**SUPPLEMENTARY INFORMATION:** This ICR seeks approval under the PRA for revisions to the Prohibited Transaction Class Exemption 75-1, Security Transactions with Broker-Dealers, Reporting Dealers, and Banks. PTE 1975-1 provides exemptions for transactions between employee benefit plans and individual retirement accounts (IRAs) and broker-dealers, reporting dealers and banks, relating to securities purchases and sales, provided specified conditions are met. The exempted transactions include an employee benefit plan or IRA's purchase of securities from broker-dealers' inventories of stocks, from underwriting syndicates in which a fiduciary is a member, from banks, from reporting dealers, and from a market-maker that is

a fiduciary. The exempted transactions also include, under certain conditions, a plan's or IRA's accepting an extension of credit from a broker-dealer for the purpose of facilitating settlement of a securities transaction. Among other conditions, PTE 1975-1 requires plans and IRAs involved in the transactions to maintain adequate records of the transactions for a period of six years. This information collection is a revision because the Department is renewing the information collections contained in PTE 75-1 that had been in place prior to 2016. Section 408 of the Employee Retirement Income Security Act of 1974 ("ERISA") authorizes this information collection. See 29 U.S.C. 1108.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB, under the PRA, approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210-0092. The current approval is scheduled to expire on June 30, 2019; however, the DOL notes that existing information collection requirements submitted to the OMB will receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 5, 2019 (84 FR 13719).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty-(30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1210-0092.

The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,
