded or injured on job) via interview. MHS GENESIS may also collect information from other DoD information systems by importing data from legacy DoD Electronic Health Record (EHR) systems, such as AHLTA and CHCS, through system-to-system interfaces that allow medical documents generated in other systems to be stored in MHS GENESIS, or accessible through MHS GENESIS.

Information collection takes place in patient interviews by a healthcare professional (in-person or via telephone) who inputs the information into the MHS GENESIS system. The healthcare professional collects information such as patient medical history, prescription drug information, allergies, reason for visit, and medical vitals. A healthcare provider also collects information from an examination or procedure for input into the system. Lab test and radiology results are also collected for input. Via in-person interviews, administrative information such as information related

to billing, scheduling, and demographics is collected and input into the MHS GENESIS system.

Dated: May 17, 2019.

DEPARTMENT OF EDUCATION

Annual Updates to the Income Contingent Repayment (ICR) Plan Formula for 2019—William D. Ford Federal Direct Loan Program

AGENCY: Federal Student Aid, Department of Education.

ACTION: Notice.

SUMMARY: The Secretary announces the annual updates to the ICR plan formula for 2019 to give notice to borrowers and the public regarding how monthly ICR payment amounts will be calculated for the 2019–2020 year under the William D. Ford Federal Direct Loan (Direct Loan) Program, Catalog of Federal Domestic Assistance number 84.063.

DATES: The adjustments to the income percentage factors for the ICR plan formula contained in this notice are applicable from July 1, 2019, to June 30, 2020, for any borrower who enters the ICR plan or has his or her monthly payment amount recalculated under the ICR plan during that period.

FOR FURTHER INFORMATION CONTACT: Ian Foss, U.S. Department of Education, 830 First Street NE, Room 113H2, Washington, DC 20202. Telephone: (202) 377-3681. Email: ian.foss@ed.gov.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service, toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION: Under the Direct Loan Program, borrowers may choose to repay their non-defaulted loans (Direct Subsidized Loans, Direct Unsubsidized Loans, Direct PLUS Loans made to graduate or professional students, and Direct Consolidation Loans) under the ICR plan. The ICR plan bases the borrower's repayment amount on the borrower's income, family size, loan amount, and the interest rate applicable to each of the borrower's loans.

ICR is one of several income-driven repayment plans. Other income-driven repayment plans include the Income-Based Repayment (IBR) plan, the Pay As You Earn Repayment (PAYE) plan, and the Revised Pay As You Earn Repayment (REPAYE) plan. The IBR,

PAYE, and REPAYE plans provide lower payment amounts than the ICR plan for most borrowers.

A Direct Loan borrower who repays his or her loans under the ICR plan pays the lesser of: (1) The amount that he or she would pay over 12 years with fixed payments multiplied by an income percentage factor; or (2) 20 percent of discretionary income.

Each year, to reflect changes in inflation, we adjust the income percentage factor used to calculate a borrower's ICR payment, as required by 34 CFR 685.209(b)(1)(ii)(A). We use the adjusted income percentage factors to calculate a borrower's monthly ICR payment amount when the borrower initially applies for the ICR plan or when the borrower submits his or her annual income documentation, as required under the ICR plan. This notice contains the adjusted income percentage factors for 2019, examples of how the monthly payment amount in ICR is calculated, and charts showing sample repayment amounts based on the adjusted ICR plan formula. This information is included in the following three attachments:

- *Attachment 1—Income Percentage Factors for 2019*
- *Attachment 2—Examples of the Calculations of Monthly Repayment Amounts*
- *Attachment 3—Charts Showing Sample Repayment Amounts for Single and Married Borrowers*

In Attachment 1, to reflect changes in inflation, we updated the income percentage factors that were published in the **Federal Register** on August 2, 2018 (83 FR 37802). Specifically, we have revised the table of income percentage factors by changing the dollar amounts of the incomes shown by a percentage equal to the estimated percentage change between the not-seasonally-adjusted Consumer Price Index for all urban consumers for December 2018 and December 2019.

The income percentage factors reflected in Attachment 1 may cause a borrower's payments to be lower than they were in prior years, even if the borrower's income is the same as in the prior year. The revised repayment amount more accurately reflects the impact of inflation on the borrower's current ability to repay.
