

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the National Dislocated Workers Emergency Grant Application and Reporting Procedures information collection. The information collection is necessary for the U.S. Department of Labor's (DOL's) award of National Dislocated Worker Grants (NDWGs), which are discretionary grants intended to temporarily expand the service capacity at the state and local area levels by providing funding assistance in response to major economic dislocations or other events, as defined in the Workforce Innovation and Opportunity Act (WIOA). Funds are available for obligation by the Secretary under Sections 132 and 170 of WIOA. Applications will be accepted on an ongoing basis as the need for funds arises for eligible applicants.

The provisions of WIOA and the Regulations at 20 CFR part 687 define two National Dislocated Worker Grant project types: (1) Employment Recovery, which encompasses plant closures, mass layoffs, multiple layoffs in a single community, and higher than average demand from dislocated service members. (2) Disaster Recovery, which includes Federal Emergency Management Agency (FEMA), declared emergency and disaster events, and emergencies or disaster situations of national significance. The Workforce Innovation and Opportunity Act (Pub. L. 113–128) authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205–0439.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on September 30, 2019. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension

while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 23, 2019 (84 FR 16884).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty-(30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205–0439. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
