

docket number, FMCSA–2014–0381; FMCSA–2014–0382 or FMCSA–2015–0115, in the keyword box, and click “Search.” Next, click the “Open Docket Folder” button and choose the document to review. If you do not have access to the internet, you may view the docket online by visiting the Docket Management Facility in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays.

C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for up to five years if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the five-year period. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver’s medical certification.

The physical qualification standard for drivers regarding epilepsy found in 49 CFR 391.41(b)(8) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any loss of ability to control a CMV.

In addition to the regulations, FMCSA has published advisory criteria to assist Medical Examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce. [49 CFR part 391, APPENDIX A TO PART 391—MEDICAL ADVISORY CRITERIA, section H. Epilepsy: § 391.41(b)(8), paragraphs 3, 4, and 5.]

The three individuals listed in this notice have requested renewal of their exemptions from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8), in accordance with FMCSA procedures. Accordingly, FMCSA has evaluated these applications for renewal on their merits

and decided to extend each exemption for a renewable two-year period.

III. Request for Comments

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

IV. Basis for Renewing Exemptions

In accordance with 49 U.S.C. 31136(e) and 31315, each of the three applicants has satisfied the renewal conditions for obtaining an exemption from the epilepsy and seizure disorders prohibition. The three drivers in this notice remain in good standing with the Agency, have maintained their medical monitoring and have not exhibited any medical issues that would compromise their ability to safely operate a CMV during the previous two-year exemption period. In addition, for Commercial Driver’s License (CDL) holders, the Commercial Driver’s License Information System (CDLIS) and the Motor Carrier Management Information System (MCMIS) are searched for crash and violation data. For non-CDL holders, the Agency reviews the driving records from the State Driver’s Licensing Agency (SDLA). These factors provide an adequate basis for predicting each driver’s ability to continue to safely operate a CMV in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

As of June 10, 2019, and in accordance with 49 U.S.C. 31136(e) and 31315, the following three individuals have satisfied the renewal conditions for obtaining an exemption from the epilepsy and seizure disorders prohibition in the FMCSRs for interstate CMV drivers: Monte J. DeRocini (PA); Teddy H. Dixon (GA); and Bryan R. Jones (PA).

The drivers were included in docket number FMCSA–2014–0381; FMCSA–2014–0382; and FMCSA–2015–0115. Their exemptions are applicable as of June 10, 2019, and will expire on June 10, 2021.

V. Conditions and Requirements

The exemptions are extended subject to the following conditions: (1) Each driver must remain seizure-free and maintain a stable treatment during the two-year exemption period; (2) each driver must submit annual reports from their treating physicians attesting to the stability of treatment and that the driver has remained seizure-free; (3) each driver must undergo an annual medical examination by a certified Medical Examiner, as defined by 49 CFR 390.5; and (4) each driver must provide a copy of the annual medical certification to the employer for retention in the driver’s qualification file, or keep a copy of his/her driver’s qualification file if he/she is self-employed. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

VI. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

VII. Conclusion

Based on its evaluation of the three exemption applications, FMCSA renews the exemptions of the aforementioned drivers from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8). In accordance with 49 U.S.C. 31136(e) and 31315, each exemption will be valid for two years unless revoked earlier by FMCSA.

Larry W. Minor,

Associate Administrator for Policy.

BILLING CODE 4910–EX–P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2019–0011]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemption; request for comments.

SUMMARY: FMCSA announces receipt of applications from 13 individuals for an exemption from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) to operate a commercial motor vehicle (CMV) in interstate commerce. If granted, the exemptions will enable these individuals to operate CMVs in interstate commerce without meeting the vision requirement in one eye.

DATES: Comments must be received on or before August 14, 2019.

ADDRESSES: You may submit comments identified by the Federal Docket Management System (FDMS) Docket No. FMCSA–2019–0011 using any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12–140, Washington, DC 20590–0001.

- *Hand Delivery:* West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal Holidays.

- *Fax:* 1–202–493–2251.

