

—Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* New Information Collection Instrument.

(2) *Title of the Form/Collection:* Developing and Validating Self-Guided Wellness and Stress Management Tools for Law Enforcement Agencies.

(3) *The agency form number 1103–****.* U.S. Department of Justice Office of Community Oriented Policing Services.

(4) *Affected public who will be asked or required to respond as well as a brief abstract:*

Primary: Law Enforcement Agencies and community partners.

Abstract: The study proposes an innovative and methodologically sophisticated research design to address the critical issue of law enforcement officer health and wellness.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* The estimate of the data collection tasks for respondents assigned to four groups for a total of 1,550 respondents and anticipated at 45 minutes per respondent.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated time burden is 893 hours.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, Room 3E, Room 405A, Washington, DC 20530.

Dated: July 22, 2019.

Melody Braswell,

Department Clearance Officer, PRA, U.S. Department of Justice.

BILLING CODE 4410–AT–P

DEPARTMENT OF LABOR

Employment and Training Administration

Agency Information Collection Activities; Comment Request; National Agricultural Workers Survey

ACTION: Notice.

SUMMARY: The Department of Labor's (DOL's) Employment and Training Administration (ETA) is soliciting comments concerning a proposed extension for the authority to conduct the information collection request (ICR) titled, "National Agricultural Workers Survey." This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

DATES: Consideration will be given to all written comments received by September 23, 2019.

ADDRESSES: A copy of this ICR with applicable supporting documentation, including a description of the likely respondents, proposed frequency of response, and estimated total burden, may be obtained free by contacting Mr. Daniel Carroll by telephone at 202–693–2795 (this is not a toll-free number), TTY 1–877–889–5627 (this is not a toll-free number), or by email at carroll.daniel@dol.gov.

Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor, Employment and Training Administration, Office of Policy Development and Research, Room N–5641, 200 Constitution Ave. NW, Washington, DC 20210; by email: carroll.daniel@dol.gov; or by Fax 202–693–2766.

FOR FURTHER INFORMATION CONTACT: Mr. Wayne Gordon by telephone at 202–693–3179 (this is not a toll-free number) or by email at gordon.wayne@dol.gov.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The National Agricultural Workers Survey (NAWS) is an employment-based, annual survey of the demographic, employment, and health characteristics of hired crop workers, including those who employers hire indirectly through labor contractors. The survey began in 1988. Each year the NAWS contractor interviews between 1,500 and 3,500 crop workers. The contractor interviews crop workers three times per year to account for the seasonality of agricultural employment. ETA uses NAWS data to estimate each state's share of crop workers who are eligible for employment and training services through ETA's National Farmworker Jobs Program. Other Federal agencies similarly use the survey's data to estimate the number and characteristics of crop workers and their dependents who qualify to participate in or receive services from various migrant and seasonal farmworker programs. The United States Department of Agriculture routinely uses NAWS data, along with other data, to estimate changes in agricultural productivity. ETA is seeking approval to continue the NAWS, without change. The Wagner-Peyser Act, as amended (29 U.S.C. 49f (d) and 49l–2(a)) authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. To receive consideration, you must provide written comments, which DOL will summarize and include in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB Control No. 1205–0453.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).

Agency: DOL-ETA.

Type of Review: Extension without Changes.

Title of Collection: National Agricultural Workers Survey.

Form: Primary Questionnaire.

OMB Control Number: 1205-0453.

Affected Public: Individuals, Farms.

Estimated Number of Respondents: 6,090.

Frequency: Annual.

Total Estimated Annual Responses: 6,090.

Estimated Average Time per Response: 45 minutes.

Estimated Total Annual Burden Hours: 1,615 hours.

Total Estimated Annual Other Cost Burden: \$0.

Authority: 44 U.S.C. 3506(c)(2)(A).

Molly E. Conway,

Acting Assistant Secretary for Employment and Training.

BILLING CODE 4510-FM-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2013-0012]

Modification to the List of Appropriate NRTL Program Test Standards

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the final decision to add a new test standard to the Nationally Recognized Testing Laboratories (NRTL) Program's list of appropriate test standards.

DATES: The actions contained in this notice will become effective on July 25, 2019.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications; telephone: (202) 693-1999; email: meilinger.frankis2@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration; telephone: (202) 693-2110 or email: robinson.kevin@dol.gov. OSHA's website includes information about the NRTL Program (see <http://www.osha.gov/dts/otpca/nrtl/index.html>).

SUPPLEMENTARY INFORMATION:

I. Background

The NRTL Program recognizes organizations that provide product-safety testing and certification services to manufacturers. These organizations perform testing and certification for purposes of the program, to U.S. consensus-based product-safety test standards. The products covered by the NRTL Program consist of those items for which OSHA safety standards require "certification" by a NRTL. The requirements affect electrical products and 38 other types of products. OSHA does not develop or issue these test standards, but generally relies on standards development organizations (SDOs), which develop and maintain the standards using a method that provides input and consideration of views of industry groups, experts, users, consumers, governmental authorities and others having broad experience in the safety field involved.

Addition of New Test Standards to the NRTL Program List of Appropriate Test Standards

Periodically, OSHA will add new test standards to the NRTL list of appropriate test standards following an evaluation of the test standard document. To qualify as an appropriate test standard, the agency evaluates the document to (1) verify it represents a product category for which OSHA requires certification by a NRTL, (2) verify the document represents an end product and not a component, and (3) verify the document defines safety test specifications (not installation or operational performance specifications). OSHA becomes aware of new test standards through various avenues. For

example, OSHA may become aware of new test standards by: (1) Monitoring notifications issued by certain SDOs; (2) reviewing applications by NRTLs or applicants seeking recognition to include a new test standard in their scopes of recognition; and (3) obtaining notification from manufacturers, manufacturing organizations, government agencies, or other parties that a new test standard may be appropriate to add to the list of appropriate standards. OSHA may determine to include a new test standard in the list, for example, if the test standard is for a particular type of product that another test standard also covers, addresses a type of product that no standard previously covered, or is otherwise new to the NRTL Program.

Proposed Modification to the NRTL Program List of Appropriate NRTL Program Test Standards

In a March 14, 2019, **Federal Register** notice (84 FR 9384, referred to in this notice as "Proposed Modification," and available at www.regulations.gov under Docket ID OSHA-2013-0012-0019), OSHA proposed adding one standard to the NRTL Program List of Appropriate Test Standards. OSHA received one comment on this proposed action (available at www.regulations.gov under Docket IDs OSHA-2013-0012-0022). OSHA fully considered this comment and determined that no action was necessary.

II. Final Decision To Add a New Test Standard to the NRTL Program List of Appropriate Test Standards

In this notice, OSHA announces the final decision to add one new test standard, to the NRTL Program List of Appropriate Test Standards, as described in Table 1:

TABLE 1—TEST STANDARDS OSHA DECIDED TO ADD TO THE NRTL PROGRAM LIST OF APPROPRIATE TEST STANDARDS

Test standard	Test standard title
ANSI/CPLSO 14-2016 ...	Crane Insulators.

OSHA will add this test standard to the "Appropriate Test Standards" web page on OSHA's website. Access to this web page is available at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

III. Authority and Signature

Loren Sweatt, Acting Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice
