

**IV. Request for Interim Waiver**

Anker requests an interim waiver for its testing and rating of the models in Appendix I. The petition for waiver is likely to be granted, as evidenced by its merits. Without waiver relief, Anker would be subject to requirements that clearly should not apply to such products. And without such relief, Sales [sic] of EPS will be inhibited, to the detriment of Anker and to users and distributors of adaptive EPS and the products that use EPS.

**Conclusion**

DOE should grant Anker the requested waiver and interim waiver for the models listed in Appendix I hereto. Respectfully submitted,  
Compliance Engineer: Eric Pan  
/s/

**Appendix I**

The waiver and interim waiver requested herein should apply to testing and rating of the following basic models: A2041 provided by Anker Innovations Limited.

**Appendix II**

The following are manufacturers of all other basic models distributed in commerce in the United States and known to Anker to incorporate design characteristics similar to those found in the basic models that are the subject of the petition for waiver:
