SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

Freeport LNG's current blanket authorization to export previously imported LNG, granted in DOE/FE Order No. 4054, began on July 19, 2017, and extends through July 18, 2019. In requesting this authorization, Freeport LNG states that it does not seek to export any domestically produced natural gas or LNG. DOE/FE notes that Freeport LNG currently holds a blanket authorization to import LNG from various international sources by vessel in an amount up to the equivalent of 30 Bcf of natural gas. Freeport LNG is requesting this authorization on its own behalf and as agent for other parties who hold title to the LNG at the time of export.

The Application will be reviewed pursuant to section 3 of the NGA, 15 U.S.C. 717b. In reviewing this Application, DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose this application should comment in their responses on these issues.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.
