SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, ACL has submitted the following proposed collection of information to OMB for review and clearance.

ACL is responsible for administering the Title VI A/B (Nutrition and Supportive Service) and C (Caregiver) grants. The purpose of this data collection is to improve and standardize the format of the application. The instrument will collect data as prescribed by the Older Americans Act Section 612(a), 614(a) and 45 CFR 1326.19 related to the eligibility of Federally-recognized Tribes and Native Hawaiian organizations for grant funds under this program and their capacity to deliver services to elders.

The Application for Older Americans Act, Title VI A/B and C Grants collects information on the ability of federally-recognized American Indian, Alaskan Native and Native Hawaiian organizations to provide nutrition, supportive, and caregiver services to elders within their service area. Applicants are required to provide a description of their organization's service area, the number of eligible elders in their service area, and their ability to deliver services and sign assurances that the organization will comply with all applicable laws and regulations.

This is a new data collection. In prior grant cycles, AoA used ACL's generic clearance for the funding opportunity announcement (FOA) information collection currently approved under OMB control number 0985-0018. The proposed data collection materials have been updated to better align with the requirements of the Older Americans

Act and Federal regulations, as well as to improve data quality and grantee accountability. Furthermore, this grantee application will better line up with the revised Title VI Program Performance Report under 0985-0059 and will eliminate duplicate reporting requirements for grantees. This data collection will also support ACL in tracking performance outcomes and efficiency measures with respect to the annual and long-term performance targets established in compliance with the Government Performance Results Modernization Act (GPRMA).

A notice was published in the **Federal Register** on June 3, 2019, Vol. 84, No. 106, pp. 25546-25547.

The proposed data collection tools may be found on the ACL website for review at <https://www.acl.gov/about-acl/public-input>.

Estimated Program Burden

Title VI grant applications are required once every three (3) years, so an annual response is not required for this instrument (the annual burden below reflects this calculation). Additionally, Title VI funding is broken into three categories.

Parts A and B are for nutritional and supportive programming, with Part A being restricted to American Indian and Alaska Native grantees, and Part B restricted to Native Hawaiian grantees. Part C is for caregiver programming. All Part C grantees must have Part A/B funding, but not all Part A/B grantees will have Part C programs. Therefore, there are likely to be 295 unique respondents, but only 250 will have to complete all three portions of the application. This application covers all three parts of Title VI.

ACL estimates the burden associated with this collection of information as follows:

Respondent/data collection activity	Number of respondents	Responses per respondent	Hours per response	Annual burden hours
Title VI Application Part A/B	295	1	2.75	270.4
Title VI Application Part C	250	1	1.5	125
Total	4.25	395.4

The number of burden hours associated with the Title VI, Part C, data collection was calculated as 811.25. However, since this instrument is used only once every 3 years, this number was annualized by dividing it into thirds. This resulted in an annualized number of 270.4 hours. Similarly, the

total hours associated with the Title VI, Part C, application is 375. This number was annualized by dividing it by three, resulting in an annual burden hours of 125.

Dated: August 5, 2019.

Mary Lazare,

Principal Deputy Administrator.