To avoid duplication, please use only one of these four methods. See the “Public Participation” portion of the **SUPPLEMENTARY INFORMATION** section for instructions on submitting comments.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366–4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64–224, Washington, DC 20590–0001. Office hours are 8:30 a.m. to 5 p.m., ET, Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Docket Services, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION:

I. Public Participation

A. Submitting Comments

If you submit a comment, please include the docket number for this notice (Docket No. FMCSA–2019–0011), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand

delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov>, put the docket number, FMCSA–2019–0011, in the keyword box, and click “Search.” When the new screen appears, click on the “Comment Now!” button and type your comment into the text box on the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit.

If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope.

FMCSA will consider all comments and material received during the comment period.

B. Viewing Documents and Comments

To view comments, as well as any documents mentioned in this notice as being available in the docket, go to <http://www.regulations.gov>. Insert the docket number, FMCSA–2019–0011, in the keyword box, and click “Search.” Next, click the “Open Docket Folder” button and choose the document to review. If you do not have access to the internet, you may view the docket online by visiting the Docket Management Facility in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays.

C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the FMCSRs for a five-year period if it finds such exemption would likely achieve a level of safety that is

equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the five-year period. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver’s medical certification.

The 13 individuals listed in this notice have requested an exemption from the vision requirement in 49 CFR 391.41(b)(10). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting an exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers regarding vision found in 49 CFR 391.41(b)(10) states that a person is physically qualified to drive a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal Meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing standard red, green, and amber.

In July 1992, the Agency first published the criteria for the Vision Waiver Program, which listed the conditions and reporting standards that CMV drivers approved for participation would need to meet (Qualification of Drivers; Vision Waivers, 57 FR 31458, July 16, 1992). The current Vision Exemption Program was established in 1998, following the enactment of amendments to the statutes governing exemptions made by § 4007 of the Transportation Equity Act for the 21st Century (TEA–21), Public Law 105–178, 112 Stat. 107, 401 (June 9, 1998). Vision exemptions are considered under the procedures established in 49 CFR part 381 subpart C, on a case-by-case basis upon application by CMV drivers who do not meet the vision standards of 49 CFR 391.41(b)(10).

To qualify for an exemption from the vision requirement, FMCSA requires a person to present verifiable evidence that he/she has driven a commercial vehicle safely with the vision deficiency for the past three years. Recent driving performance is especially important in evaluating future safety, according to several research studies designed to correlate past and future driving performance. Results of these studies support the principle that the best predictor of future performance by a driver is his/her past record of crashes

and traffic violations. Copies of the studies may be found at Docket Number FMCSA–1998–3637.

FMCSA believes it can properly apply the principle to monocular drivers, because data from the Federal Highway Administration's (FHWA) former waiver study program clearly demonstrated the driving performance of experienced monocular drivers in the program is better than that of all CMV drivers collectively (See 61 FR 13338, 13345, March 26, 1996). The fact that experienced monocular drivers demonstrated safe driving records in the waiver program supports a conclusion that other monocular drivers, meeting the same qualifying conditions as those required by the waiver program, are also likely to have adapted to their vision deficiency and will continue to operate safely.

The first major research correlating past and future performance was done in England by Greenwood and Yule in 1920. Subsequent studies, building on that model, concluded that crash rates for the same individual exposed to certain risks for two different time periods vary only slightly (See Bates and Neyman, University of California Publications in Statistics, April 1952). Other studies demonstrated theories of predicting crash proneness from crash history coupled with other factors. These factors—such as age, sex, geographic location, mileage driven and conviction history—are used every day by insurance companies and motor vehicle bureaus to predict the probability of an individual experiencing future crashes (See Weber, Donald C., “Accident Rate Potential: An Application of Multiple Regression Analysis of a Poisson Process,” Journal of American Statistical Association, June 1971). A 1964 California Driver Record Study prepared by the California Department of Motor Vehicles concluded that the best overall crash predictor for both concurrent and nonconcurrent events is the number of single convictions. This study used three consecutive years of data, comparing the experiences of drivers in the first two years with their experiences in the final year.

