Extension of Expiration Dates for Two Body System Listings

AGENCY: Social Security Administration.
ACTION: Final rule.

SUMMARY: We are extending the expiration dates of the following body systems in the Listing of Impairments (listings) in our regulations: Respiratory Disorders and Genitourinary Disorders. We are making no other revisions to these body systems in this final rule. This extension ensures that we will continue to have the criteria we need to evaluate impairments in the affected body systems at step three of the sequential evaluation processes for initial claims and continuing disability reviews.

DATES: This final rule is effective on September 24, 2019.

Medical Policy, 6401 Security Boulevard, Baltimore, MD 21235–6401, (410) 965–1020. SUPPLEMENTARY INFORMATION:

Background

We use the listings in appendix 1 to subpart P of part 404 of 20 CFR at the third step of the sequential evaluation process to evaluate claims filed by adults and children for benefits based on disability under the title II and title XVI programs.¹ 20 CFR 404.1520(d), 416.920(d), 416.924(d). The listings are in two parts: Part A has listings criteria for adults and Part B has listings criteria for children. If you are age 18 or over, we apply the listings criteria in part A when we assess your impairment or combination of impairments. If you are under age 18, we first use the criteria in part B of the listings when we assess your impairment(s). If the criteria in part B do not apply, we may use the criteria in part A when those criteria consider the effects of your impairment(s). 20 CFR 404.1525(b), 416.925(b).

Explanation of Changes

In this final rule, we are extending the dates on which the listings for the following two body systems will no longer be effective as set out in the following chart:

Listing	Current expiration date	Extended expiration date
Respiratory Disorders 3.00 and 103.00	October 7, 2019	December 10, 2021.
Genitourinary Disorders 6.00 and 106.00	December 9, 2019	December 10, 2021.

We continue to revise and update the listings on a regular basis, including those body systems not affected by this final rule.² We intend to update the two listings affected by this final rule as necessary based on medical advances as quickly as possible, but may not be able to publish final rules revising these listings by the current expiration dates. Therefore, we are extending the expiration dates listed above.

Regulatory Procedures

Justification for Final Rule

We follow the Administrative Procedure Act (APA) rulemaking procedures specified in 5 U.S.C. 553 in promulgating regulations. Section 702(a)(5) of the Social Security Act, 42 U.S.C. 902(a)(5). Generally, the APA requires that an agency provide prior notice and opportunity for public comment before issuing a final regulation. The APA provides exceptions to the notice-and-comment

requirements when an agency finds there is good cause for dispensing with such procedures because they are impracticable, unnecessary, or contrary to the public interest.

We determined that good cause exists for dispensing with the notice and public comment procedures. 5 U.S.C. 553(b)(B). This final rule only extends the date on which two body system listings will no longer be effective. It makes no substantive changes to our rules. Our current regulations³ provide that we may extend, revise, or

¹ We also use the listings in the sequential evaluation processes we use to determine whether a beneficiary's disability continues. See 20 CFR 404.1594, 416.994, and 416.994a.

² Since we last extended the expiration dates of the listings affected by this final rule in June 2016

(81 FR 37138) and October 2014 (79 FR 61221), we published final rules revising the medical criteria for evaluating hematological disorders (80 FR 21159 (2015)), cancer (malignant neoplastic diseases) (80 FR 28821 (2015)), neurological disorders (81 FR 66137 (2016)), mental disorders (81 FR 66137

(2016)), and human immunodeficiency virus (HIV) infection (81 FR 86915 (2016)).

³ See the first sentence of appendix 1 to subpart P of part 404 of 20 CFR.

promulgate the body system listings again. Therefore, we determined that opportunity for prior comment is unnecessary, and we are issuing this regulation as a final rule.

In addition, for the reasons cited above, we find good cause for dispensing with the 30-day delay in the effective date of this final rule. 5 U.S.C. 553(d)(3). We are not making any substantive changes to the listings in these body systems. Without an extension of the expiration dates for these listings, we will not have the criteria we need to assess medical impairments in these two body systems at step three of the sequential evaluation processes. We therefore find it is in the public interest to make this final rule effective on the publication date.

Executive Order 12866, as Supplemented by Executive Order 13563

We consulted with the Office of Management and Budget (OMB) and determined that this final rule does not meet the requirements for a significant regulatory action under Executive Order 12866, as supplemented by Executive Order 13563. Therefore, OMB did not review it. We also determined that this final rule meets the plain language requirement of Executive Order 12866.

Regulatory Flexibility Act

We certify that this final rule does not have a significant economic impact on a substantial number of small entities because it affects only individuals. Therefore, a regulatory flexibility analysis is not required under the Regulatory Flexibility Act, as amended.

Executive Order 13771

This regulation does not impose novel costs on the public and as such is considered an exempt regulatory action under E.O. 13771.

Paperwork Reduction Act

This final rule does not create any new or affect any existing collections and, therefore, do not require OMB approval under the Paperwork Reduction Act.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[EPA–HQ–SFUND–1990–0010; FRL–9999–92–Region 4]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Partial Deletion of the Townsend Saw Chain Co. Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region 4 announces the deletion of the soil, sediment, surface water, surficial aquifer, and the intermediate aquifer of this Site with the exception of a limited area (5000–8000 square feet) of the intermediate aquifer below the 1C clay in the vicinity of

monitoring wells IMW–01B, MW–128, and OW–143 of the Townsend Saw Chain Co. Superfund Site (Site) located in Pontiac, South Carolina, from the National Priorities List (NPL). The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). This partial deletion pertains to the soil, sediment, surface water, surficial aquifer, and the intermediate aquifer of this Site. A limited area (5000–8000 square feet) of the intermediate aquifer below the 1C clay in the vicinity of monitoring wells IMW–01B, MW–128, and OW–143 of the Townsend Saw Chain Co. will remain on the NPL and is not being considered for deletion as part of this action. The EPA and the State of South Carolina, through the South Carolina Department of Health and Environmental Control (SC DHEC), have determined that all appropriate response actions under CERCLA, other than operation and maintenance, monitoring and five-year reviews, have been completed. However, this partial deletion does not preclude future actions under Superfund.

DATES: This action is effective September 24, 2019.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–HQ–SFUND–1990–0010. All documents in the docket are listed on the <http://www.regulations.gov> website.
