Title: Department of Veterans Affairs Acquisition Regulation (VAAR) Clause 852.211–72, Technical Industry Standards.

OMB Control Number: 2900–0586.

Type of Review: Renewal with changes of a currently approved collection.

Abstract: This Paperwork Reduction Act (PRA) submission seeks renewal with changes of Office of Management and Budget (OMB) approval No. 2900–0586 as follows: Due to the decreased number of respondents, the total annual burden hours decreased by 666, from 1,225 to 559. However, the average burden time per response has not changed.

VAAR clause 852.211–72, Technical Industry Standards, requires that items offered for sale to VA under the solicitation conform to certain technical industry standards, such as Underwriters Laboratory (UL) or the

USDA Institutional Meat Purchase Specification (IMPS) and that the contractor furnish evidence to VA that the items meet that requirement. The evidence is normally in the form of a tag or seal affixed to the item, such as the UL tag on an electrical cord or a label on beef product. In most cases, this requires no additional effort on the part of the contractor, as the items come from the factory with the tags already in place, as part of the manufacturer’s standard manufacturing operation. Occasionally, for items not already meeting standards or for items not previously tested, a contractor will have to furnish a certificate from an acceptable laboratory certifying that the items furnished have been tested in accordance with, and conform to, the specified standards. Only firms whose products have not previously been tested to ensure the products meet the industry standards required under the solicitation and contract will be required to submit a separate certificate. The information will be used to ensure that the items being purchased meet minimum safety standards and to protect VA employees, VA beneficiaries, and the public.

Affected Public: Business or other for-profit and not-for-profit institutions.

Estimated Annual Burden: 559 Burden Hours.

Estimated Average Burden per Respondent: 30 Minutes.

Frequency of Response: One per awarded contract.

Estimated Number of Respondents: 1,118.

By direction of the Secretary.

Danny S. Green,

Interim VA Clearance Officer, Office of Quality, Performance and Risk, Department of Veterans Affairs.
