### Notice of Emergency Approval of an Information Collection: Housing Counseling Training Grant Program

**AGENCY:** Office of the Chief Information  
Officer, HUD.

**ACTION:** Notice.

**SUMMARY:** In accordance with the  
Paperwork Reduction Act of 1995, HUD  
has requested from the Office of  
Management and Budget (OMB)  
emergency approval of the information  
collection described in this notice.

**DATES:** *Comments Due Date:* August 5,  
2019.

**ADDRESSES:** Interested persons are  
invited to submit comments regarding  
this proposal. Comments should refer to  
the proposal by name and/or OMB  
Control Number and should be sent to:  
HUD Desk Officer, Office of  
Management and Budget, New  
Executive Office Building, Washington,  
DC 20503; fax: 202-395-5806. Email:  
[OIRA\\_Submission@omb.eop.gov](mailto:OIRA_Submission@omb.eop.gov).

**FOR FURTHER INFORMATION CONTACT:**

This is not a toll-free number. Copies of  
available documents submitted to OMB  
may be obtained from Ms. Pollard.

**SUPPLEMENTARY INFORMATION:** This  
notice informs the public that HUD has  
submitted to OMB a request for  
approval of the information collection  
described in Section A.

#### A. Overview of Information Collection

*Title of Information Collection:*  
Housing Counseling Training Grant  
Program.

*OMB Approval Number:* 2502-0567.

*Type of Request:* Emergency.

*Form Number:* SF-424, Application  
for Federal Assistance; HUD-92910,  
Housing Counseling Training Charts;  
HUD-2880, Applicant/Recipient  
Disclosure/Update Report.

*Description of the need for the  
information and proposed use:* Eligible  
organizations submit information to  
HUD through *Grants.gov* when applying  
for grant funds to provide housing  
counseling training to housing  
counselors. HUD uses the information  
collected to evaluate applicants  
competitively and then select qualified  
organizations to receive funding that  
supplement their housing counseling  
training program. Post-award collection,  
such as quarterly reports, will allow  
HUD to evaluate grantees' performance.

*Respondents:* Not-for-profit  
institutions.

*Estimated Number of Respondents:*  
24.

*Estimated Number of Responses:* 40.

*Frequency of Response:* One-time  
application and quarterly reports.

*Average Hours per Response:* 34.50.

*Total Estimated Burdens:* 1,380.

#### B. Solicitation of Public Comment

This notice is soliciting comments  
from members of the public and affected  
parties concerning the collection of  
information described in Section A on  
the following:

(1) Whether the proposed collection  
of information is necessary for the  
proper performance of the functions of  
the agency, including whether the  
information will have practical utility;

(2) The accuracy of the agency's  
estimate of the burden of the proposed  
collection of information;

(3) Ways to enhance the quality,  
utility, and clarity of the information to  
be collected; and

(4) Ways to minimize the burden of  
the collection of information on those  
who are to respond; including through  
the use of appropriate automated  
collection techniques or other forms of  
information technology, *e.g.*, permitting  
electronic submission of responses.

HUD encourages interested parties to  
submit comment in response to these  
questions.

#### Habitat Conservation Plan for the Coastal California Gnatcatcher; Categorical Exclusion for 93-129 Ltd, Orange County, California

**AGENCY:** Fish and Wildlife Service,  
Interior.

**ACTION:** Notice of availability; request  
for comments.

**SUMMARY:** We, the U.S. Fish and  
Wildlife Service, have received an  
application from 93-129 Ltd for a 10-  
year incidental take permit for the  
coastal California gnatcatcher pursuant  
to the Endangered Species Act. We are  
requesting comments on the permit  
application and on our preliminary  
determination that the applicant's  
accompanying proposed habitat  
conservation plan qualifies as low  
effect, eligible for a categorical  
exclusion under the National  
Environmental Policy Act. The basis for  
this determination is discussed in our  
environmental action statement and  
associated low-effect screening form,  
which are also available for public  
review.

**DATES:** Written comments should be  
received on or before July 19, 2019.

**ADDRESSES:** *Submitting Comments:* You  
may submit comments by one of the  
following methods. Please include "93-  
129 Ltd" at the beginning of your  
comments.

- **U.S. Mail:** Carlsbad Fish and Wildlife Office (address above).

- **In-Person:** You may examine the documents by appointment during regular business hours at the Carlsbad Fish and Wildlife Office (address above). Please call to make an appointment (see **FOR FURTHER INFORMATION CONTACT**).

**FOR FURTHER INFORMATION CONTACT:** Ms. Karen Goebel, Assistant Field Supervisor, Carlsbad Fish and Wildlife Office, 760-431-9440. If you use a telecommunications device for the deaf (TDD), please call the Federal Relay Service (FRS) at 800-877-8339.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service (Service), have received an application from 93-129 Ltd (applicant) for a 10-year incidental take permit for one covered species pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The application addresses the anticipated “take” of the threatened coastal California gnatcatcher (*Poliophtila californica californica*; gnatcatcher). The applicant proposes to grade, subdivide, and construct infrastructure for four estate custom home parcels on the approximately 50-acre parcel (Tentative Parcel Map 93-129) in Laguna Niguel, California. The proposed project will impact an estimated 4.3 acres of coastal sage scrub and up to two pairs of gnatcatchers. A conservation program to avoid, minimize, and mitigate for project activities would be implemented as described in the applicant’s proposed habitat conservation plan (HCP). On June 25, 2007, the Service issued a 10-year incidental take permit for the subject project. Implementation of the project was delayed and the permit expired on June 25, 2017.

