

driving in congested urban areas exposes the driver to more pedestrian and vehicular traffic than exists on interstate highways. Faster reaction to traffic and traffic signals is generally required because distances between them are more compact. These conditions tax visual capacity and driver response just as intensely as interstate driving conditions.

The applicants in this notice have driven CMVs with their limited vision in careers ranging for 4 to 84 years. In the past three years, no drivers were involved in crashes, and one driver was convicted of a moving violation in CMVs. All the applicants achieved a record of safety while driving with their vision impairment that demonstrates the likelihood that they have adapted their driving skills to accommodate their condition. As the applicants' ample driving histories with their vision deficiencies are good predictors of future performance, FMCSA concludes their ability to drive safely can be projected into the future.

Consequently, FMCSA finds that in each case exempting these applicants from the vision requirement in § 391.41(b)(10) is likely to achieve a level of safety equal to that existing without the exemption.

V. Conditions and Requirements

The terms and conditions of the exemption are provided to the applicants in the exemption document and includes the following: (1) Each driver must be physically examined every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in § 391.41(b)(10) and (b) by a certified medical examiner (ME) who attests that the individual is otherwise physically qualified under § 391.41; (2) each driver must provide a copy of the ophthalmologist's or optometrist's report to the ME at the time of the annual medical examination; and (3) each driver must provide a copy of the annual medical certification to the employer for retention in the driver's qualification file, or keep a copy in his/her driver's qualification file if he/she is self-employed. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official.

VI. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

VII. Conclusion

Based upon its evaluation of the ten exemption applications, FMCSA exempts the following drivers from the vision requirement, § 391.41(b)(10), subject to the requirements cited above:

Joseph A. Cardazone (NJ)
Daniel R. Cope, Sr. (IA)
Timothy E. Coultas (IL)
Edwin Figueroa (IL)
Robert F. LaMark (PA)
Con May (IN)
Justin E. Schwada (MO)
Jeffrey A. Sherman (OH)
Chadwick L. St. John (AL)
Clinton A. Vandervoort (TX)

In accordance with 49 U.S.C. 31136(e) and 31315(b), each exemption will be valid for 2 years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b).

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. II. Background

On June 7, 2019, FMCSA published a notice announcing its decision to renew exemptions for 74 individuals from the vision requirement in 49 CFR 391.41(b)(10) to operate a CMV in interstate commerce and requested comments from the public (84 FR 26719). The public comment period ended on July 8, 2019, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with the current regulation § 391.41(b)(10).

The physical qualification standard for drivers regarding vision found in § 391.41(b)(10) states that a person is physically qualified to drive a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing red, green, and amber.

III. Discussion of Comments

FMCSA received no comments in this proceeding.

IV. Conclusion

Based on its evaluation of the 74 renewal exemption applications and comments received, FMCSA confirms its decision to exempt the following drivers from the vision requirement in § 391.41(b)(10).

In accordance with 49 U.S.C. 31136(e) and 31315, the following groups of drivers received renewed exemptions in the month of July and are discussed below. Deepwater Port License Application: Texas GulfLink LLC; Extension of Scoping Period

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Notice of extension of the public scoping comment period.

SUMMARY: By **Federal Register** notice of Wednesday, July 3, 2019, titled *Deepwater Port License Application: Texas GulfLink LLC*, the U.S. Coast Guard (USCG), in coordination with the Maritime Administration (MARAD), announced the intent to prepare an environmental impact statement (EIS) as part of the environmental review of the Texas GulfLink LLC (Texas GulfLink) deepwater port license application. Publication of that notice began a 30-day scoping process, announced the date and location of a public scoping meeting as well as requested public participation to assist in the identification and determination of the environmental issues to be addressed in the EIS.

In a **Federal Register** notice dated Wednesday, August 14, 2019, USCG and MARAD previously advised that the public scoping period for Texas GulfLink would be extended until August 30, 2019. MARAD and USCG have determined that a second extension of the public scoping period for the GulfLink application is necessary to allow the public and interested parties a full 30 days to review the application and provide written feedback to the agencies. This second extension is due to delays in getting the application properly posted on the docket. This **Federal Register** Notice announces the date of the extended scoping period.
