

DEPARTMENT OF COMMERCE**International Trade Administration****[A-520-803]****Polyethylene Terephthalate Film, Sheet, and Strip From the United Arab Emirates: Rescission of Antidumping Duty Administrative Review; 2017–2018**

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is rescinding its administrative review of the antidumping duty (AD) order on polyethylene terephthalate film, sheet, and strip (PET film) from the United Arab Emirates (UAE) for the period of review (POR), November 1, 2017, through October 31, 2018.

DATES: Applicable September 5, 2019.

FOR FURTHER INFORMATION CONTACT: Andrew Huston, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4261.

SUPPLEMENTARY INFORMATION:**Background**

On November 1, 2018, Commerce published in the **Federal Register** a notice of opportunity to request an administrative review of the AD order on PET film from the UAE.¹ Commerce received a timely request from DuPont Teijin Film, Mitsubishi Polyester Film, Inc., and SKC Inc. (collectively, the petitioners), in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(b), to conduct an administrative review of this AD order for Flex Middle East FZE (Flex).² No other party requested an administrative review of this order. Pursuant to the review request filed by the petitioners, and in accordance with 19 CFR 351.221(c)(1)(i), on February 6, 2019, Commerce published in the **Federal Register** a notice of initiation of an

administrative review covering Flex.³ On May 3, 2019, the petitioners timely withdrew their request for an administrative review of Flex.⁴

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party, or parties, that requested a review withdraw the request/s within 90 days of the publication of the notice of initiation of the requested review. As noted above, the petitioners withdrew their request for review by the 90-day deadline, and no other party requested an administrative review of this order. Therefore, in response to the timely withdrawal of the request for review, and, in accordance with 19 CFR 351.213(d)(1), Commerce is rescinding this administrative review in its entirety.

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. Antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue assessment instructions to CBP 15 days after the publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of ADs prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of ADs occurred and the subsequent assessment of double ADs.

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3).

³ See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 84 FR 2159 (February 6, 2019).

⁴ See Petitioners' Letter, "Polyethylene Terephthalate Film, Sheet and Strip from the United Arab Emirates: Withdrawal of Request for Antidumping Duty Administrative Review," dated May 3, 2019.

Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This notice is published in accordance with section 771(i)(1) of the Act, and 19 CFR 351.213(d)(4).

Dated: August 29, 2019.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE**International Trade Administration****[A-588-874]****Certain Hot-Rolled Steel Flat Products From Japan: Notice of Final Results of Antidumping Duty Changed Circumstances Review**

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On July 19, 2019, the Department of Commerce (Commerce) published its notice of initiation and preliminary results of a changed-circumstances review (CCR) of the antidumping duty (AD) order on certain hot-rolled steel flat products (hot-rolled steel) from Japan. In that notice, Commerce preliminarily determined that (1) Nippon Steel Corporation (NSC) is the successor-in-interest to Nippon Steel & Sumitomo Metal Corporation (NSSMC); (2) Nippon Steel Nisshin Co., Ltd. (Nippon Nisshin) is the successor in interest to Nisshin Steel Co., Ltd. (Nisshin Steel); and (3) Nippon Steel Trading Corporation (NSTC) is the successor in interest to Nippon Steel & Sumikin Bussan Corporation (NSSBC). Additionally, Commerce preliminarily determined that NSC, Nippon Nisshin, and NSTC should be treated as a single entity, and should receive the same AD cash deposit rate with respect to the subject merchandise as NSSMC, the predecessor company. No interested party submitted comments regarding the initiation and preliminary results. For these final results, Commerce continues to find that NSC is the successor-in-interest to NSSMC.

DATES: Applicable September 5, 2019.

FOR FURTHER INFORMATION CONTACT: Leo Ayala or Jun Jack Zhao, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue

¹ See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 83 FR 54912 (November 1, 2018); see also *Correction to Notice of Opportunity to Request Administrative Review*, 83 FR 56819 (November 14, 2018).

² See Petitioners' Letter, "Polyethylene Terephthalate Film, Sheet and Strip from the United Arab Emirates: Request for Antidumping Duty Administrative Review," dated November 30, 2018.