III. Qualifications of Applicants

Shawn T. Cobbs

Mr. Cobbs, 47, has had complete loss of vision in his left eye since 2014. The visual acuity in his right eye is 20/20, and in his left eye, no light perception. Following an examination in 2019, his optometrist stated, “In my medical opinion, I certify that Mr. Cobbs has sufficient vision in his right eye to

perform the driving tasks required to operate a commercial vehicle.” Mr. Cobbs reported that he has driven tractor-trailer combinations for 18 years, accumulating 1.62 million miles. He holds an operator's license from Maryland. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

John H.L. Crews

Mr. Crews, 66, has had amblyopia in his right eye since childhood. The visual acuity in his right eye is 20/100, and in his left eye, 20/30. Following an examination in 2019, his optometrist stated, “In my opinion he does have sufficient vision to perform driving tasks to operate a commercial vehicle.” Mr. Crews reported that he has driven straight trucks for 35 years, accumulating 1.87 million miles. He holds an operator's license from Utah. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Paul T. Fisher

Mr. Fisher, 35, has had a prosthetic left eye since childhood. The visual acuity in his right eye is 20/20, and in his left eye, no light perception. Following an examination in 2018, his optometrist stated, “In my medical opinion Paul Fisher has sufficient vision to preform [sic] the driving tasks required to operate a commercial vehicle.” Mr. Fisher reported that he has driven tractor-trailer combinations for three years, accumulating 225,000 miles. He holds a Class A CDL from Massachusetts. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Kevin S. Haas

Mr. Haas, 48, has optic nerve pallor in his right eye due to a traumatic incident in 1993. The visual acuity in his right eye is no light perception, and in his left eye, 20/20. Following an examination in 2019, his optometrist stated, “In my professional opinion, Mr. Haas has sufficient vision to perform the driving tasks necessary to operate a commercial vehicle.” Mr. Haas reported that he has driven straight trucks for 22 years, accumulating 1.65 million miles. He holds a Class B CDL from Pennsylvania. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Ricky L. Kilpatrick

Mr. Kilpatrick, 60, has complete loss of vision in his left eye due to a traumatic incident in 2009. The visual acuity in his right eye is 20/20, and in his left eye, no light perception. Following an examination in 2019, his optometrist stated, “Ricky Kilpatrick has sufficient vision to perform the driving tasks required to operate a commercial vehicle.” Mr. Kilpatrick reported that he has driven straight trucks for 34 years, accumulating 340,000 miles, tractor-trailer combinations for 38 years, accumulating 152,000 miles, and buses for 32 years, accumulating 352,000 miles. He holds a Class A CDL from Oklahoma. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Rodney E. Mattson

Mr. Mattson, 65, has had amblyopia in his right eye since childhood. The visual acuity in his right eye is 20/70, and in his left eye, 20/20. Following an examination in 2019, his optometrist stated, “Reviewed patient has sufficiency [sic] vision to perform driving tasks- commercial vehicle.” Mr. Mattson reported that he has driven straight trucks for four years, accumulating 8,000 miles, and buses for four years, accumulating 8,000 miles. He holds a Class B CDL from Minnesota. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Jeffrey T. Molosz

Mr. Molosz, 54, has aphakia in his right eye due to a traumatic incident in 1980. The visual acuity in his right eye is 20/50, and in his left eye, 20/20. Following an examination in 2019, his optometrist stated, “Appears to have sufficient vision to perform driving tasks required to operate a commercial vehicle.” Mr. Molosz reported that he has driven straight trucks for 32 years, accumulating 640,000 miles, and tractor-trailer combinations for 18 years, accumulating 180,000 miles. He holds a Class AM CDL from Illinois. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

William H. Moore

Mr. Moore, 54, has had a retinal detachment in his right eye since 2016. The visual acuity in his right eye is counting fingers, and in his left eye, 20/20. Following an examination in 2018, his optometrist stated, “In my medical opinion Mr. Moore has sufficient vision to perform the driving task required to

operate a commercial vehicle.” Mr. Moore reported that he has driven straight trucks for 10 years, accumulating 200,000 miles, tractor-trailer combinations for 10 years, accumulating 300,000 miles, and buses for five years, accumulating 50,000 miles. He holds a Class AMV CDL from Alabama. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Thomas N. Pizzurro, Jr.

