

products exported to the United States from regions affected with SVD. These requirements include information collection activities such as a certificate, recordkeeping, cooperative service agreement, and storage requirements.

The regulations require, among other things, that the pork-filled pasta products be accompanied by a certificate stating that the product has been handled and processed according to the requirements set forth in the regulations. This certificate must be issued and signed by an official of the national government of the region in which the pork-filled pasta products were processed.

In addition, the processing facility where the pork-filled pasta products are produced must maintain original records for a minimum of 2 years for each lot of pork or pork products used. The records must include the date the cooked or dry-cured pork product was received in the processing facility, the lot number or other identification marks, the health certificate that accompanied the cooked or dry-cured pork from the slaughter/processing facility to the meat-filled pasta product processing facility, and the date the pork or pork product used in the pasta either started dry-curing (if the product used is a dry-cured ham) or the date the product was cooked (if the product used is a cooked pork product). The records must also include the number of packages, the number of hams or cooked pork products per package, and the weight of each package. These records would provide important information in any trace-back investigation that may need to be conducted by officials of the region of origin of the pork-filled pasta product or by USDA officials.

The operator of a foreign processing establishment must enter into a cooperative service agreement with APHIS stating that: (1) The establishment agrees to process pork in accordance with the regulations; (2) the establishment will allow APHIS representatives unannounced entry into the establishment to inspect the facility, operations, and records of the establishment; and (3) the establishment will pay for the costs of the associated inspections and be current on the payments. Also, any storage room area reserved for pork or pork products eligible for export to the United States must, among other things, be marked by signs.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of Burden: The public burden for this collection of information is estimated to average 1 hour per response.

Respondents: Officials of the national government of the region in which the pork-filled pasta is processed and operators of pork-filled pasta product processing facilities.

Estimated Annual Number of Respondents: 2.

Estimated Annual Number of Responses per Respondent: 2.5.

Estimated Annual Number of Responses: 5.

Estimated Total Annual Burden on Respondents: 5 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 17th day of September 2019.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade.

The Terms of Reference of the Codex Committee on Nutrition and Foods for Special Dietary Uses (CCNFSDU) are:

- (a) To study specific nutritional problems assigned to it by the Commission and advise the Commission on general nutrition issues;
- (b) To draft general provisions, as appropriate, concerning the nutritional aspects of all foods;
- (c) To develop standards, guidelines, or related texts for foods for special dietary uses, in cooperation with other committees where necessary;
- (d) To consider, amend if necessary, and endorse provisions on nutritional aspects proposed for inclusion in Codex standards, guidelines, and related texts.

The CCNFSDU is hosted by Germany. The United States attends the CCNFSDU as a member country of Codex.

Issues To Be Discussed at the Public Meeting

The following items on the Agenda for the 41st Session of the CCNFSDU will be discussed during the public meeting:

- Matters referred to the Committee by the Codex Alimentarius Commission and/or other subsidiary bodies
- Matters of interest arising from FAO and WHO
- Review of the *Standard for Follow-up Formula* (CXS 156-1987)
 - Draft scope, description, and labelling for follow-up formula for older infants
 - Essential composition requirements for follow-up formula for older infants and [product] for young

children

- Proposed draft product definition and labelling for [product] for young children
- Proposed draft standard for follow-up formula for older infants and [product] for young children
- Ready-to-use Therapeutic Foods
 - Proposed draft guidelines for Ready-to-use Therapeutic Foods
 - Section 5.2.2 (food additives) and Section 6.2 (proteins)
- Trans-fatty acids (TFAs)
 - Proposed draft claim for “free” of trans fatty acids

Public Meeting

At the November 1, 2019 public meeting, draft U.S. positions on the agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to Dr. Douglas Balentine, U.S. Delegate for the 41st Session of the CCNFSDU (see **ADDRESSES**). Written comments should state that they relate to activities of the 41st Session of the CCNFSDU.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, the U.S. Codex Office will announce this **Federal Register** publication on-line through the USDA web page located at: <http://www.usda.gov/codex/>, a link that also offers an email subscription service providing access to information related to Codex. Customers can add or delete their subscription themselves and have the option to password protect their accounts.