NW, Washington, DC 20230; telephone: (202) 482–3945 or (202) 482–1396, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 19, 2019, Commerce published its notice of initiation and preliminary results of this CCR of the AD order on hot-rolled steel from Japan,¹ preliminarily determining that (1) NSC is the successor-in-interest to NSSMC; (2) Nippon Nisshin is the successor in interest to Nisshin Steel; and (3) NSTC is the successor in interest to NSSBC.² Additionally, because Commerce had previously determined that NSSMC, Nisshin Steel, and NSSBC are affiliated companies and should be treated as a single entity, Commerce preliminarily determined that NSC, including Nippon Nisshin and NSTC, should receive the same AD cash deposit rate (*i.e.*, 4.99 percent) with respect to the subject merchandise as NSSMC, its predecessor company.³ In the *Initiation and Preliminary Results*, Commerce provided all interested parties with an opportunity to comment and to request a public hearing regarding the preliminary findings. Commerce received no comments regarding the preliminary findings and no requests for a public hearing from interested parties within the time period set forth in the *Initiation and Preliminary Results*.

Scope of the Order

The products covered by this order are hot-rolled steel flat products from Japan. For a full description of the scope of the order, *see* the “Scope of the Order” at the Appendix to this notice.

Final Results of CCR

For the reasons stated in the *Initiation and Preliminary Results*, and because we received no comments from interested parties to the contrary, Commerce continues to find that NSC, Nippon Nisshin, and NSTC are affiliated companies that should be treated as a single entity that is the successor-in-interest to NSSMC. As a result of this determination, we find that NSC,

Nippon Nisshin, and NSTC should receive the AD cash deposit rate previously assigned to NSSMC under the *Order*.⁴ Consequently, Commerce will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of subject merchandise produced or exported by NSC, Nippon Nisshin, and NSTC and entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register** at a cash deposit rate of 4.99 percent, which is the current AD cash deposit rate for NSSMC.⁵ This cash deposit requirement shall remain in effect until further notice.

Notification to Interested Parties

Commerce is issuing and publishing these final results and notice in accordance with sections 751(b)(1) and (4) and 777(i) of the Tariff Act of 1930, as amended, and sections 19 CFR 351.216 and 351.221(c)(3)(i).

Dated: August 28, 2019.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

Appendix

Scope of the Order

The products covered by the scope are certain hot-rolled, flat-rolled steel products, with or without patterns in relief, and whether or not annealed, painted, varnished, or coated with plastics or other non-metallic substances. The products covered do not include those that are clad, plated, or coated with metal. The products covered include coils that have a width or other lateral measurement (“width”) of 12.7 mm or greater, regardless of thickness, and regardless of form of coil (*e.g.*, in successively superimposed layers, spirally oscillating, *etc.*). The products covered also include products not in coils (*e.g.*, in straight lengths) of a thickness of less than 4.75 mm and a width that is 12.7 mm or greater and that measures at least 10 times the thickness. The products described above may be rectangular, square, circular, or other shape and include products of either rectangular or non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process, *i.e.*, products which have been “worked after rolling” (*e.g.*, products which have been beveled or rounded at the edges). For purposes of the width and thickness requirements referenced above:

(1) Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above unless the resulting measurement

makes the product covered by the existing antidumping¹ or countervailing duty² orders on Certain Cut-To-Length Carbon-Quality Steel Plate Products From the Republic of Korea (A–580–836; C–580–837), and

(2) where the width and thickness vary for a specific product (*e.g.*, the thickness of certain products with non-rectangular cross-section, the width of certain products with non-rectangular shape, *etc.*), the measurement at its greatest width or thickness applies.

Steel products included in the scope are products in which: (1) Iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 2.50 percent of manganese, or
- 3.30 percent of silicon, or
- 1.50 percent of copper, or
- 1.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 2.00 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.80 percent of molybdenum, or
- 0.10 percent of niobium, or
- 0.30 percent of vanadium, or
- 0.30 percent of zirconium.

Unless specifically excluded, products are included in this scope regardless of levels of boron and titanium.

For example, specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, the substrate for motor lamination steels, Advanced High Strength Steels (AHSS), and Ultra High Strength Steels (UHSS). IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum. AHSS and UHSS are considered high tensile strength and high elongation steels, although AHSS and UHSS are covered whether or not they are high tensile strength or high elongation steels.

