B. Needs and Uses

In accordance with FAR 52.232-20 and 52.232-22, firms performing under fully funded or incrementally funded cost-reimbursement Federal contracts are required to notify the contracting officer in writing whenever they have reason to believe—

(1) The costs the contractors expect to incur under the contracts in the next 60 days, when added to all costs previously incurred, will exceed 75 percent of the estimated cost of the contracts; or (2) The total cost for the performance of the contracts will be greater or substantially less than estimated.

As a part of the notification, the contractors must provide a revised estimate of total cost. The frequency of this collection of information is variable, contingent upon both funding and spending patterns.

C. Annual Reporting Burden

9000–0077, Quality Assurance Requirements.

B. Needs and Uses

Supplies and services acquired under Government contracts must conform to the contract's quality and quantity requirements. FAR Part 46 prescribes inspection, acceptance, warranty, and other measures associated with quality requirements. Standard inspection clauses require the contractor to provide and maintain an inspection system that is acceptable to the Government; give the Government the right to make inspections and test while work is in process; and require the contractor to keep complete, and make available to the Government, records of its inspection work. FAR clause 52.246–15, Certificate of Conformance, is not an inspection clause, but a requirement for the contractor to certify that supplies or services furnished are of the quality specified and conform in all respects with the contract requirements.

C. Annual Burden

1. Inspection Clauses

The FAR inspection clauses are used for quality assurance depending on the type of contract and the type of product or service being provided. The corresponding quality/inspection systems the contractors are required to implement have requirements for record keeping and in some cases documenting the quality or inspection system. These clauses do not require the transmittal or sending of documentation to the Government. Instead, the Government may review these records to confirm the contract quality requirements are being met. Definitive information was not available on how often the Government requests to see these records. The time

required to provide the records is estimated as follows:

Respondents: 1,590.

Total Annual Responses: 1,590.

Total Burden hours: 1,590.

2. Certificate of Conformance

FAR clause 52.246–15 is used in solicitations and contracts for supplies or services at the discretion of the contracting officer when it is in the Government's interest, small losses would be incurred in the event of a defect; or because of the contractor's reputation or past performance, it is likely that the supplies or services furnished will be acceptable and any defective work would be replaced, corrected, or repaired without contest. The clause requires the contractor to submit a prescribed certificate. The time required to submit the certificate is estimated as follows:

Respondents: 639.

Total Annual Responses: 639.

Total Burden hours: 320.
