(2) *The Title of the Form/Collection:* National Survey of Crime and Safety (NSCS).

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* There are no agency form numbers for this collection. The applicable component within the Department of Justice is the Bureau of Justice Statistics, in the Office of Justice Programs.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will be all persons 12 years or older living in households located throughout the 48 contiguous states and the District of Columbia sampled for the National Survey of Crime and Safety. Persons living in Alaska and Hawaii and those living in group quarters are excluded for operational efficiency. In early 2014, BJS initiated the NCVS Instrument Redesign and Testing Project to develop a new design for the NCVS. The overarching objective for this project is to redesign and test the NCVS roster control card, crime screener, and crime incident report. The purpose of the National Survey of Crime and Safety field test will be to test the redesigned versions of the roster control card, crime screener, and crime incident report. The NSCS field test will include (1) an interviewer-administered version of the current NCVS instrument, (2) an interviewer-administered, revised questionnaire, and (3) a self-administered, web-based version of the revised questionnaire. The goal of the NSCS field test is to inform final decisions and recommendations for the redesign of the NCVS survey instrument to modernize it and to capture indicators of safety, security and perceptions of police that provide important information on public perceptions and potential correlates of victimization.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimate of the total number of respondents is 12,293 persons age 12 or older. It is anticipated that 960 persons in this group will report a victimization and receive the crime incident report, which is estimated to take 18 minutes per respondent for a total of 374 burden hours.
