SUPPLEMENTARY INFORMATION:

Background

On October 6, 2008, Commerce published the *Order* on hangers from China.¹ On February 5, 2019, Commerce published the notice of initiation of the second sunset review of the antidumping duty *Order* on hangers from China, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² On February 13, 2019, Commerce received a notice of intent to participate from M&B Metal Products Company, Inc. (the domestic interested party), within the deadline specified in 19 CFR 351.218(d)(1)(i).³ The domestic interested party claimed interested party status under section 771(9)(C) of the Act, as a manufacturer of a domestic like product in the United States.

On February 28, 2019, we received a complete substantive response from the domestic interested party within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁴ We received no substantive responses from respondent interested parties with respect to the *Order* covered by this sunset review, nor was a hearing requested. Commerce received no comments on the adequacy of the domestic interested party's substantive response in this sunset review. Pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce is conducting an expedited (120-day) sunset review of this order.

Scope of the Order

The merchandise subject to the *Order* is steel wire garment hangers. For a complete description of the scope of the *Order*, see the accompanying Issues and Decision Memorandum.⁵

Analysis of Comments Received

All issues raised in this review, including the likelihood of continuation or recurrence of dumping in the event

of revocation and the magnitude of the margins of dumping likely to prevail if the *Order* were revoked, are addressed in the accompanying Issues and Decision Memorandum. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and to all parties in the Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at <http://enforcement.trade.gov/frn/>. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Final Results of Sunset Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, we determine that revocation of the antidumping duty *Order* on hangers from China would be likely to lead to continuation or recurrence of dumping, and that the magnitude of the margins likely to prevail would be weighted-average dumping margins up to 187.25 percent.

Notifications to Interested Parties

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act and 19 CFR 351.218.

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments

SUMMARY: The Regional Administrator, West Coast Region, NMFS, has made a preliminary determination that an application for an Exempted Fishing Permit warrants further consideration. The application, submitted by the West Coast Pelagic Conservation Group (a non-profit industry group), requests an exemption from the expected prohibition of directed fishing for Pacific sardine for the 2019–2020 fishing year to collect Pacific sardine as part of an industry-based scientific survey. NMFS requests public comment on the application.

Lynn Massey, West Coast Region, NMFS, (562) 436–2462, lynn.massey@noaa.gov.

SUPPLEMENTARY INFORMATION: On May 28, 2019, NMFS published a proposed rule (84 FR 24459) to implement Pacific sardine harvest specifications for the 2019–2020 fishing year off the U.S. West Coast. This proposed rule included a 4,000 metric ton (mt) annual catch target (ACT) and a prohibition on directed commercial fishing for Pacific sardine off the coasts of Washington, Oregon, and California (except for small directed catch and catch of live bait). At the April 2019 Pacific Fishery Management Council (Council) meeting, the Council voted in support of the West Coast Pelagic Conservation Group's (WCPCG) EFP application and one other application that is being processed on a separate track. The WCPCG's application requests an exemption from the prohibition to directly harvest Pacific sardine. The proposed 2019–2020 Pacific sardine harvest specifications take into account the potential for up to 405 mt (the combined total of the two EFP proposals the Council reviewed) of the ACT to be harvested under EFPs.

The WCPCG EFP application requests a permit to directly harvest 10 mt of CPS, of which the applicant estimates no more than 5 mt will be Pacific sardine. The purpose of the EFP is to collect biological samples in areas inshore of the 2019 NMFS Southwest Fisheries Science Center acoustic trawl survey to better assess species composition and CPS distribution and abundance. An EFP is necessary to conduct this collection because the proposed 2019–2020 harvest specifications would prohibit most directed fishing for Pacific sardine. The collections under the EFP would take place between approximately June 25, 2019, and August 31, 2019. If NMFS
