BILLING CODE 3810-FF-P

DENALI COMMISSION

Denali Commission Fiscal Year 2020 Draft Work Plan

AGENCY: Denali Commission.

ACTION: Notice.

SUMMARY: The Denali Commission (Commission) is an independent Federal agency based on an innovative federal-state partnership designed to provide critical utilities, infrastructure and support for economic development and training in Alaska by delivering federal services in the most cost-effective manner possible. The Commission was created in 1998 with passage of the October 21, 1998 Denali Commission Act (Act). The Act requires that the Commission develop proposed work plans for future spending and that the annual work plan be published in the **Federal Register**, providing an opportunity for a 30-day period of public review and written comment. This **Federal Register** notice serves to announce the 30-day opportunity for public comment on the Denali Commission Draft Work Plan for Federal Fiscal Year 2020 (FY 2020).

DATES: Comments and related material to be received by September 2, 2019.

ADDRESSES: Submit comments to the Denali Commission, Attention: Elinda Hetami, 510 L Street, Suite 410, Anchorage, AK 99501.

FOR FURTHER INFORMATION CONTACT: Elinda Hetami, Denali Commission, 510 L Street, Suite 410, Anchorage, AK 99501. Telephone: (907) 271-3415. Email: ehetemi@denali.gov.

SUPPLEMENTARY INFORMATION:

Background: The Denali Commission's mission is to partner with tribal, federal, state, and local governments and collaborate with all Alaskans to improve the effectiveness and efficiency of government services, to build and ensure the operation and maintenance of Alaska's basic infrastructure, and to develop a well-trained labor force employed in a diversified and sustainable economy.

By creating the Commission, Congress mandated that all parties involved partner together to find new and innovative solutions to the unique infrastructure and economic development challenges in America's most remote communities. Pursuant to the Act, the Commission determines its own basic operating principles and funding criteria on an annual federal fiscal year (October 1 to September 30) basis. The Commission outlines these priorities and funding recommendations in an annual work plan. The FY 2020 Work Plan was developed in the following manner.

- A workgroup comprised of Denali Commissioners and Commission staff developed a preliminary draft work plan.
- The preliminary draft work plan was published on *Denali.gov* for review

by the public in advance of public testimony.

- A public hearing was held to record public comments and recommendations on the preliminary draft work plan.

• Written comments on the preliminary draft work plan were accepted for another ten days after the public hearing.

- All public hearing comments and written comments were provided to Commissioners for their review and consideration.

• Commissioners discussed the preliminary draft work plan in a public meeting and then voted on the work plan during the meeting.

• The Commissioners forwarded their recommended work plan to the Federal Co-Chair, who then prepared the draft work plan for publication in the **Federal Register** providing a 30-day period for public review and written comment. During this time, the draft work plan will also be disseminated to Commission program partners including, but not limited to, the Bureau of Indian Affairs (BIA), the Economic Development Administration (EDA), Department of Agriculture—Rural Utilities Service (USDA/RUS), and the State of Alaska.

• At the conclusion of the **Federal Register** Public comment period Commission staff provides the Federal Co-Chair with a summary of public comments and recommendations, if any, on the draft work plan.

• If no revisions are made to the draft, the Federal Co-Chair provides notice of approval of the work plan to the Commissioners, and forwards the work plan to the Secretary of Commerce for approval; or, if there are revisions the Federal Co-Chair provides notice of modifications to the Commissioners for their consideration and approval, and upon receipt of approval from Commissioners, forwards the work plan to the Secretary of Commerce for approval.

• The Secretary of Commerce approves the work plan.

• The Federal Co-Chair then approves grants and contracts based upon the approved work plan.

FY 2020 Appropriations Summary

The Commission has historically received federal funding from several sources. The two primary sources at this time include the Energy & Water Appropriation Bill ("base" or "discretionary" funds) and an annual allocation from the Trans-Alaska Pipeline Liability (TAPL) fund. The proposed FY 2020 Work Plan assumes the Commission will receive \$15,000,000 of base funds, which is the

amount referenced in the reauthorization of the Commission passed by Congress in 2016 (ref: Pub. L. 114-322), and a \$2,917,000 TAPL allocation based on discussions with the Office of Management and Budget (OMB). Approximately \$2,500,000 of the base funds will be used for administrative expenses and non-project program support, leaving \$12,500,000 available for program activities. The total base funding shown in the Work Plan also includes an amount typically available from project closeouts and other de-obligations that occur in any given year. Approximately \$117,000 of the TAPL funds will be utilized for

administrative expenses and non-project program support, leaving \$2,800,000 available for program activities. Absent any new specific direction or limitations provided by Congress in the current Energy & Water Appropriations Bill, these funding sources are governed by the following general principles, either by statute or by language in the Work Plan itself:

- Funds from the Energy & Water Appropriation are eligible for use in all programs.
- TAPL funds can only be used for bulk fuel related projects and activities.
- Appropriated funds may be reduced due to Congressional action, rescissions

by OMB, and other federal agency actions.

- All Energy & Water and TAPL investment amounts identified in the work plan, are “up to” amounts, and may be reassigned to other programs included in the current year work plan, if they are not fully expended in a program component area or a specific project.

- Energy & Water and TAPL funds set aside for administrative expenses that subsequently become available, may be used for program activities included in the current year work plan.

In FY 2020 the Commission is moving in a new direction to work closely with other Federal Agencies, the State of Alaska and regional/local entities with the goal of identifying projects with funding gaps that will allow the Commission to use its small amount of funding to move forward a large number of projects. The Commission has already begun to have conversations with many of our Federal partners and intends to prioritize shovel-ready projects where the Commission can leverage its funds. If the Commission is unable to fully utilize its funding by April of 2020 then it will use any remaining funds to fund Energy and Bulk Fuel projects consistent with a needs-based list established in partnership with the State of Alaska.

Mertarvik, Shishmaref, Shaktoolik and Kivalina

In FY 2020 the Commission will continue to provide support to these communities by funding the relocation coordinator positions. These coordinators will assist the communities in applying for grants and coordinating relocation efforts.

Program Development

The \$400,000 referenced above for this line item in the Workplan will be used to fund the ETC Grant Writing Center of Excellence at the Alaska Native Tribal Health Consortium.

Chad Stovall,

Chief Operating Officer.

I. Funding Opportunity Description

Purpose of Program: The purpose of the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program is to promote academic achievement and to improve results for children with disabilities by providing TA, supporting model demonstration projects, disseminating useful information, and implementing activities that are supported by scientifically based research.

Priority: This competition includes one absolute priority. In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute (see sections 663 and 681(d) of the Individuals with Disabilities Education Act (IDEA); 20 U.S.C. 1463 and 1481(d)).

Absolute Priority: For FY 2019 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Technical Assistance and Dissemination Center for the Development and Implementation of High-Quality Instruction, Interventions, and Services for Children with Disabilities (Center).

Background:

The Individuals with Disabilities Education Act (IDEA) entitles all eligible children with disabilities to a free appropriate public education (FAPE) that emphasizes special education and related services designed to meet their unique needs and prepare them for further education, employment, and independent living. (20 U.S.C. 1400(d)(1)(A)). The individualized education program (IEP) is the primary vehicle through which FAPE is delivered to those eligible children and is the foundation for each