Subject merchandise includes hot-rolled steel that has been further processed in a third country, including but not limited to pickling, oiling, levelling, annealing, tempering, temper rolling, skin passing, painting, varnishing, trimming, cutting,

¹ See *Certain Hot-Rolled Steel Flat Products from Australia, Brazil, Japan, the Republic of Korea, the Netherlands, the Republic of Turkey, and the United Kingdom: Amended Final Affirmative Antidumping Determinations for Australia, the Republic of Korea, and the Republic of Turkey and Antidumping Duty Orders*, 81 FR 67962 (October 3, 2016) (*Order*).

² See *Notice of Initiation and Preliminary Results of Antidumping Duty Changed Circumstances Review: Certain Hot-Rolled Steel Flat Products from Japan*, 84 FR 34865 (July 19, 2019) (*Initiation and Preliminary Results*).

³ *Id.*

⁴ See *Order*.

⁵ NSSMC received a cash deposit rate of 4.99 percent in the amended final determination of the investigation of hot-rolled steel products from Japan. See *Order*, 81 FR at 67965.

¹ See *Notice of Amendment of Final Determinations of Sales at Less Than Fair Value and Antidumping Duty Orders: Certain Cut-To-Length Carbon-Quality Steel Plate Products from France, India, Indonesia, Italy, Japan and the Republic of Korea*, 65 FR 6585 (February 10, 2000).

² See *Notice of Amended Final Determinations: Certain Cut-to-Length Carbon-Quality Steel Plate from India and the Republic of Korea; and Notice of Countervailing Duty Orders: Certain Cut-To-Length Carbon-Quality Steel Plate from France, India, Indonesia, Italy, and the Republic of Korea*, 65 FR 6587 (February 10, 2000).

punching, and/or slitting, or any other processing that would not otherwise remove the merchandise from the scope if performed in the country of manufacture of the hot-rolled steel.

All products that meet the written physical description, and in which the chemistry quantities do not exceed any one of the noted element levels listed above, are within the scope unless specifically excluded. The following products are outside of and/or specifically excluded from the scope:

- Universal mill plates (*i.e.*, hot-rolled, flat-rolled products not in coils that have been rolled on four faces or in a closed box pass, of a width exceeding 150 mm but not exceeding 1250 mm, of a thickness not less than 4.0 mm, and without patterns in relief);

- Products that have been cold-rolled (cold-reduced) after hot-rolling;³

- Ball bearing steels;⁴

- Tool steels;⁵ and

- Silico-manganese steels;⁶

The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under item numbers: 7208.10.1500, 7208.10.3000, 7208.10.6000, 7208.25.3000, 7208.25.6000, 7208.26.0030, 7208.26.0060, 7208.27.0030, 7208.27.0060, 7208.36.0030, 7208.36.0060, 7208.37.0030, 7208.37.0060, 7208.38.0015, 7208.38.0030, 7208.38.0090, 7208.39.0015, 7208.39.0030, 7208.39.0090, 7208.40.6030, 7208.40.6060, 7208.53.0000, 7208.54.0000, 7208.90.0000, 7210.70.3000, 7211.14.0030, 7211.14.0090, 7211.19.1500, 7211.19.2000, 7211.19.3000, 7211.19.4500, 7211.19.6000, 7211.19.7530, 7211.19.7560, 7211.19.7590, 7225.11.0000, 7225.19.0000, 7225.30.3050, 7225.30.7000, 7225.40.7000, 7225.99.0090, 7226.11.1000, 7226.11.9030, 7226.11.9060, 7226.19.1000, 7226.19.9000, 7226.91.5000, 7226.91.7000, and 7226.91.8000. The products subject to the scope may also enter under the following HTSUS numbers: 7210.90.9000, 7211.90.0000, 7212.40.1000, 7212.40.5000, 7212.50.0000, 7214.91.0015, 7214.91.0060, 7214.91.0090, 7214.99.0060,

7214.99.0075, 7214.99.0090, 7215.90.5000, 7226.99.0180, and 7228.60.6000.