Mr. Pizzurro, 28, has a macular hole in his left eye due to a traumatic incident in 2004. The visual acuity in his right eye is 20/20, and in his left eye, 20/200. Following an examination in 2019, his ophthalmologist stated, “In my medical opinion he has sufficient vision to perform the driving tasks required to operate a commercial vehicle.” Mr. Pizzurro reported that he has driven straight trucks for 10 years, accumulating 250,000 miles. He holds a Class B CDL from New York. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Glen A. Potts

Mr. Potts, 65, has a macular scar in his right eye due to a traumatic incident in 1989. The visual acuity in his right eye is counting fingers, and in his left eye, 20/25. Following an examination in 2019, his optometrist stated, “The patient has an old macular scar and a central scotoma present in the right eye. In my professional opinion I see no reason why Glen Potts would be unable to operate a commercial vehicle.” Mr. Potts reported that he has driven straight trucks for 30 years, accumulating 1.35 million miles, and tractor-trailer combinations for 30 years, accumulating 1.35 million miles. He holds a Class AM CDL from Pennsylvania. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Guillermo Rocha, Jr.

Mr. Rocha, 32, has had amblyopia in his left eye since childhood. The visual acuity in his right eye is 20/20, and in his left eye, 20/150. Following an examination in 2019, his optometrist stated, “Mr. Rocha has been operating a commercial vehicle for many years without any incidences [sic] to my knowledge and has sufficient vision to perform the driving tasks required to operate a commercial vehicle.” Mr. Rocha reported that he has driven straight trucks for five years, accumulating 60,000 miles. He holds an

operator’s license from California. His driving record for the last three years shows one crash, which he was not cited for, and no convictions for moving violations in a CMV.

Lawrence A. Sivori

Mr. Sivori, 63, has had amblyopia in his left eye since childhood. The visual acuity in his right eye is 20/20, and in his left eye, 20/50. Following an examination in 2019, his ophthalmologist stated, “His ocular examination shows nothing that would preclude him from operating a commercial vehicle.” Mr. Sivori reported that he has driven straight trucks for 42 years, accumulating 420,000 miles, and tractor-trailer combinations for ten years, accumulating 100,000 miles. He holds a Class DA CDL from Kentucky. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Sharon H. Waggoner

Ms. Waggoner, 43, has had amblyopia in her left eye since birth. The visual acuity in her right eye is 20/20, and in her left eye, 20/400. Following an examination in 2019, her optometrist stated, “I certify in my medical opinion that Sharon Waggoner has sufficient vision to perform the driving tasks required to operate a commercial vehicle.” Ms. Waggoner reported that she has driven tractor-trailer combinations for 19 years, accumulating 1.9 million miles. She holds a Class A CDL from Missouri. Her driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

IV. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments and material received before the close of business on the closing date indicated in the dates section of the notice.

Issued on: July 5, 2019.

Qualification of Drivers; Exemption Applications; Epilepsy and Seizure Disorders

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to renew exemptions for eight individuals from the requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) that interstate commercial motor vehicle (CMV) drivers have “no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a CMV.” The exemptions enable these individuals who have had one or more seizures and are taking anti-seizure medication to continue to operate CMVs in interstate commerce.

DATES: Each group of renewed exemptions were applicable on the dates stated in the discussions below and will expire on the dates stated in the discussions below.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001. Office hours are from 8:30 a.m. to 5 p.m., ET, Monday through Friday, except Federal holidays.
