Abstract: The Federal Historic
Preservation Tax Incentives Program
encourages private-sector investment in
the rehabilitation and re-use of historic
buildings. Through this program,
underutilized or vacant buildings

throughout the country of every period,
size, style, and type have been
rehabilitated and reused in a manner
that maintains their historic character.
To be eligible for tax incentives for
historic buildings, a building must be
listed individually on the National
Register of Historic Places (NRHP); or
located in a registered historic district
and certified by the NPS as contributing
to the historic significance of that
district. A registered historic district is
any district listed on the NRHP; or a
state or local district if the district and
the enabling statute have also been
certified by the NPS. The NRHP is the
official list of the Nation's historic
places worthy of preservation.

Section 47 of the Internal Revenue
Code requires that the Secretary of the
Interior certify to the Secretary of the
Treasury upon application by owners of
historic properties for Federal tax
benefits: (a) The historic significance of
the property, and (b) that the
rehabilitation work is consistent with its
historic character. The NPS administers
the program with the Internal Revenue
Service in partnership with the State
Historic Preservation Offices (SHPOs).
The NPS uses the information collected
in the Historic Preservation Certification
Application (Forms 10-168, 10-168a,
10-168b, and 10-168c) to evaluate the
condition and historic significance of
buildings undergoing rehabilitation, and
to evaluate whether or not the
rehabilitation work meets the Secretary
of the Interior's Standards for
Rehabilitation.

Regulations codified in 36 CFR part
67 contain a requirement for completion
of an application form. The NPS needs
the information required on the
application form to allow the authorized
officer to determine if the project is
qualified to obtain historic preservation
certifications from the Secretary of the
Interior. These certifications are
necessary for an applicant to receive
substantial federal tax incentives
authorized by Section 47 of the Internal
Revenue Code. These incentives include
a 20% federal income tax credit for the
rehabilitation of income-producing
historic buildings and an income tax
deduction for the charitable donation of
easements on historic properties. The
Internal Revenue Code also provides a
10% federal income tax credit for the
rehabilitation of nonhistoric,
nonresidential buildings built before
1936. An owner of a nonhistoric
building in a historic district must also
use the application to obtain a
certification from the Secretary of the
Interior that his or her building does not
contribute to the significance of the
historic district before claiming this