We are requesting comments on the permit application and on our preliminary determination that the proposed HCP qualifies as a low-effect HCP, eligible for a categorical exclusion under the National Environmental Policy Act of 1969, as amended (NEPA; 42 U.S.C. 4321 *et seq.*). The basis for this determination is discussed in our environmental action statement and associated low-effect screening form,

which are also available for public review.

### Background

Section 9 of the ESA and its implementing Federal regulations prohibit the take of animal species listed as endangered or threatened. “Take” is defined under the ESA as to “harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect [listed animal species], or to attempt to engage in such conduct” (16 U.S.C. 1538). “Harm” includes significant habitat modification or degradation that actually kills or injures listed wildlife by significantly impairing essential behavioral patterns, such as breeding, feeding, or sheltering (50 CFR 17.3). However, under section 10(a) of the ESA, the Service may issue permits to authorize incidental take of listed species. “Incidental taking” is defined by the ESA implementing regulations as taking that is incidental to, and not the purpose of, carrying out an otherwise lawful activity (50 CFR 17.3). Regulations governing incidental take permits for endangered and threatened species, respectively, are found in the Code of Federal Regulations at 50 CFR 17.22 and 50 CFR 17.32.

### Applicant’s Proposed Project

The project is located on a 50-acre property in the City of Laguna Niguel in Orange County, California (Tentative Parcel Map 93-129). The applicant requests a 10-year permit under section 10(a)(1)(B) of the ESA. If we approve the permit, the applicant anticipates taking gnatcatcher as a result of permanent impacts to 4.3 acres of coastal sage scrub that the species uses for breeding, feeding, and sheltering. The take would be incidental to the applicant’s activities associated with the grading, subdivision, and construction of four estate custom home parcels.

The applicant proposes to mitigate permanent impacts to 4.3 acres of occupied gnatcatcher habitat through the creation and restoration of 10.61 acres of coastal sage scrub and conservation of 12.8 acres of coastal sage scrub (including the created and restored habitat). The conserved habitat will be managed in perpetuity.

The applicant’s proposed HCP also contains measures to minimize the effects of construction activities on the gnatcatcher, including the following: Oversight of project activities by a biological monitor; fencing the project limits; implementing an erosion control plan to avoid and minimize degradation of adjacent native habitat; removing invasive plant species from the property; minimizing the spillage of

project lighting into the conserved area; providing educational brochures to residents on the responsibilities associated with living near a conserved area; removing previously used dirt access roads to reduce illegal trespassing into natural areas; and monitoring and reporting to the Service upon project completion.

### Proposed Action and Alternatives

The Proposed Action consists of the issuance of an incidental take permit and implementation of the proposed HCP, which includes measures to avoid, minimize, and mitigate impacts to the gnatcatcher. If we approve the permit, take of gnatcatcher would be authorized for the applicant’s activities associated with the implementation of the 93-129 project. In the proposed HCP, the applicant considers two alternatives. Under the No Action Alternative, no permit would be issued and incidental take of the gnatcatcher resulting from habitat loss would occur, and no long-term protection and management would be afforded to the species. The No Action Alternative would not meet the primary goal of the proposed Project, which is to construct residential homes. Under the Parcel by Parcel Alternative, each individual parcel owner would conduct grading and slope stabilization activities. This alternative would necessitate the construction of an additional road immediately adjacent to the coastal sage scrub habitat conservation area on the north side of the property’s ridgeline and would significantly increase the impacts to coastal sage scrub habitat.

### Our Preliminary Determination

The Service has made a preliminary determination that approval of the HCP and issuance of an incidental take permit qualify for categorical exclusion under NEPA (42 U.S.C. 4321 *et seq.*), as provided by the Department of the Interior implementing regulations in part 46 of title 43 of the Code of Federal Regulations (43 CFR 46.205, 46.210, and 46.215), and that the HCP qualifies as a low-effect plan as defined by the Habitat Conservation Planning Handbook (December 2016).

We base our determination that a HCP qualifies as a low-effect plan on the following three criteria:

- (1) Implementation of the HCP would result in minor or negligible effects on federally listed, proposed, and candidate species and their habitats;
- (2) Implementation of the HCP would result in minor or negligible effects on other environmental values or resources; and

(3) Impacts of the HCP, considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result, over time, in cumulative effects to environmental values or resources that would be considered significant.

Based upon this preliminary determination, we do not intend to prepare further NEPA documentation. We will consider public comments in making the final determination on whether to prepare such additional documentation.

#### Next Steps

We will evaluate the proposed HCP and comments we receive to determine whether the permit application meets the requirements and issuance criteria under section 10(a) of the ESA (16 U.S.C. 1531 *et seq.*). We will also evaluate whether issuance of a section 10(a)(1)(B) incidental take permit would comply with section 7 of the ESA by conducting an intra-Service consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue a permit. If the requirements and issuance criteria under section 10(a) are met, we will issue the permit to the applicant for incidental take of the gnatcatcher.

#### Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

#### Authority

We provide this notice under section 10 of the ESA (16 U.S.C. 1531 *et seq.*) and NEPA regulations (40 CFR 1506.6).
