

before making a decision. The Draft EIS evaluates the following two alternatives: the Proposed Action Alternative (acquisition of the Site and construction of a new underground safety research facility) and the No Action Alternative. No other alternatives were considered because only one qualifying site was identified through the site selection process discussed above.

Impacts on the following resources are considered in the Draft EIS: Noise and vibration; geology, topography, and soils; water resources; utilities and infrastructure; and biological resources—vegetation and threatened and endangered species. Cultural resources were dismissed because a phase I archaeological reconnaissance survey identified one isolated artifact and confirmed low potential for additional archaeological resources. Viewshed and vibration analyses indicated that the potential for affecting historic structures would be negligible. No observable direct impacts on cultural resources are anticipated. Section 106 consultation under the National Historic Preservation Act is ongoing and will be documented in the record of decision. The status of the Section 106 consultation process to date is documented in Chapter 1 of the Draft EIS.

The purpose of this notice is to inform interested parties regarding the availability of the Draft EIS for review and to solicit comments. To facilitate public comments, a public meeting will be held on March 6, 2019, at the Linwood Community Library, 72 Snowshoe Drive, Slatyfork, West Virginia 26291, from 5:30 p.m. to 8:30 p.m. Eastern Standard Time. The public meeting will be an open house format. Copies of the draft EIS will be available at the meeting, and poster stations will provide a summary of the NEPA process and the findings of the EIS. Representatives of CDC and GSA will be available to answer one-on-one questions. There will be no formal presentation or formal testimonies. Participants may arrive at any time between 5:30 p.m. and 8:30 p.m. Eastern Time. Comment forms will be provided for written comments, and a stenographer will be available to transcribe one-on-one oral comments.

After the public comment period ends, CDC will consider all comments received, revise the Draft EIS to address these comments, select a preferred alternative, and issue a Final EIS. CDC will consider the Final EIS when deciding whether to proceed with the proposed site acquisition and campus development.

Dated: February 6, 2019.

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS' intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (PRA), federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, and to allow a second opportunity for public comment on the notice. Interested persons are invited to send comments regarding the burden estimate or any other aspect of this collection of information, including the necessity and utility of the proposed information collection for the proper performance of the agency's functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
