Requestor: Signify North America Corporation

To: U.S. Department of Energy
Building Technologies Program
Test procedure waiver

Date 3/5/2019

Subject: Petition for Waiver from Test Procedure as described in 10 CFR 431, Subpart L for Illuminated Exit Signs
Signify North America Corporation is petitioning for a waiver to the test method described in 10 CFR 430.204 for Illuminated Exit Signs. This waiver request applies to the Chloride by Signify or Chloride branded "HZ" series Combination Exit Sign and Unit Equipment products, otherwise known as Combos. This petition is based on the grounds that the design of this product prevents testing as described in accordance with the designated procedure.

1. This petition for waiver includes Basic model numbers HZ672R2IC and HZ672G2IC and the models listed in the Appendix.

2. These models may be sold under the brand name Chloride or Chloride by Signify. Whereas the provision 10 CFR 430.204 references Energy Star V. 2.0 for the Input Power Measurement test method, that method is for Exit Signs alone and not for these basic models which also incorporate Unit Equipment for emergency lighting. This design does not allow for a separate measurement for only the Exit Sign portion of the equipment.

3. The manufacturers that distribute models similar to the Chloride by Signify models are:

Acuity Brands
Beggelli

4. We propose using the same alternate test method as described in the DOE Notice of decision and order for Case Number IES-001 and published in the **Federal Register**/Vol. 83, No. 52/ Friday, March 16, 2018. The order for the alternate method is set forth in Part IV, section (2) (b). Our product design is such that the Exit Sign portion of this Combination Exit Sign and Unit Equipment is equivalent to our basic Exit Sign as described in the DOE guidelines in section (2) (a).

We thank you for your attention to this and we await your response.
