

ESTIMATED ANNUAL REPORTING BURDEN

Activity	Number of respondents	Frequency of responses	Total annual responses	Hours per response	Total hours
Initial Registration	40	1	40	1	40
Re-Registration	291	1	291	1	291
Changes in Information	6	1	6	0.25	1.5
Total					332.5

These estimates are based on the following information:

- Based on applications received from FY 2013 to date, we estimate the number of third party conformity assessment bodies who would register initially each year for the next three years would be 40.

- Under 16 CFR part 1112, third party conformity assessment bodies are required to resubmit CPSC Form 223 every two years. As all third party conformity assessment bodies have not submitted their first CPSC Form 223s at the same time, only about half would be expected to resubmit a CPSC Form 223 in any 1 year. As of

- August 2019, 581 third party conformity assessment bodies have registered with CPSC. Approximately half (291) of these firms would be required to re-register with CPSC each year.

- Under 16 CFR part 1112, third party conformity assessment bodies are required to ensure that the information submitted on CPSC Form 223 is current and to submit a new CPSC Form 223 whenever the information changes. Based on current experience with third party conformity assessment bodies, we estimate that two third party conformity assessment bodies will make revisions per year to update their information. A change in information is a change that does not require review of laboratory accreditation documents, such as scope or test methods. Examples of revised information include changes in the website URL, name of the laboratory, and name of point of contact.

The total burden, therefore, is 332.5 hours, which we will round up to 333 hours. We estimate that hourly compensation for the time required for recordkeeping is \$34.61 per hour (U.S. Bureau of Labor Statistics, "Employer Costs for Employee Compensation," Table 9, total compensation for sales, office, and related workers in goods-producing industries, March 2019: <https://www.bls.gov/ect/data.htm>). The total cost burden to the respondents is approximately \$11,525 (\$34.61 × 333 hours = \$11,525).

Title of Collection: Program for the International Assessment of Adult Competencies (PIAAC) 2022 Cycle II Field Test.

OMB Control Number: 1850–0870.

Type of Review: A reinstatement of a previously approved information collection.

Total Estimated Number of Annual Burden Hours: 1,262.

Abstract: The Program for the International Assessment of Adult Competencies (PIAAC) is a cyclical, large-scale study of adult skills and life experiences focusing on education and employment. PIAAC is an international study designed to assess adults in different countries over a broad range of abilities, from simple reading to complex problem-solving skills, and to collect information on individuals' skill use and background. PIAAC is coordinated by the Organization for Economic Cooperation and Development (OECD) and developed by participating countries with the support of the OECD. In the United States, the National Center for Education Statistics (NCES), within the U.S. Department of Education (ED) conducts PIAAC. The U.S. participated in the PIAAC Main Study data collection in 2012 and conducted national supplement data collections in 2014 and 2017. All three of these collections are part of PIAAC Cycle I. A new PIAAC cycle is to be conducted every 10 years, and PIAAC Cycle II Main Study data collection will be conducted from August 2021 through March 2022. In preparation for the main study collection, PIAAC Cycle II will begin with a Field Test in 2020, in which 34 countries are expected to participate with the primary goal of evaluating newly developed assessment and questionnaire items and to test the PIAAC 2022 planned operations. PIAAC 2022 defines four core competency domains of adult cognitive skills that are seen as key to facilitating the social and economic participation of adults in advanced economies: (1) Literacy, (2) numeracy, (3) reading and numeracy components, and (4) adaptive problem solving. The U.S. will administer all four domains of the PIAAC 2022 assessment to a nationally