The HTSUS subheadings above are provided for convenience and U.S. Customs and Border Protection (CBP) purposes only. The written description of the scope is dispositive.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XG233

Groundfish Operational Assessment Peer Review Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: NMFS and the Operational Assessment Oversight Panel will convene the Groundfish Operational Assessment Peer Review Meeting for the purpose of reviewing stock assessments of haddock, cod, yellowtail flounder, windowpane flounder, American plaice, pollock, and white hake. The Operational Assessment Peer Review is a formal scientific peer-review process for evaluating and presenting stock assessment results to managers for fish stocks in the offshore U.S. waters of the northwest Atlantic. Assessments are prepared by Stock Assessment Workshop (SAW) working groups and reviewed by an independent panel of stock assessment experts called the

Operational Assessment Oversight Panel (AOP). The public is invited to attend the presentations and discussions between the review panel and the scientists who have participated in the stock assessment process.

DATES: The public portion of the Groundfish Operational Assessment Peer Review Meeting will be held from September 9, 2019–September 13, 2019. The meeting will commence on September 13, 2019 at 5:00 p.m. Eastern Standard Time. Please see **SUPPLEMENTARY INFORMATION** for the daily meeting agenda.

ADDRESSES: The meeting will be held in Stephen H. Clark Conference Room in the Aquarium Building of the National Marine Fisheries Service, Northeast Fisheries Science Center (NEFSC), 166 Water Street, Woods Hole, MA 02543.

FOR FURTHER INFORMATION CONTACT: Jim Weinberg, 508-495-2352; email: james.weinberg@noaa.gov.

SUPPLEMENTARY INFORMATION: For further information, please visit the NEFSC website at <http://www.nefsc.noaa.gov>. For additional information about the AOP meeting and the stock assessment peer review, please visit the NMFS/NEFSC SAW web page at <https://www.nefsc.noaa.gov/assessments/2019-assessments/>.

Daily Meeting Agenda—Groundfish Operational Assessment Peer Review Meeting

(Subject to Change; All times are approximate and may be changed at the discretion of the Peer Review Chair).

Monday, September 9, 2019

Time	Activity	Lead
1:00 p.m.–1:15 p.m.	Welcome and Introductions	Jim Weinberg/Pat Sullivan, Chair.
1:15 p.m.–1:30 p.m.	Common Topics	Russ Brown.
1:30 p.m.–4:30 p.m.	Georges Bank Haddock	Liz Brooks.
	Gulf of Maine Haddock	Charles Perretti.
4:30 p.m.–5:00 p.m.	Discussion/Review/Summary	Review Panel.
	Public Comment	Public.
5:00 p.m.	Adjourn.	

³ For purposes of this scope exclusion, rolling operations such as a skin pass, levelling, temper rolling or other minor rolling operations after the hot-rolling process for purposes of surface finish, flatness, shape control, or gauge control do not constitute cold-rolling sufficient to meet this exclusion.

⁴ Ball bearing steels are defined as steels which contain, in addition to iron, each of the following elements by weight in the amount specified: (i) Not less than 0.95 nor more than 1.13 percent of carbon; (ii) not less than 0.22 nor more than 0.48 percent of manganese; (iii) none, or not more than 0.03 percent of sulfur; (iv) none, or not more than 0.03

percent of phosphorus; (v) not less than 0.18 nor more than 0.37 percent of silicon; (vi) not less than 1.25 nor more than 1.65 percent of chromium; (vii) none, or not more than 0.28 percent of nickel; (viii) none, or not more than 0.38 percent of copper; and (ix) none, or not more than 0.09 percent of molybdenum.

⁵ Tool steels are defined as steels which contain the following combinations of elements in the quantity by weight respectively indicated: (i) More than 1.2 percent carbon and more than 10.5 percent chromium; or (ii) not less than 0.3 percent carbon and 1.25 percent or more but less than 10.5 percent chromium; or (iii) not less than 0.85 percent carbon

and 1 percent to 1.8 percent, inclusive, manganese; or (iv) 0.9 percent to 1.2 percent, inclusive, chromium and 0.9 percent to 1.4 percent, inclusive, molybdenum; or (v) not less than 0.5 percent carbon and not less than 3.5 percent molybdenum; or (vi) not less than 0.5 percent carbon and not less than 5.5 percent tungsten.

⁶ Silico-manganese steel is defined as steels containing by weight: (i) Not more than 0.7 percent of carbon; (ii) 0.5 percent or more but not more than 1.9 percent of manganese, and (iii) 0.6 percent or more but not more than 2.3 percent of silicon.
