

Final Determination

In accordance with section 705(c)(1)(B)(i) of the Act, we calculated a rate for Newtrend Thailand, the sole producer/exporter of the subject merchandise under investigation. Commerce determines the total estimated net countervailable subsidy rate to be:

Company	Subsidy rate (percent) (<i>de minimis</i>)
Newtrend Food Ingredient (Thailand) Co., Ltd	0.06

Commerce has not calculated an all-others rate because it has not reached an affirmative final determination. In the *Preliminary Determination*, the total net countervailable subsidy rate for Newtrend Thailand was zero and, therefore, we did not suspend liquidation. With respect to the final determination, because the rate for Newtrend Thailand is *de minimis*, we are not directing CBP to suspend liquidation of entries of glycine from Thailand.

Disclosure

Commerce will disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

International Trade Commission (ITC) Notification

In accordance with section 705(d) of the Act, Commerce will notify the ITC of its determination. As our final determination is negative, this proceeding is terminated.

Administrative Protective Orders

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This determination and this notice are issued and published pursuant to sections 705(d) and 777(i) of the Act.

Appendix I**Scope of the Investigation**

The merchandise covered by this investigation is glycine at any purity level or grade. This includes glycine of all purity levels, which covers all forms of crude or technical glycine including but not limited to sodium glycinate, glycine slurry and any other forms of amino acetic acid or glycine. Subject merchandise also includes glycine and precursors of dried crystalline glycine that are processed in a third country, including, but not limited to, refining or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope glycine or precursors of dried crystalline glycine. Glycine has the Chemical Abstracts Service (CAS) registry number of 56–40–6. Glycine and glycine slurry are classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 2922.49.4300. Sodium glycinate is classified in the HTSUS under 2922.49.8000. While the HTSUS subheadings and CAS registry number are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.
